BEDDING PLANTS

Codes: S=Sun 1/2S=Part Sun Sh=Shade
B=Bedding C=Cut Flowers H=Houseplant
D=Dried Flowers W=Window Boxes, Containers

Prices:

**Price lists are posted in the front
of each greenhouse or you can pick
up a copy at the register.**

ABUTILON (Flowering Maple, Parlor Maple)

3" & 6" Pots

1/2S. HW. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom through the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

-**Bella Mix** Large 3" bell shaped blooms. 14-18"H.

AGERATUM (Floss Flower)

6 Packs (Unless Noted)

S, 1/2S. BCW. Prolific flossy mounds of blooms provide color all summer. Varieties for containers, bedding, and cut flowers. Combine with geraniums and Alyssum for that patriotic red, white, and blue combo. Does best in well prepared soil.

Bedding Types

- 'Blue Diamond'** Mid-blue double blooms. Strong branching plants show great performance in the garden. 8-10"H
- 'Hawaii Blue'** Compact plants bloom prolifically all summer. 6-7"H
- 'Patina Delft'** Excellent heat tolerance, bicolored blue & white flowers above a well-branched plant, no need to pinch. Vigorous. 10-14"H x 12-18"W **Choice**
4 Pks

Cut Flower Types

- 'Blue Horizon'** Lovely blue fuzzy flowers on sturdy stems. Vigorous, uniform growth. 30"H
- 'Everest Blue'** Clear blue flowers and dark green foliage. Self-cleaning, improved variety. 12-15"H

ALCEA (Hollyhock)

6 Packs

S. BC. Striking, old-fashioned favorite. Hummingbirds go into a frenzy around the tall spikes. These bloom the first year not like the perennial type. Always popular.

- 'Indian Spring Mix'** Semi-double flowers in light pink to crimson-rose shades. 4-5'H
- 'Summer Carnival Mix'** Fully double, 4" blooms in yellow, white, crimson, and rose. Very showy! 5-7'H

ALYSSUM

6 Packs (Unless Noted)

S, 1/2S. BW. Tiny blooms cover these carpet forming plants. The most popular of all edging plants. Their sweet fragrance attracts butterflies. Shear to encourage re bloom. They prefer average, well drained soil. 3"H x 10"W

-**'Clear Crystal' Series** Vigorous, large flowered plants. 6-10"H

Colors include: Lavender Shades Purple Shades

-**'Snow Crystals'** Large, pure white flowers. 4-6"H

-**'Snow Princess'** A breakthrough in breeding, being propagated vegetatively gives this plant a good tolerance to wind and rain. Strong, trailing growth makes it ideal for hanging baskets. They will flower throughout the summer and remain attractive into the fall. 4-6"H **3" Pots**

ANAGALLIS (Pimpernel)

3" Pots

S, 1/2S. BW. Colorful plants for borders, rock gardens, and containers. Blooms all summer. Prefers light, sandy soil. Drought resistant.

-**'Wildcat Blue'** Vigorous and compact trailer with a well branched habit. Excellent heat tolerance. 6-10"H.

ANGELONIA (Angel Flower)

3" Pots

S. BW. Long lasting colorful flowers are held on slender upright spikes lasting 4-6 weeks. Aromatic foliage has an apple scent. Heat and drought tolerant.

-**'Angelface' Series** Continuous blooming plants flower well into the fall and do not require deadheading. 18-24"H

Colors include: Blue Improved
Wedgwood Blue (Bicolored blue & white)
White

NEW!-'Archangel Cherry Red' Deep cherry red flowers have dark eyes and are one of the largest flowering Angelonias on the market, not to mention the first red variety to reach the market. 12-14"H

NEW!-'Sungelonia Blue' Compact, dense form with excellent branching. Copious quantities of lavender-blue blooms spring to fall, individual flowers are over 1/2" with whole spikes measuring 4-10" long. 12-15"H

ANISODONTEA (African Mallow)

4½" Pots

S. BWH. Excellent container or patio specimens. Easy to grow into a standard. Bring indoors in winter and keep in a sunny window. Feed every 10 days.

-**Elegant Lady** Large, rose-pink flowers. 1-3'H

-**Strawberry Shortcake** Vigorously upright habit with large 1", deep rose-red flowers. Our own selection, this makes an excellent topiary. 3-4'H

ARGYRANTHEMUM (Marguerites, Boston Daisy)

S, 1/2S. BCW. Bright, showy 'daisies' bloom all summer. Excellent in the border, containers, and urns. Long lasting cut flowers. Average soil. Feed weekly. Deadhead as soon as flowers start to fade.

3" Pots

NEW!-**Angelic Series** Vigorous, upright habit. Crested varieties have semi-double flowers. 12-18"H, 16-20"W

Colors include: Burgundy Candy Pink

4½" Pots

-**Beauty Yellow** Uniform, compact plants perform very well throughout the season and produce high quality, bright yellow flowers. More compact than the traditional Butterfly. 1'H, 2'W.

-**Butterfly** Bright yellow blooms with yellow centers. 14-24"H

-**Glory Big White** Large single flowers. 12-20"H

-**Reflections Pink** Large, single, pale pink flower petals have a deeper pink ring surrounding a dark eye. This variety is one of a kind! 14"H

-**Vanilla Butterfly** Large, pale yellow daisies all season. 18-36"H

ARTEMISIA

3" Pots

S. BW. Lean, well drained soil. Hardy to zone 3, can be used for perennial beds as well as annual plantings. May be sheared to shape. Maine native.

-*stelleriana* **Silver Brocade** Prostrate, felt-like serrated silver foliage with a ground cover type habit. Grows well in sandy soils. 6"H.

ASTER (Starwort)

6 Packs

S. BC. Bright colored, showy blooms are long-lived cut flowers. Butterflies flock to them. Their peak bloom is in August to late September when gardens tend to look a bit faded. They prefer light, sandy soil with added lime and composted manure.

-'**Crego Finest Mix**' An old favorite with large, shaggy blooms. 18-24"H

-'**Giant Princess Mix**' Fully double, crested blooms reach 5" across. 28"H

-'**Matsumoto Mix**' Distinct yellow centers on finely colored 2" flowers.

Heat resistant. 24"H

BACOPA (Water Hyssop)

3" Pots & Choice 4 Packs

S. BW. Very showy flowers all summer long. Small scalloped leaves. Vigorous and heavy blooming. Heavy feeders. Keep moist.

NEW!-'**Mega Copa Versa White**' Large flowers and improved performance in the heat. 4-6"H 3" Pots

-'**Scopia**' Series This series was bred for abundant, early blooms that are continuous throughout the season, increased heat tolerance, and durability. Branched, compact habit. Gulliver types have extra large flowers up to 1" across.

Colors include: Gulliver Blue 3" Pots & Choice 4 Pks also

Gulliver Lilac 3" Pots

Gulliver Snow 3" Pots & Choice 4 Pks also

Gulliver White 3" Pots

-'**Supercopa White Wedding**' Large, beautiful snow white flowers have compound petals that are slightly overlapping making them a bit more distinct. Strong grower. **Choice 4 Packs**

BEGONIA

FIBROUS BEGONIA (Wax Begonias)

6 Packs (Unless Noted)

S, 1/2S. BW. Excellent color from spring until frost. More tolerant of sun than tuberous types. Keep moist in full sun. Fertilize every other week.

-'**Ambassador' Series** Large flowers, very rich green foliage.

Compact dwarf. 8-10"H

Colors include: Bicolor Coral
 Pink White

NEW!-'BIG' Series "Landscape" type Begonias make a big impact on plantings.

Tall, upright/arching plants bloom early and have glossy leaves. HUGE golf ball sized blooms averaging 3". 20-24"H, 16-20"W **Choice 4 Packs**

Colors include: Pink with green leaf
 Red with green leaf
 Rose with green leaf

-'**Dragon Wing Red'** Large, wing-shaped, glossy green leaves with brightly colored single flowers in abundance all season. 12-15"H **Choice 4 Packs**

-'**Sprint PLUS' Series** Large, round blooms are early to flower and very uniform. Green foliage. Excellent performance in containers or bedding. 10"H

Colors include: Blush Scarlet (Red) White

BEGONIA HYBRIDS

4½" Pots

Hybrid begonias have large blooms, all summer long and perform exceptionally well, whether planted in containers or the landscape.

-'**Amstel' Series** Vigorous, floriferous plants. 12"H

Colors include: Batik (Orange) Blitz (Yellow)
 Camilla (White w/ rose) Carneval (Orange & yllw)
 Clara (Bright White)

-'**Rhine' Series** Fully-double, peony-type blooms from May until frost.

Colors include: Berseba (Soft Pink) Borias (Soft, Antique Pk)
 Brigitte (Dark Orange)
 Dragone Champagne (Soft peachy-pink)
 Dragone Dusty Rose
 Dragone Sunset (Salmony-apricot)
 Dragone White Blush Nadine (Rich Yellow)
 Red Baron Rio (Bicolor yellow & red)

BEGONIA, Continued

REX BEGONIA

4½" Pots

1/2S. BWH. These are also known as Painted Leaf Begonias. Grown for their beautiful, large, colored leaves. They have striking patterns in variations of red, black, silver, and/or green. Pot into a loose, well-drained soil mix, avoid over-watering. Fertilize every two weeks in spring and summer. Also makes an easy indoor plant when given bright, filtered light and warm temperatures.

- NEW!-'China Curl'** Deeply twisting spiralled leaves have chocolate brown edges and a central band of silver with a deep pink layer faintly blurring between the two. Highly distinctive yet easy to blend in plantings. 14"H
- 'Escargot'** These attention-grabbing silver and olive green leaves swirl into the center like a snail shell giving the plant its name. 6-12"H
- 'Fairy'** Part of the Fancy Leaf Large Series. Extra lg., bright multicolored leaves have burgundy margins, with mostly silver interior and green veins. 6-12"H
- 'Fireworks'** Wing shaped, iridescent silver leaves have metallic purple segments. This is one of our favorites. 12-18"H
- 'Great American Cities' Series** Tricolored leaves have contrasting colors in center, middle, and on leaf edges. Leaves are generally heart-shaped. 8-16"H
- 'Cancun Christmas'** Green outer ring, burgundy center with pink and white speckles throughout. More compact than the rest of series. 8-10"H
- 'Maui Mist'** One of the best pink shaded varieties, long pointed leaves.
- 'New York Swirl'** Crisp, dark maroon and black fingers mark the center of the curling snail shaped interior. Silver and pink leaves have a darker undulating leaf margin with irregular teeth along the edge. Exquisite!
- 'Seattle Twist'** Bright pink center, cream middle, green and pink edge.
- 'Miralest'** Part of the Bob Golden Collection, the leaves of this Begonia have a thick layer of deep green on the outside, pink in the middle, and almost black centers; splotted with white throughout. 12-18"H
- 'Pink Banded Silver'** Obvious bands of color make this variety a standout amongst the rest, changing from pink to silver then back to pink again.
- NEW!-'Ring of Fire'** Vibrant red and silver patterning with contrasting deep green veins. Full and mounding form. 10"H
- NEW!-'Tie Dye'** Deep red and green markings adorn these large, wavy-edged leaves. The blending of colors gives a neat tie dyed effect. Less winter dormancy than other rex types. 14"H

BEGONIA, Continued

TUBEROUS BEGONIA

4 Packs

1/2S. BW. Gorgeous Camellia-like blooms provide a brilliant display until frost. Morning or afternoon sun or a full day of filtered sun. Keep evenly moist and protect from strong winds. Remove faded blossoms and fertilize often to keep them in bloom. Tubers can be dug in the fall and stored over winter.

-**'Non-Stop' Series** Double and semi-double 3" flowers. 8"H

Colors include:	Apricot	Deep Rose	
	Deep Salmon	Orange	Pink
	Red	White	Yellow

BELLIS (Double English Daisy)

6 Packs

S, 1/2S. B. Yellow discs surrounded by ray flowers. Rosette shaped leaves make a nice ground cover. Tolerates cool weather. Well drained, reasonably fertile soil.

-**'Bellissima' Mix** Robust, early flowering mix, hardy to zone 4. Abundant large, fully double flowers. 6-10"H.

NEW!-**'Habanera Mix'** 1¼" Especially large, fully double daisy type flowers.

Their petals have long quilled tips lending them a slightly looser quality. Excellent garden performance, hardy to zone 4. Compact, 6" H

BELLS OF IRELAND

6 Packs

S. BCD. Green bells surround small, white, fragrant blooms. Makes a wonderful cut flower. Poor to average, well-drained soil. Combine with other green flowers for an interesting combination. Will self sow. 30"H.

BIDENS (Spanish Needles)

3" Pots

S. BW. Clusters of yellow, 1¼"-1½" wide, daisy-like flowers. Lacy, deeply divided, soft lime-green foliage. Flowers from spring well into fall. A good brightener for containers and window boxes. Keep evenly moist, not wet.

-'**Bidy Gonzales Big**' Large, single golden yellow blooms over an inch across. Controlled, compact habit. 6-10"H

BOUGAINVILLEA

6" Pots

S. Exquisite paper-like bracts in stunning colors bloom all summer. Allow to dry slightly between watering. If extended wet weather occurs, be sure to bring your plant in out of the rain. Protect from wind. Needs full sun to flower and would benefit from trimming off spent flower stalks, allowing fresh flower bracts to develop significantly faster. Ask for our culture sheet.

-'**Elizabeth Angus**' Glossy green foliage and vibrant purple bracts. Full, lush habit.

-'**Imperial Thai Delight**' Dark green leaves showcase one of the most interesting displays of color. Bracts that emerge white then develop pink shading towards the tips, pink color will be less prominent when not grown in intense sun.

-'**James Walker**' Large bracts start out deep orange maturing to an iridescent magenta giving this variety a beautiful contrast. Moderate grower.

-'**Juanita Hatten**' Rich rose-red bracts and slightly variegated foliage.

-'**Mauna Kea**' Giant, white bracts with a neat and tidy habit.

-'**Rijnstar & Rijnplant' Series**' Particularly suited to growing in cooler climates. These plants are exceptionally heavy bloomers, and are often displaying colorful bracts along the entire branch. Compact, vigorous growth with dense green foliage.

Colors include: RijnStar Lila (lilac) *NEW!*RijnStar White

*NEW!*RijnPlant Vera Deep Purple

-'**Sundown Orange**' Deep orange bracts mature to a light pink. Dark green leaves.

CALIBRACHOA (Million Bells)

3" Pots

S. BW. **EXCELLENT!** Small, rich-colored, petunia-like blooms explode over the plant all season. Very colorful. Self-cleaning. Heavy feeders, that like acid soil and high amounts of iron in their fertilizer.

-**'Aloha' Series** Very large flowers in a variety of bright, clean colors. Semi-upright habit.

Colors include: Red *NEW!*Tiki Orange

-**'Cabaret Purple Improved'** Mounding-trailing plants that are vigorous and floriferous. 6-12"H

-**'Callie' Series** Dense, semi-trailing habit. 6-10"H

Colors include: Light Blue White w/Rose Vein

-**'Cruze' Series** Extremely large, brilliantly colored flowers are abundant. Short internodes produce a plant that is bushy and full.

Colors include: Pink Delicious Red
White Delicious Yellow

-**'Mini Famous' Series** Brilliant colored blooms on well-rounded plants, semi-trailing habit.

Colors include: Dark Blue Neo Yellow Neo White

-**'Superbells' Series** Mounding-trailing plants that are vigorous and floriferous. 6-12"H

Colors include: Apricot Punch Blue Cherry Red
Cherry Blossom *NEW!*Evening Star Grape Punch
Pomegranate Punch Strawberry Punch White
Yellow Chiffon

CELOSIA

6 Packs

S. BCD. Hailing from the tropics these showy plants are named for their large, fiery, often flame shaped inflorescences. Plant in masses for a bold bedding display. Rich, moist, but well drained soil.

-**'Smart Look Red'** Plume type flower. Well branched, bushy habit with dark bronze foliage. Makes a wide based bush with large, deep red plumes. Outperforms others in extreme heat. 15"H

CENTAUREA (Bachelor's Buttons)

6 Packs

S. BCD. Fluffy, pleasant flower heads. A long time favorite cut flower. Any well drained soil will do. Thin to 6-12" apart. Don't over-fertilize for best flowering, dead-heading is recommended, but will self-sow if allowed to mature. EASY.

-**'Blue Boy'** Clear blue, 2" blooms. 36"H

-**'Emperor William'** Heirloom. Single, lapis-blue flowers are abundantly produced atop sturdy, multi-branched stems. 2-3'H, 1'W.

-**'Jubilee Gem'** Dark blue, double flowers. Dwarf, bushy plants. 12"H

CHENILLE

3" Pots

S. Long, soft, drooping cattails all year. Keep evenly moist. Heavy feeders, apply Osmocote in spring and summer. Bring indoors for winter enjoyment. Keep in a sunny window. Easy and FUN! The kids love 'em.

-**'Firetail'** Fuzzy, red flowered tassels. 6"H

CITRUS

4½" & 1 Gallon

S. Yes, you can grow dwarf citrus trees in your home! But consider the following first, this ubiquitous pantry staple has some essential needs:

- 1) At least 8-12 hours of sunlight with DIRECT light contact on the foliage (unless supplemental lighting is provided).
- 2) A moderate 55-85°F temperature range.
- 3) Very well drained garden soil mix.
- 4) Preferably a slow-release fertilizer that is high in nitrogen, with parts being 3-1-1 and supplemental foliar applications of fish/kelp emulsion.
- 5) A water meter (highly recommended)- to avoid an overly moist medium. The sharpened pencil method will also do the trick (ask us for details).
- 6) Additional humidity during the winter months.

COLEUS (Flame Nettle)

1/2S, S. BW. Bright colored foliage for those shady areas. Superb potted plants. Will tolerate sun, but colors fade. Average soil. Remove flowers as they form.

6 Packs

- 'Black Dragon'** Large, dark red leaves with black edges. 12-14"H
- 'Fairway' Series** Well branched plants with an extra dwarf habit have vivid foliage colors and are versatile. They are well suited for use in baskets, landscapes, window boxes and planters. 8"H, 10"W
 - Colors include: Orange Red Velvet
 - Rose Ruby
- 'Giant Exhibition' Series** Bright colors for a shady area. Extra large leaves. Nice houseplants. 10-12"H
 - Colors include: Multicolored Palisandra Black
 - Scarlet Magma
- 'Versa Rose to Lime'** Thrives in both the sun and shade. Vigorous, well-branched plants begin rose colored, eventually disappearing to reveal green edges with a cream center. 24"H
- 'Wizard' Series** Extremely dwarf and compact. Large leaved with uniform branching. 10-12"H
 - Colors include: Golden (Lemony-yellow)
 - Jade (Light green outer, white interior) Pastel (red, salmon, green)
 - Pineapple (green with dark red flecks) Scarlet
 - Sunset (Bronze) Velvet Red

4 1/2" Pots

- 'Gold Treasure'** Bright lime leaves w/frilly edges & green central markings. 18"H
- 'Signature Smallwood Driveway'** Bright yellow leaves are variegated with green, cream, and red. Scalloped edges add extra texture. Upright/mounding habit is excellent for mixed containers or the landscape. 18"H
- 'Under the Sea' Series** These unique new introductions take their inspiration from the sea, not only for their names but also in appearance. Most have deeply dissected, frilly leaves. Impressive on their own, when used in mixed containers, or in the landscape. 18-24"H
 - Colors include:
 - Bone Fish (Bright fuchsia, chartreuse edges)
 - Gold Anemone (Bright green, deep purple edges)
 - Hermit Crab (Salmon-pink, grn/cream variegation)
 - King Crab (Red with yellow edging)

COSMOS, Continued

-**'Sensation' Series** Large, showy, single flowers. 3-5'H

Colors include: Dazzler (Crimson-red) Mix
Pinkie Purity(White)
Radiance(Dp rose w/crimsn)

-**'Sonata' Series** Single, 3" flowers with gold centers. Dwarf. 2'H

Colors include: Carmine Mix
Pink Pink Blush
White

-**'Xanthos'** Stunning, 3" soft pastel yellow flowers fade at the edges.

Long blooming with a compact upright habit. 20-24"H

CYNOGLOSSUM (Chinese Forget-Me-Not)

6 Packs

S, 1/2S. B. A valuable splash of blue. Intense blooms rise above the plants in clusters. Spectacular with whites and pinks. Average, moist but well-drained soil is best; not overly fertile.

-**'Firmament'** Rich, clear blue flowers on bushy, compact plants. 15-18"H

DAHLIA

S, 1/2S. BCW. Diverse and versatile plants. They typically have large, spectacularly colored blooms which are great for cutting and attracting butterflies. Large, garden varieties begin blooming later than the potted types, beginning early summer to frost. Rich, well-drained, evenly moist soil is best.

6 Packs

-**'Figaro' Series** Double blooms. Dark green leaves. Compact. 14"H

Colors include: Mix Orange Shades
Red Shades Violet Shades
White Yellow Shades

-**'Fresco' Mix** Double, brilliant colored blooms of red, violet, yellow, white, and rose. 12"H

-**'Harlequin' Mix** Mixed colors with bold stripes and frilly collars. Very showy! Dwarf. 10-12"H

DAHLIA, Continued

4½" Pots

-**'Dahlinova Hypnotica' Series** Vibrant, eye-catching 4" flowers in unique shades. Plants are well-branched, uniform, and perform well in either containers or the landscape. Blooms from spring to fall. 12-26"H

Colors include: **NEW!**Orange Red
 Rose Bicolor Tequila Sunrise
 White Yellow Imp.

-**'Dalaya' Series** Exotic bi-colored blooms resist mildew. Great season-long performance. 12-18"H

Colors include: Red/White
 Shari (Pale coral-pink with yellow)

-**'Goldalia Scarlet Imp.'** Dynamic bicolored flowers have a naturally compact habit with excellent growth. 8-10"H

-**'Grandahlia' Series** Vivid colored flowers are held above the canopy and bloom continuously throughout the season. Plants continue to produce buds during the entire lifespan of the plant. 18-24"H

Colors include: **NEW!**Dark Red Pink
 NEW!Sunrise Yellow

NEW!-**'Starsister Red/White'** Bright, rich red flowers are semi-double with frilly white interior petals. Large blooms stand out against shiny dark green leaves. 10-16"H

9" Pots

-**Large growing varieties for the garden and for cutting. Decorative type flowers are large, fully double blooms that show no central disc.**

-**'Aspen'** Spiky, decorative white blooms with creamy yellow centers. 14-20"H

-**'Claudette'** Deep, 5" fuchsia-violet decorative blooms. Tight habit is good for containers. 18-20"H

-**'Dark Angel' Dracula'** Dark purple-black leaves with equally dark stems hold single carmine-red flowers up above the foliage. 10-12"H

-**'Ellen Houston'** Orange red with bronze foliage. 18-14"H

-**'Firepot'** Bright pink with yellow centers. 18-24"H

DAHLIA, 9" Pots Continued

-**'Gallery' Series** Low growing varieties with decorative, fully double, 4" blooms with no visible central disc.

-**'Pablo'** Petals have orange at the tips and along the edges with yellow towards the inside; central eye is a deep orange. 10-14"H

-**'Rembrandt'** Deep pink with slightly paler center. 14"H

-**'Karma Fuchsiana'** Decorative. Vibrant fuchsia-red flowers on strong sturdy stems. 5" blooms, 30" H.

-**'Karma Irene'** Decorative. Bright, fiery orange-red. 6" blooms, 30-36"H.

-**'Munchen'** Bright Yellow, 6" blooms. 24"H

NEW!-**'Park Princess'** Bright pink, 4" cactus type blooms have good stems for cutting. Compact habit fits well in the garden border. 24"H

-**'Red Pygmy'** Semi-cactus blooms are a brilliant, spiky red. 18-20"H

-**'Tahiti Sunrise'** Semi-cactus blooms are yellow tipped with rose red. 30"H. 4-6" blooms

DELOSPERMA (Ice Plant)

3" Pots

S. BW. This drought-tolerant succulent forms clumping mats of fleshy green leaves. It makes a good groundcover, an interesting addition to annual containers, or a colorful touch arranged alongside other succulents. Average to well-drained, sandy soil is best. Hardy to zone 5.

-*floribunda* **'Starburst'** This Plant Select winner has 2" vivid magenta flowers with lg. white eyes, blooming from June until the fall. Attracts butterflies. 6"H

DIANTHUS

6 Packs (Unless Noted)

S. BWC. This genus of 300+ plants contains annuals for bedding, self-sowing biennials, and undemanding perennials for the rock garden. Their habit is generally low-growing with grass-like leaves. Blooms can be single, semi-double or double and come in many shades, either solid or multicolored; most being fragrant. Keep dead-headed for repeat blooming. Moist, rich, slightly alkaline soil is preferred.

DIANTHUS, Continued

-*barbatus* (Sweet William) Old fashioned cut flower. Very fragrant. Spectacular displays when planted in large groups. Shear after bloom to continue flowering. Being that these plants are biennials, they will bloom every other year. Zone 4.

-'**Dash Mix**' Compact, well-branched plants are strong and have straight stems. Bright, fragrant blooms are a wide range of five different colors. No staking necessary. 15-20"H, 12-14"W **4 Packs**

-*chinensis* (Annual Pinks) Named 'Pinks' because of their serrated petals, as if cut with pinking shears. Sweet smelling, lacy blooms all season. Attractive in the annual border, rock garden, and window boxes.

-'**Diana**' Series Early blooming, compact plants. Large, single flowers all season. 10"H x 10"W

Colors include: Blueberry Crimson Deep Rose Shades
 Salmon Scarlet

DICHONDRA

4 Packs & 3" Pots

S. BW. A low, creeping plant with rounded, almost circular silver leaves that have white on the undersides. Cascading stems producing a waterfall-like effect when grown in containers or hanging from a stone wall.

-'**Silver Falls**' Vigorous growth. Displays a true cascading habit. Very drought and heat tolerant. Branches well without pinching. 4"H x 24"W

DRACAENA

3½" Pots

S, 1/2S. WH. Tall grass-like spikes have been used for accents in urns since the Victorian era. A mainstay for planters and memorial tubs. Can be used as a houseplant. Soil-adaptable. Tolerates hot, dry conditions. 18-24"H

DUSTY MILLER

6 Packs

S. BDW. Exquisite silver foliage provides welcome contrast in the border, container, or window box. Good dried decoration. Thrives in a hot, dry site.

-**'Silver Dust'** Very fine-cut, silver-white foliage. 8"H

-**'Silver Lace'** Delicate, silvery-gray, lacy foliage. Like fine filigree. 6"H

ENGLISH IVY

3" Pots

S, 1/2S. WH. This foliage plant comes in many varieties with various leaf shapes and colorations. The leaves can be lobed, heart-shaped, or rounded and either plain green or variegated. They look great growing over the edges of containers.

Green varieties:

'Duckfoot'

'Green Ruffles'

Variegated varieties:

'Glacier'

'Gold Child'

'Gold Ingot'

'Golden Kolibri'

'Lauren's Lace'

'Mint Kolibri'

'Yellow Ripple'

EUPHORBIA

3" Pots

S. BCW. A charming plant that has become increasingly popular due to their unique flower heads. The flowers are actually cup-shaped, ornamental bracts borne beneath the true flowers. Euphorbias exude a white sap when the stem or roots are damaged which can irritate the skin. No need for deadheading with this plant, it is self-cleaning! Excellent in mixed planters and window boxes.

EUPHORBIA, Continued

-**Breathless Blush** One of the first dark-foliaged Euphorbias on the market. This plant has stunning red-flushed leaves with blush pink and white flowers.

Stocky, mounded plants display excellent heat tolerance. 8-12"H, 20-24"W

-**Diamond Frost** This is the single most awarded plant that Proven Winners has ever introduced. Clouds of dainty white flowers. Full and airy habit.

Exceptionally heat and drought tolerant. 13-16"H

NEW!-**Diamond Delight** Extra vigorous plants are extremely tolerant of adverse conditions. Double flowers make an already incredible plant stand out even more. 10-12"H

NEW!-**Glitz** Perfect mounded plant for mixing into plantings or containers. Same rugged tolerance as the rest. Medium, compact habit with good branching. 10-14"H.

EVOLVULUS

3" Pots

S, 1/2S. BW Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

-**Blue My Mind** True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

FELICIA

4½"Pots & 4 Packs

S. BWH. Masses of daisy-like blue blooms. Poor to moderately fertile, well-drained soil. Keep moist. Feed every 10 days. May be brought inside for winter.

-*amelloides* '**Astrid Thomas**' Bright, cerulean blue flowers with yellow centers.

Much larger flowers than the species. Likes it cool. CHOICE!! 1-2'H

-**Spring Merchen Mix** Dwarf, heavily branched strain of Felicia with attractive 1¼" flowers. Flowers are mostly sky blue but can also be pink, rose, and purple. 6-8"H

FUCHSIA (Lady's Eardrops)

3" Pots

1/2S, Sh. W. Petticoated blooms in many shapes and colors. Fuchsias do not do well in full sun. They prefer 3-4 hours of morning or afternoon sun. Keep moist at all times, but not soggy. Remove the berries as soon as they form.

-**'Dark Eyes'** Double, large, violet-blue with shining red sepals.

-**'Lavender Beauty'** Double. Red sepals and lavender corollas.

-**'New Millenium'** Double. Pink corollas with black sepals.

-**'Swingtime'** Double. White corollas with red sepals.

GAILLARDIA (Blanket Flower)

4 Packs

S. BWC. This hardy perennial, zone 4, will flower continuously from June through August. Highly tolerant of drought and poor soil conditions make this an excellent choice for bedding applications.

-**'Arizona' Series** Ultra compact, tidy, mounded habit. Single daisy-like flowers up to 4" wide. 8-12"H

Colors include: Apricot (Apricot w/ golden yell. edge, green eye)

Sun (Mahogany red w/ yellow edge)

Red Shades (Crimson red)

GAURA (Wand Flower)

3" Pots

S, 1/2S. BW. Profuse flowers resembling butterflies bloom most of the summer and are displayed above the foliage giving the plants an airy, ethereal look. Deadheading is necessary for best flower production. Does best in well-drained sandy soil. Tender perennial.

-**'Pink Fountain'** Heavily branched with a more dense habit. Solid green leaves. Bicolored white and blush pink flowers. 24"H

-**'Pink Lady'** Large, pink and white blooms are prolific. Compact, dark green foliage with bronzy accents. 18-24"H

GAURA, Continued

- 'Rosyjane'** Neat stands of willowy stems produce unique bicolored white and pink flowers. 24-30"H
- 'Siskiyou Pink'** Brilliant rosy-pink flowers with white stamens. 18-30"H
- 'Snow Fountain'** Blush-pink buds open to pure white flowers leaving traces of soft pink intermingling with the white. Masses of blooms hover above a heavily branched plant. 2-3'H
- 'Whirling Butterflies'** Bright white flowers adorn this compact and floriferous variety. 18-36"H

GAZANIA

6 Packs (Unless Noted)

S. BW. These are desert plants, doing best in full sun, dry soil, and hot locations. Makes a nice edging. Showy 3-4" daisy-like blooms open in sun and close in shade. Leaves have silky undersides. Deadhead regularly. In winter, can be kept in a south window in a cool room.

- 'Big Kiss' Series** Huge, 4½" wide flowers can be striped or solid. Flowers all summer on full, bushy plants that fill in fast. 8-10"H **4 Packs**

Colors include:

Red (rich burnt orangy-red)

White Flame (creamy white w/ pink stripes)

Yellow Flame (yellow w/ mahogany stripes)

- 'Gazoo Mixture'** Show-stopping extra large, 3" flowers. Bright oranges, reds, and yellows with either clear or ringed blooms. Strong vigor in the ground. 10"H **4 Packs**

- 'Kiss' Series** Large flowers on short, sturdy stems, with dark green foliage. Mounded and uniform habit. Frosty varieties have silvery foliage. 8-10"H

Colors include:

Frosty Red

Frosty Yellow

Frosty Orange

Mix

Orange Flame

Rose

Yellow Flame

GERANIUM

4½" Pots

S, 1/2S. BWH. Nothing says 'Welcome Home' more than a clay pot filled with Geraniums at your door step. Well-drained, moderately rich soil for best bloom. Tolerates dry, hot conditions. Apply Osmocote monthly or fertilize weekly in the spring and summer for best results. Protect from wind. To avoid fungus problems, keep foliage and flowers dry. Can be overwintered in a sunny window.

-Interspecific Geraniums Breeding technology has combined the best qualities of an Ivy with a Zonal. Their controlled mounded habit is well suited to baskets, landscapes or containers.

-'Calliope Large' Series Large flowers produced continuously all season long. The exceptional branching and superior vigor have garnered numerous awards for this series'. Excellent heat tolerance as well. 10-14"H

Colors include: Dark Red *NEW!* Pink Scarlet Fire

-Ivy Geraniums Great in hanging baskets, containers, and window boxes. Good green foliage and profuse double or single blooms. 8-10"H

-'Contessa' Series Traditional ivy geraniums with semi-double flowers.

Colors include: Burgundy Bicolor (Picasso)
 Lavender (Amethyst) Pink
 Red (Beach) White

-'Freestyle Orchid' Semi-trailing. Outstanding heat tolerance.

-'Temprano' Series Early flowering plants.

Colors include: Bright Red Pink (Flair)

-Novelty Geraniums Showy leaves or flowers. Interesting accents.

-'Platinum' White-edged leaves and single, salmon-pink flowers.

-Regal Geraniums (Martha Washington Geraniums) Unusual, showy, semi-double geraniums. Regals have eye-catching color patterns and make nice gifts. Use as a houseplant or for accent plants.

-'Elegance' Series Flowers early and into the summer. Self-branching, upright. 10-14"H

Colors include: Appleblossom
 Crystal Rose (Blush white with maroon center)
 Orange
 Purple Majesty (Deep purple with lilac)
 Red Velvet
 Rose Bicolor
 Royalty White (Pure white w/pink center)

GERANIUM, Continued

-Scented Geraniums Most scented geraniums bear small clusters of single flowers. All varieties have leaves that are scented and the fragrance is typically reflected in their name.

In addition to the scents listed below there will also be some assorted interesting ones to choose from.

Scents include: 'Attar of Roses'
 Citronella
 Peppermint
 Strawberry

-Zonal Geraniums Brightly colored blooms on compact, floriferous plants. Your classic Geraniums.

-'Americana' Series Boldly colored, large flower heads.

Colors include: Cherry Rose Coral Dark Red
 Light Pink Splash Pink Red
 Violet

-'Classic' Series Medium green leaves.

Colors include: Dark Salmon Light Salmon
 Pink Blush Salmon
 White

-'Rocky Mountain Orange' Strong, vigorous plants with outstanding garden performance. Give these plants some room to grow! They really show their value when used in bedding applications, space every 18" as opposed to the typical 12" with other Zonals.

GERMAN IVY

4 Packs

S, 1/2S. BW. Dark green ivy shaped leaves. Popular as a trailer. Lush, foliage cascading from planters, window boxes, and hanging containers. Vigorous.

GERBERA (Transvaal Daisy)

2½" (limited quantities) & 4½" Pots

S. BCW. Solitary, daisy-like flowers oozing with cheerfulness. They prefer rich, moist, well-drained soil. Heavy feeders! Pot one into a decorative pot for an excellent gift idea.

-**'Bengal' Series** Plants are strong and vigorous with continuous large, showy flowers. 8-10"H

Colors include: Red with Eye
Yellow with Eye

-**'Cartwheel Autumn Colors Mix'** Large, distinctive semi-double blooms appear in seven shades of fall colors. Lush, vigorous plants. 16-18"H

NEW!-**'Cartwheel Glowing Ember'** Large, distinctive, semi-double blooms are light reddish-orange. Lush, vigorous plants. 16-18"H

NEW!-**'Floriline Giant Orange Bicolor'** Enormous 5-5½" flowers are bold orange with a dark eye. Bright green leaves.

-**'Revolution Mega'** Bushy plants are vigorous and perform well in large containers. Very large, bold-colored flowers, mostly with dark eyes. 12-16"H.

Colors include: Salmon Rose with Light Eye
*NEW!*Yellow with Dark Eye

*NEW!*Watermelon

-**'Royal Prince Neon Violet'** Compact sized plants with a prostrate habit and dark green leaves. Large, bright flowers have a color unlike any other Gerbera we've seen. 10"H

-**'Sundayz Maxi Mix'** Compact, sturdy plants designed specifically for use in containers. Bold, 3-4" dbl. flowers are long-lasting and slow to age. Lots of colors to choose from some with dark eyes and some with light.

Colors include: Mixture
*NEW!*Red

GOMPHRENA (Globe Amaranth)

6 Packs

S. BCD. Upright spikes of clover-like flower heads provide interest to dried flower arrangements and crafts. Average soil that is well-drained is ideal, will tolerate dry soil when established, but needs water during extended dry periods.

-**'Qis Mix'** Large, 1½-2" flowers of lilac, pink, purple, rose, and white from summer until frost. Strong, well branched stems. 20-24"H

ORNAMENTAL GRASS

4½" Pots

S. BDW. Unusual colored foliage along with different textures add pizzazz to any arrangement. Good alternatives for that added height instead of the ubiquitous *Dracaena* or "spike".

- Juncus effusus* 'Big Twister' (Corkscrew Rush) Deep green cylindrical foliage grows upright in spirals creating a wild, unique look. Prefers to be moist but is tolerant of heat and drought when in the ground. 18-24"H Hardy to zone 5.
- NEW!**-*Juncus inflexus* 'Blue Arrows' Stiff, upright blue-green foliage is very versatile in plantings. Tolerates wet, pondside conditions but if planted in ground will also stand drought-like conditions. 3'H
- Pennisetum* 'Celebration Fireworks' Strongly variegated burgundy and hot pink foliage is full of flair! Soft pink plumes arch up above the leaves. 2-3'H

HELICHRYSUM (Licorice Plant)

3" Pots (Unless Noted)

S. BW. Attractive filler in borders and containers, the soft colors and oval leaves provide a wonderful neutral accent. Poor to avg., well-drained soil. Keep moist.

- 'Icicles' Upright mound of silver foliage, slender needle-shaped leaves. 12"H
- 'Licorice' Series Licorice-scented leaves. Excellent trailing habit. 8-12"H
- 'Lemon' Pale lime colored foliage.
- 'Mini Licorice' (*Plecostachys*) Light bluish green, tiny leaves. **Choice 4 Pks**
- 'Splash' Variegated green and lime foliage.
- 'White' Silver-white felted leaves.

HELIOTROPE

3" Pots (Unless Noted)

S, 1/2S. BCW. Colorful and very fragrant - so much so that it is farmed for perfumes. Smell is reminiscent of baby powder. Deadhead to promote flowering, flowers are very attractive to butterflies. Performs best when shaded from the hottest sun. Heavy feeders. Rich, moist soil. Don't allow to dry out.

- arborescens* Old fashioned variety. Lavender flowers. 18-36"H
- arborescens* 'White' Fragrant white blossoms. 18-36"H
- 'Fragrant Delight' Deep purple flowers. 12-18"H
- 'Marine' Huge, deep violet-blue umbels on compact plants. 16"H **6 Packs**
- 'Mini Marine' Very fragrant, large umbels, compact. 12-16"H **6 Packs**

HYPOESTES (Polka Dot Plant)

6 Packs

1/2S, Sh. BW. Colorful foliage with a “splash” of color for a shady spot. Brightly spotted foliage is a wonderful accent in mixed borders. Rich, evenly moist, well-drained soil. In the fall, bring indoors for a decorative foliage plant.

-**Splash Select** Series. Foliage is uniformly spotted and splashed with the following shades. Heat and shade tolerant. Dwarf, 10-18”H, 12-14”W.

Colors include: Pink Red Rose

IMPATIENS (Busy Lizzie)

1/2S, Sh. BW. Here’s that needed color for the shade. Blooming all season long. Moist soil is ideal. Height is variable depending on conditions. EASY!

Double Varieties-Choice 4 Packs

-**Rockapulco** Series Superior branching, uniformity, and heat tolerance. Carpets of 1½” blossoms resembling mini roses. 10-12”H

Colors include: Appleblossom Coral Reef Orchid
 Red White

-**Silhouette** Series Full, double blooms sit above the foliage. Early flowering, with uniform growth habit. 8-12”H & W

Colors include: Cherry Rose Salmon
 White

Single Varieties-6 Packs

-**Accent Star Mix** Very reliable and well branched grower for pots, baskets, and bedding. Visually interesting 1½” flowers come in rose and red with large white stripes down the center of each petal. 10”H

-**Super Elfin** Series Large flowers, bloom continuously. Compact, spreading habit. 8”H

Colors include: Blue Pearl (pale lavender-pink)
 Bright Orange Coral
 Lipstick Mix Pink
 Red Rose Salmon
 Violet White

IPOMOEA (Sweet Potato Vine)

3" Pots

S,1/2S. BC. Used as an attractive foliage filler for pots and window boxes, most varieties having rounded or heart-shaped leaves, very versatile. Average, well-drained, evenly moist soil is ideal.

-*batatas* varieties

-'**Blackie**' Lobed, near-black foliage. 8-10"H

-'**Margarita**' Bright chartreuse, fan-shaped foliage. 6"H

-'**Sweet Caroline**' **Series** Compact, semi-mounded habit, with dense foliage.

Good vigor yet will not overgrow other plants when interplanted. Sweet heart varieties have heart shaped leaves. Bewitched varieties are more upright and more compact with a serrated margin. 6-8"H when containerized, 18-24"H in the landscape.

Colors include: *NEW!* Bewitched Green with Envy

NEW! Raven (dark purple-black)

Sweetheart Lime

-*indica* Morning Glory Vine. Tropical vine with stunning, 4" blue trumpet shaped flowers. May be used as a houseplant in winter. 8-10'H

IREFINE (Bloodleaf)

3" Pots

S. BW. *lindenii*. Grown for their richly colored, glossy burgundy and red leaves, leafstalks, and stems. Leaf coloration is best in full sun. Great accents in mixed containers. Good, rich, evenly moist well-drained soil. 12"H

ISOTOMA (Laurentia)

6 Packs

S. BW. A charming addition from the Bellflower family, this warm-weather annual has finely cut fern-like leaves and thin flattened tubular flowers from early summer until fall. Average, well-drained soil is best.

-'**Tristar**' **Series** Abundant star shaped flowers above lovely mounds of cushiony green, finely cut foliage. Flowers continuously throughout the summer. 8"H

Colors include: Deep Blue Sky Blue

LANTANA

3" Pots

S. BW. Characterized by domed clusters of bright flowers that are attractive to both hummingbirds and butterflies. These plants thrive in hot weather and bloom profusely from spring until frost. Poor to average, well-drained soil, fertilize often.

-**'Bandana' Series** Large flower clusters on mounding plants. 16-20"H & W
Colors include: Cherry Lemon Zest Orange
Red Improved

-**'Bandito' Series** Dense, mounding plants produce limited seed set for a more continuous summer blooming. 12-14"H & W

Colors include: Red Rose

-**'Lavender Weeping'** Clusters of 1/2" wide, rose-lilac flowers.

-**'White Weeping'** Pure white flower clusters on trailing stems.

LARKSPUR (Annual Delphinium)

6 Packs

S, 1/2S. BCD. Showy blooms for great color. Fertile, well-drained soil. Excellent cut flowers are also attractive to hummingbirds. Deadheading will prolong the bloom time, but will self-sow if flowers are allowed to set seeds.

-**'Sublime' Mix** Exceptional mix of colors is an improved strain of the Imperial series that is recognized worldwide as the best series for drying, as well as a wonderful choice for cutting. A wide range of nine colors are in this assortment. 3-4'H

LAVATERA (Tree Mallow)

6 Packs

S. BC. Delicate Hibiscus-like blooms all season. Bushy habit is useful for hedges or as an accent plant in the border. Ordinary, well-drained soil. Planting in a soil that is too rich will yield few flowers.

-**'Twins Hot Pink'** A dwarf that is satiny with fully rounded, 4" flowers. Disease tolerant. Excellent cut flowers. CHOICE! 20"H

-**'Mont Blanc'** Large, 4" pure white flowers have a lovely sheen. 24"H

LISIANTHUS (Eustoma)

4 Packs

S. BC. Elegant, chalice-shaped flowers with fleshy gray-green leaves. Best results will be achieved when planted in the ground rather than a container. Rich, well-drained soil. Likes lime. A must for the cutting garden! Will continue to produce flowers after first cuttings are taken.

-'ABC Blue Rim' Outstanding double flowered form. 36-45" H

-'Advantage Purple' Large, fully double flowers have yellow stigmas that contrast nicely with the surrounding drk. purple petals. Buds are an interesting lime grn. with lt. purple striping. Bred to have stronger, thicker stems. 28-35" H

-'Mariachi' Series Ultra-double, 3-3½" flowers. Great cut flower. 20-36" H

Colors include: Blue Carmine *NEW!* Lavender
 Lime Green Misty Pink Pure White

LOBELIA

S, 1/2S. BW. Trailing types for window boxes and hanging baskets. Compact types for beds and borders. Moist, rich, well-drained soil. Needs shade protection in hot weather. Shear to promote blooms. The finishing touch!

3" Pots- Cutting Grown (Flowers all season!)

-'Bella Donna' Compact growth and heat tolerance combine making this plant a great choice for containers. Large flowers with a predominant white eye are a knockout in baskets. Mounding. 12-18" H

-'Laguna' Series Free blooming from spring through fall. Mounded and trailing. Heat and cold tolerant.

Colors include: Sky Blue White

-'Lucia Dark Blue' Cobalt-blue blossoms withstand the heat better than older varieties. Outstanding performance alone, in the landscape, in baskets or in combination plantings. Plants retain their shape and color all season. 6-8" H

-'Magadi Basket Dark Blue' Mounded, thick-branching with outstanding summer performance and brilliant color.

-'Techno' Series Early flowering, with a trailing habit. Heat types have an improved tolerance for summer conditions producing a more consistent blooming period. 6-10" H, 18-24" W

Colors include: Blue Heat Dark Blue
 Heat White

LOBELIA, Continued

6 Packs- Seed Grown

-**'Crystal Palace'** Deep blue flowers on upright plants. 6"H

-**'Regatta' Series** Extra early blooming. Trailing habit. 8"H

Colors include: Marine Blue Sapphire Sky Blue

-**'Riviera' Series** Compact, upright, ball-shaped plants with bronze lvs. 6-8"H

Colors include: Marine Blue Midnight Blue
Sky Blue White

LOPHOSPERMUM

4½" Pots

S. Fully-trailing vine that will perform all summer long. Large, trumpet-shaped flowers have long, slender stems. Pale green leaves have very serrated edges and will fill in to magnificently provide coverage for masking a post or other structural element. Climbs readily if allowed. EASY.

NEW!-'Lofos Compact' Series Compact version of the traditional Great Cascade with the same high quality flowers. Trailing to 24"

Colors include: Rose White

LOTUS (Parrot's Beak)

3" Pots

S. C. This trailing tender Mediterranean sub shrub is in no relation to the aquatic lotus plants. Excellent filler for container plantings. Will tolerate a wide range of growing conditions including dry/sandy soil and a pH that is acidic or alkaline. Plants grow best with average soil that is well-drained. Flowers are only produced when plants experience a cooling period beforehand.

-*berthelotii* Soft, silver-green needle-like leaves are arranged in whorls along the stems. Trailing/spreading 2-3' or more. 6-8"H

LYSIMACHIA (Creeping Jenny)

3" Pots

S, 1/2S. BW. Shiny golden foliage brightens up gardens and containers. Great filler plants for combination containers. These are actually perennials that are hardy to Zone 3.

-**'Goldilocks'** Chartreuse leaves on trailing plants. 2-4"H

MARIGOLD

6 Packs

S. BCW. Not boring anymore! Extremely versatile annual with many flower forms and heights. Blooms all summer. The dwarf varieties stand out in planters and the taller ones make a bold statement in borders. A true garden workhorse. Deadhead for better bloom.

-African Marigolds Useful in large, formal beds. Upright plants that can reach up to 20" tall. Large globe shaped flowers.

-'Garden Joy Mix' This disease tolerant series withstands the demanding summer stresses, no more collapsing in the rain. With 5" ball-shaped orange, gold, and yellow flowers. Strong branching structure. 24-32"H

-'Lady' Series Large, 3-4" double blooms. 16-18"H

Colors include: First (Bright Yellow) Orange

-'Marvel' Series Excellent outdoor performance. Tight, 4" double blooms flower early in the season. 18"H

Colors include: Gold Yellow

-'Sweet Cream Vanilla' 3" creamy white flower heads. 16"H

-French Marigolds Prolific flowers and compact habits make them excellent choices for informal borders.

-'Durango' Series Extra large flowers on strong stems. 10-12"H

Colors include: Bolero (Golden yellow w/red tips)
Flame (Mahogany w/orange edges)
Red Yellow

-'Janie' Series Uniform, continuous blooms. Dwarf. 8-10"H

Colors include: Bright Yellow Deep Orange Flame
Mix Primrose Tangerine

-'Safari' Series Extra large, clear flat blooms. 8-10"H

Colors include: Orange Yellow Yellow Fire

-Triploid Marigolds Hybrids of African and French Marigolds. Sterile flowers don't put energy into forming seeds so they bloom profusely and continuously

-'Sunburst' Series Large, 3", single blooms. 14-16"H

Colors include: Yellow
Yellow Splash

-Signet Marigolds Compact plants with finely divided, lemon scented, fern-like foliage. Masses of small single flowers cover the plants

-'Lulu' Lemon yellow blooms. 8-12"H

-'Tangerine Gem' Orange, dime sized flowers. 12"H

MATRICARIA

6 Packs

S. BCW. Closely related to Chrysanthemums, this plant has finely cut leaves. *Often strong-scented.* Bees and wasps dislike them and will avoid the area, take care not to plant them near other plants where pollination by bees is necessary. Excellent border plant and cut flower.

-**'White Wonder'** Double white blooms with yellow centers. 24"H

MORNING GLORY

6 Packs

S, 1/2S. BW. Vines for around the mailbox, for climbing up a trellis or fence, or for hanging from a planter. Prefers moist soil. Will tolerate poor soil.

A limited number of assorted 6" trellised pots will be available also.

-**'Blue Mixture'** A mix of solid and striped blue flowers. 6-10'H **6" Pots**

-**'Blue Star'** Large blue flowers with white stars. 8-12'H

-**'Clark's Heavenly Blue'** Large flowered sky blue. Favorite. 8-10'H+

-**'Crimson Rambler'** Crimson red flowers with white centers. 6-8'H

-**'Grandpa Ott'** Very old variety. Dark purple with a red star.

-**'Milky Way'** Large, white shaped flowers with carmine-rose streaks.

-**'Moonflower White'** Magnificent, fragrant blooms open at night. Blooms until first frost. 10-20'H **6"Pots**

-**'Pearly Gates'** All America Selections winner. Large, satiny white, daytime flowers. Grows 6-8'H

MYOSOTIS (Forget-Me-Not)

4 Packs & 3" Pots

S, 1/2S. BW. One of the most beautiful spring plants. Compact, mat forming plants covered with dainty flowers. Biennial. Self-sows freely once established. Well-drained, moist acidic soil.

-*palustris* Bright blue flowers with small yellow eyes bloom from May thru August. Runner type roots that will spread up to 18". Keep soil moist. 6-8"H

NASTURTIUM

6 Packs (Unless Noted)

S. BW. Bright colors; climbers and dwarfs. Edible flowers add interest to salads - colorful and tangy. Soil should not be too moist or rich for best blooms. If nothing grows there, plant Nasturtiums! Keep watered during dry weather. Very easy! Fun and Showy! Also works well in planters and baskets.

-'**Alaska Mix**' Bright-colored flowers with variegated foliage. 12"H

-'**Gleam**' Series Large, fragrant, single and semi-double flowers. Trailing.

Colors include: Golden Mix Orange

-'**Jewel Mix**' A rainbow of brilliant yellow, red, orange, pink, chamois, rose and some bicolored double blooms. 12"H

-'**Ladybird**' Dwarf, bushy plants with golden-yellow flowers with eye-catching bright red spots. 8"H **4 Packs**

-'**Peach Melba**' Bright, cream-colored blooms with maroon dots.

-'**Phoenix**' Abundant blooms in fiery shades of gold, orange and red. Spaces in between the saw toothed petals lend a wonderfully messy appearance to the flowers. Bushy stems. 1'H, 1-1½'W

-'**Tip Top**' Series Old fashioned, single, 2½" flowers. 10-12"H

Colors include: Apricot Gold Mahogany
Scarlet

-'**Whirlybird**' Series Flowers sit open-faced on top of the stems and lack the typical black spur. Mounding habit. 12"H

Colors include: Cherry Rose Mix

NEMESIA

3" Pots

S, 1/2S. BW. Tubular flowers borne on racemes. Starts flowering early. Shear to keep blooming. Use to soften container plantings, will drape over the sides. Average to rich, well-drained soil that remains moist is best. Transplant with care as these plants are brittle.

-*fruticans* '**Sunsatia**' Series Very showy 1" flowers can be dramatic in multiple applications. Attractive mounded-spreading habit. Exceptionally cold tolerant. 6-10"H **3" Pots**

Colors include: Cranberry Lemon

ORLAYA (White Lace Flower)

4 Packs

S, 1/2S. BC. *grandiflora*. Pure white flowers resemble the blooms of lace-cap Hydrangeas. Fern-like foliage. Long blooming, from summer through fall. Long-lasting cut flowers. 24"H New in 2010 and got rave reviews from gardeners! For best production and to keep flowers coming, take cuttings frequently.

OSTEOSPERMUM

3" Pots

S. BW. Daisy-like flowers in iridescent colors. Glossy foliage. Blooms best during the cooler periods of the season but would continue to bloom longer if given a site that is protected from the strong mid-day sun. Average to poor soil that is light and well-drained. Feed weekly.

-**'Margarita' Series** Large flowers on well branched plants. Compact, 12-16"H

Colors include: Bronze Bicolor Dark Pink

NEW! Orange Flare Purple Yellow

-**'Tradewinds' Series** Excellent branching, compact plants. Exceptional heat tolerance 12-16"H

Colors include: Bronze Deep Purple
White Yellow

-**'Voltage' Series** This is the longest blooming Osteospermum available on the market, it exhibited very good heat tolerance in grower trials. Mounding/spreading habit. 10-16"H, 24-28"W

Colors include: White Yellow

OXALIS

4½" Pots

S. BWH. Grown for their light textured foliage and long blooming flowers. Foliage color may vary depending on light conditions. Can also be used as a houseplant with great results.

-**'Charmed Wine'** Mix of deep burgundy and black triangularly lobed leaves that have dainty lavender-pink or white flowers. 10-14"H

-**'Zinfandel'** Dark, maroon foliage and yellow flowers. Sprawling habit is well-suited to hanging baskets. 6-10"H

PANSY & VIOLA

6 Packs

Colors include: Coral Crush Denim Deep Purple
Pink Vein Red

-**'Easy Wave White'** Compact, spreading habit. Spreads up to 3'W. 6-12"H

-**'Wave' Series** Ground hugging, spreading plants. Very popular! 7"H
Up to 4½"W!

Colors include: Blue Lavender Misty Lilac
Pink Purple

PHLOX

6 Packs

S, 1/2S. BW. Loose clusters of fragrant blooms decorate your garden. A nice edging for a hot area. Prefers average, light, sandy soil. Do not over water. Deadhead to prolong blooming.

-**'21st Century' Series** An amazing dwarf, spreading, colorful ground cover. Compact habit. Flowers from early spring until frost. 10"H **EXCELLENT!**

Colors include: Crimson Pink
Salmon Scarlet White

PLECTRANTHUS

3" & 4½" Pots

S, 1/2S, Sh. BW. A marvelous filler for containers or bedding. Being a member of the mint family the hairy, soft foliage is often aromatic when bruised. Dappled shade with average to rich, well-drained soil is best. They also make fine houseplants.

-**coleoides 'Nico'** This vigorous accent plant has colorful rounded, dark green leaves with purple venation. Thrives in sun or shade. Deer resistant. Semi-prostrate habit. 8-10"H, 1-3'W. **4½" Pots**

-**'Velvet Elvis'** Upright plants feature flower spikes covered with extra large speckled lavender florets similar to miniature orchids. Fuzzy, dark green foliage with rich purple color on the undersides. Excellent heat and drought tolerance. 28"H, 31"W. **3" Pots**

POPPY

6 Packs

S. BC. Dainty blooms all summer. Sear stems after cutting for longer lasting blooms. Light, well-drained, moderately rich soil. Loves our cool climate.

-'**Cherry Glow**' Heirloom selection with stunning ruby red tulip-shaped petals accented by a bright white interior. Classic silvery gray lettuce-leaf foliage. 2-3'H

NEW! '**Frosted Salmon**' Lush, salmony-pink peony type blooms seem straight out of a still life painting with their gorgeous ruffled texture. 2-3'H

-'**Heirloom**' An interesting mix of gorgeous colors with various shapes. Hues of lavender, black raspberry, cherry, and dark claret, all with a darker blotch at the petal base. 2-3'H

-'**Imperial Pink**' Pure pink petals with lavender marks near the centers. Some are fringed, some are tulip shaped. 2-3'H

-'**Lauren's Grape**' Show stopping violet blooms with dark centers. 2-3'H

-'**Shirley Double Mix**' All double, brightly colored blooms. 2½-3'H

PORTULACA (Moss Rose)

6 Packs

S. BW. Low-spreading sun lovers. Flowers will only open in sunny weather, deadhead to promote blooming. Thrives in sandy soil. Tough, drought tolerant plants can be used in sites where few other annuals will grow. Useful for edging along rock gardens or walls, or in containers.

-'**Sundial' Series** Huge, double flowers on compact plants. Very showy with vivid colors. Early and long lasting. Low, 6" H. Spreading to 15".

Colors include: Fuchsia Mango
Peach

-'**Tequila' Series** Tolerates cool, wet conditions better than other Portulacas. Spreading habit. 8"H x 14-18"W

Colors include: Mix Peppermint
White Yellow

PTILOTUS

4½" Pots

S. BW. This unique show-stopper is native to Australia and loves the heat. It's drought tolerant nature allows it to perform well under a wide range of conditions. Blooms appear continuously throughout the summer.

-*exaltatus* 'Joey' Luminous, silver-green foliage holds 2-5" spikes of long-lasting, feathery bottle brush type flowers that start out silver and gradually darken to neon pink at the tips. Compact, uniform habit. 12-18"H, 12-14"W.

RUDBECKIA

6 Packs

S. BC. Huge daisies in a variety of rich, warm colors. In the right conditions, some may come up again in future years. Most are *R. hirta* hybrids. Average loamy soil. It's not summer without these beauties. Flowers all summer until frost!

-'**Autumn Colors**' A mix of reds, yellows, and bronzes. Flowers up to 5" in diameter. 20-24"H

-'**Cappuccino**' Rust-colored, 4" flowers with yellow edges. 18-20"H

-'**Cherokee Sunset**' Double and semi-double 4" flowers. A blend of sunset colors - golden yellow, orange, bronze, and mahogany. 24-30"

-'**Denver Daisy**' Large, 6-8" abundant golden flowers draw attention with distinct rings around the dark eye. 22-26"H

-'**Goldilocks**' Beautiful 3-4" bright golden-orange, daisy-like flowers that are mostly double; some are semi-double. 24-28"H

-'**Indian Summer**' Bronze petals, red rings, and rusty red centers make an attractive contrast. 5" flowers. 36"H

-'**Marmalade**' Large, golden yellow daisies with dark eyes. 18"H

-'**Prairie Sun**' Very large flowers with yellow tips on golden petals and green centers. 28-32"H

-'**Sonora**' 6" sunflower-like blooms with brown centers. 1-2'H

-'**Tiger Eye Gold**' Orange and yellow petals surround dark brown eyes. Semi-double. 16"H

SALVIA (Sage)

4 & 6 Packs, 3" & 4½" Pots (As Noted)

S. BCW. Bright flowers on showy spikes. Red Salvia is popular for patriotic red, white, and blue schemes. The blue Salvias are often used in large bedding displays to tie in and soften other colors. Fertile, well-drained soil. Pinch to promote bushiness. Deadhead regularly.

-*coccinea* '**Summer Jewel**' Series Early, profuse blooms continuously through the season. Dark, finer textured leaves add interest. 18"H **6 Packs**

Colors include: Red White

-*farinacea* **varieties** Blue Salvia - even though it comes in other colors. Typically blue flowers on long graceful stems.

-'**Cathedral**' Series Full, well-branched plants with richly colored flowers. 18-24"H **3" Pots**

Colors include: Deep Blue
 Lavender

NEW! Shining Sea (Bicolor Blue & White)

Sky Blue

-'**Evolution**' Deep violet flowers on long, dense spikes. Well-branched habit. 18"H **6 Packs**

-'**Fairy Queen**' Well-branched plants are long-blooming. Densely filled spikes of sapphire blue flowers are brushed with white. 18"H **6 Packs**

-'**Mystic Spires Blue**' True blue flowers all season. Compact, well-branched, and free-flowering. 24-30"H **3" Pots**

-'**Rhea Blue**' Compact, even habit. 18"H **6 Packs**

-'**Saga Blue**' Intense blue flower spikes. Excellent heat-tolerance and vigor in the garden. Compact, 10"H & W **6 Packs**

-'**Sallyfun Blue Emotion**' Dark flower stems provide contrast on an upright plant. Deep blue flowers have bright white eyes. 18-24"H **3" Pots**

-'**Victoria Blue**' Extremely uniform spikes of color above green, shiny foliage. 18-22"H **6 Packs**

-*patens* **varieties** Gentian Sage. Loose racemes of 2" long, deep blue flowers.

-'**Oceana Blue**' Bright, clear blue flowers. Upright. 24"H **4½" Pots**

-'**Patio**' Series Compact plants with soft, green foliage. 12"H **4 Packs**

Colors include: Deep Blue Sky Blue

-*splendens* '**Sizzler Red**' Scarlet Sage. Bright colored spikes on compact plants. 10-12"H **6 Packs**

SANVITALIA (Creeping Zinnia)

6 Packs

S, 1/2S. BW. Abundant, small, Zinnia-like blooms cover this spreader until frost. Great in rock gardens, containers, or as an edging plant. Soil that is average to rich and well-drained is preferred but plants will tolerate dry and sandy soil. Little fertilizer is required.

-'**Mandarin Orange**' All America Selections Winner. This versatile variety has outstanding, 1" double orange flowers that with their dark center look like miniature sunflowers. 6"H

SCAEVOLA (Fan Flower)

3" Pots

S. BW. Spectacular fan-shaped flowers all summer, attractive to butterflies as well. Excellent, tough, showy plants for those who want something new and easy. Keep moist but be careful not to over water or over fertilize. A diluted solution of iron phosphate will deepen their color. Easy! No dead-heading necessary! Seashore native and deer tolerant.

-'**Diamond**' Bicolor blooms are lavender and white. 15"H

NEW!-'**Fairy White**' This excellent series of Scaevola produces free-branching plants that are suitable for multiple uses and show outstanding outdoor performance. White flowers have the faintest blue tinge. 6-10"H, 1½-2'W

-'**New Wonder**' Profuse bloomer with 1" lavender flowers. Slightly more vigorous than Whirlwind Blue. 10-14"H

NEW!-'**Scalora Suntastic Yellow**' Two-toned yellow and white blossoms with each flower having a darker lemon-yellow throat. 8-12"H, 12-14"W

-'**Whirlwind Blue**' Attractive deep green, cascading foliage with delicate 1" flowers that are almost constantly blooming. Better branching than New Wonder. 8-12"H

SNAPDRAGON

6 Packs

S. BC. Long time favorites for the garden. Great colors! Plant en masse for a spectacular display. Blooming starts at the base of the spikes and moves upwards. Deadhead for repeated bloom. Very fertile, well-drained soil.

-'**Candy Showers' Series** Colorful, lush, trailing snapdragon for baskets, planters, and as ground cover. Blooms develop from the center of the plant along the whole stem. Candy scented. 8"H, 16-20"W.

Colors include: Red *NEW!*Rose
*NEW!*White Yellow

-'**Liberty' Series** Very early flowering with large, graceful spikes. 24-28"H

Colors include: Crimson Lavender Rose Pink
White Yellow

-'**Madame Butterfly Mix'** Bright, azalea-like, double blooms. 24"H

-'**Rocket' Series** Long flower spikes. Heat resistant. 30-40"H Excellent cut flower!

Colors include: Cherry Lemon
Red Rose Shades White

-'**Twinnny' Series** First double flowering series with a low habit, basal branching keeps the plants looking full. Exceptional weather tolerance to both hot and wet summer growing conditions. Performs well in mixed containers and in the landscape. 12"H

Colors include: Appleblossom Peach Rose
Violet White Yllw Shades

STATICE

6 Packs

S. BCD. A favorite cut flower, wonderful for drying - keeps its color well. Cut flowers when they are fully open and hang upside down to dry. Good for beginners. Average soil.

-'**Pacific Mix'** Strong stems support full flower heads. A blend of colors ranging from whites and pinks to mauves and purples. 24-30"H

STOCK

6 Packs

S, 1/2S. BC. Deliciously scented stalks of flowers over blue-gray foliage. Looks great mixed in the perennial border. They come into their prime in September. Do not plant where they were last year. Rich, moist, well-drained soil.

-**'Vintage' Mix** Double & single blooms. Frost & heat tolerant. 18-22"H

STRAWFLOWER

6 Packs

S. BCD. Old fashioned favorite. Attracts butterflies. For dried flowers, cut stems before the blooms are fully open and hang to dry. May require staking. Average to dry, well-drained soil.

-**'Cut Flower' Series** Very large flowers on tall, sturdy stems. This series was selected specifically for its cut flower and drying characteristics. Colors include pinks, yellows, red, orange, and white. 3'H

STREPTOCARPELLA

4½" Pots

1/2S. Delightful mini Cape Primroses dance above attractive velvety-green foliage. Related to African Violets and Streptocarpus. One of our most popular hanging baskets. Allow to dry slightly between watering. Prefers morning or late afternoon sun. Bring inside before frost and keep in a warm, south window. Be careful not to over water in the winter and not to wet the foliage. Deadhead.

-**'Good Hope'** Numerous blue flowers. Small leaves.

SUNFLOWER

6 Packs

S, 1/2S. BC. These cheerful and familiar flowers twist to follow the sun. Attractive to seed-eating birds. Sturdy, yet should be planted on its own or at the back of the border as their roots give off a chemical that inhibits the growth of some plants. Well-drained soil. Also, check out our nice selections in the seed rack.

-**'Surry Gardens Mixture'** A choice selection of single and semi-double flowers, ranging both in height and bloom time to provide maximum interest. Flower colors include lemon, burnt fall rusts, golden yellow, and chocolate-red; their sizes varying from 4-8" wide. 4-6'H

SWEET PEA (Lathyrus)

6 Packs

S. BC. These climbing vines bear clusters of fragrant flowers all season. Wonderful cut flowers. Keep blooms picked for best production. Mulch to keep roots cool. Side dress with 10-10-10 or Osmocote. Rich, deep, moist soil.

-**'Mammoth' Series** Large flowers on long stems. Early flowering and heat resistant. 5-6'H

Colors include:	Deep Rose	Lavender
	Mid Blue	Mix
	Navy Blue	Salmon Cream-Pink
	Scarlet	White

-**'Old Spice Mix'** Highly fragrant. 1" blooms which smell like orange blossoms. 5-6'H

THUNBERGIA (Black-eyed Susan Vine)

6" Pot with Trellis

S, 1/2S. W. This graceful, old-fashioned plant has nearly triangular leaves and tubular shaped flowers that are trumpet shaped with flattened faces. Rich, evenly moist, well-drained soil. Protect from the wind. Also see hanging baskets.

-**'Arizona Dark Red'** Warm shades of red tinged cream-orange to deep red w/ an even darker eye. Give plenty of vertical space and support for climbing!

-**'Lemon'** (Formerly 'Lemon Star') Climbs fast. Lemony-yellow with dark almost black eyes.

-**'Orange Beauty'** Climbs fast. Bright, vivid-orange colored blooms with dark almost black eyes.

TITHONIA (Mexican Sunflower)

6 Packs

S. BC. Daisy-like blooms which attract butterflies and make excellent long-lasting cut flowers. Drought tolerant. Doesn't enjoy soil that is too rich or moist. Blooms start in the summer extending through fall, deadhead regularly.

-**'Goldfinger'** Compact, upright habit. Vivid burnt orange-scarlet flowers are almost 3½" across and blooming all summer long. 24"H

-**'Torch Yellow'** The first yellow flowering Tithonia, 3" flowers have a central orange disc surrounded by golden yellow petals. 4-6'H

TRACHYMENE (Blue Lace Flower)

6 Packs

S. BCW. Formerly *Didiscus*. This little known Australian native has lacy flowers similar to Queen Anne's Lace. Summer blooms appear on curvy delicate stems, which may need light staking. Shelter from wind if possible and deadhead spent flowers for repeat blooming. Full sun to light shade with moist, well-drained, fertile soil. Fertilize monthly until well established.

-*coerulea* Long-lasting lavender blue umbels attract beneficial insects and make superb cut flowers, lightly fragrant. Space 8" apart. 2'H

VERBENA

S. BW. Rounded clusters of small, tubular flowers. A workhorse in the garden. Blooms all season long and is attractive to both butterflies and hummingbirds. Average soil that is well-drained and evenly moist. Regular deadheading will encourage repeat blooming. All 4 packs & 3" are cutting grown. Self sows.

6 Packs-Seed Grown

-*bonariensis* Small-rose violet blooms carried in 2-4" clusters, excellent as cut flowers. Blooms until frost. 3-4'H

3" Pots-Cutting Grown

-*bonariensis* 'Lollipop' Unique dwarf form makes this variety an ideal choice for the front of the border. Excellent flower canopy and shelf life when cut. 2'H

-'Empress Imperial Blue' This series is very tolerant of cold and heat, their semi-upright habit is useful in either bedding or container applications. Extra large velvety, deep royal blue flowers! 6-12"H

-'Superbena' Series Large, 2½" flowers are early to bloom on rounded-trailing plants. Vigorous and mildew resistant. 6-12"H

Colors include:

Burgundy	Dark Blue
Large Lilac Blue	Royale Peachy Keen
Royale Chambray	Royale Whitecap

-'Tukana Scarlet Star' Large, 2" flowers begin early in the season. Dense, mounded habit. 5-8"H

- 'Super Yoga Rose'** Double, clear pink flowers with a bushy, branching plant habit. 36"H

HANGING BASKETS

This year, Surry Gardens is offering a large selection of new and interesting hanging baskets. There is sure to be one that will meet your needs. We have plants for sun and shade, plants that will tolerate heat, cool, and wind; in addition to plants that will attract hummingbirds and butterflies.

Get your baskets early, they don't hang around for long.

To ensure that our hanging baskets beautify your surroundings all season, we recommend the following care. For general feeding, we suggest Osmocote brand time-release fertilizer pellets. (14-14-14) Apply at the time of purchase, and reapply every 4 to 6 weeks. The recommended amounts to add are as follows: 8" baskets - 3 tablespoons, 10" baskets - 5 tablespoons, 12" baskets - 7 tablespoons, 14" baskets - 9 tablespoons, and 16" baskets - 12 tablespoons. In addition to Osmocote, some varieties will need supplemental feeding of a water soluble fertilizer such as Peter's Blossom Booster or Miracle-Gro. These heavy feeders are noted in their descriptions. To keep your plants beautiful throughout the season, it is important to check water daily and remove all spent blossoms and seed pods. All our baskets are priced on labels or on lists posted in each greenhouse.

Codes: S - Sun

 1/2S - Part Sun

 Sh - Shade

ABUTILON (Flowering Maple, Parlor Maple)

10" Baskets

1/2S. WH. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom through the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

-megapotomicum '**Variegatum**' Yellow flowers are suspended from red calyces. Gold mottled foliage.

BEGONIA, Continued

-**'Rhine' Series** Fully-double, peony-type blooms from May til frost. **8" Baskets**

Colors include: Berseba (Soft pink) Borias (Soft antique pink)
Brigitte (Dark orange) Dragone Champagne (Soft peachy-pink)
Dragone Dusty Rose Dragone Sunset (Salmony-apricot)
Dragone White Blush Nadine (Rich yellow)
Red Baron Rio (Bicolor yellow & red)

-**'Solenia' Series** Fully-double flowers bloom all season. Vigorous, glossy dark green foliage. Proven garden performers. **8" & 10" Baskets**

Colors include: Apricot Dusty Rose Light Pink Orange

BOUGAINVILLEA

10" Baskets

S. Exquisite paper-like bracts in stunning colors bloom all summer. Allow to dry slightly between watering. If extended wet weather occurs, be sure to bring your plant in out of the rain. Protect from wind. Needs full sun to flower and would benefit from trimming off spent flower stalks, allowing fresh flower bracts to develop significantly faster. Ask for our culture sheet.

-**'Elizabeth Angus'** Glossy green foliage and vibrant purple bracts. Full, lush habit.

-**'Flame'** Green foliage that starts out tinged red w/ bright brick-red colored bracts.

-**'Imperial Thai Delight'** Dark green leaves showcase one of the most interesting displays of color. Bracts that emerge white then develop pink shading towards the tips, pink color will be less prominent when not grown in intense sun.

-**'James Walker'** Large bracts start out deep orange maturing to an iridescent magenta giving this variety a beautiful contrast. Moderate grower.

-**'Juanita Hatten'** Rich rose-red bracts and slightly variegated foliage.

-**'Mauna Kea'** Giant, white bracts with a neat and tidy habit.

-**'Rijnstar & Rijnplant' Series'** Particularly suited to growing in cooler climates. These plants are exceptionally heavy bloomers, and are often displaying colorful bracts along the entire branch. Compact, vigorous growth with dense green foliage.

Colors include: RijnStar Lila (lilac) *NEW!*RijnStar White

*NEW!*RijnPlant Vera Deep Purple

-**'Ruby'** Dark green leaves hold deep ruby-red bracts with contrasting bright white anthers inside.

-**'Sundown Orange'** Deep orange bracts mature to a light pink. Dark green leaves.

CALIBRACHOA (Million Bells)

6", 8" & 10" Baskets

S. Small, rich-colored, petunia-like blooms explode over the plant all season. Very colorful. Self-cleaning. Heavy feeders. Attracts hummingbirds.

-**'Confetti Garden Aloha Hawaiian Flamingo'** Semi-upright to trailing plants that are vigorous growers. Colorful tropical combination of intense violet pink, purple, and soft pink.

-**'Confetti Garden Aloha Kona' Series** More compact growth than the Aloha series, semi-upright habit. Lg. flowers in cheerful tropical colors.

Colors include: Hawaiian Country-True blue, dark red, white
Hawaiian Flamingo-Hot pink, soft pk., midnight blue
Hawaiian Hilo-Dark red, pineapple, true blue
Hawaiian Kalani-Hot pink, orange, pineapple
Hawaiian Mahalo-Hot pink, dark lavender, cherry
Hawaiian Summer-Dk red, pineapple, hot orng.

Hawaiian Hula Lilli-Orange w/eye, hot pink w/eye, pineapple

NEW!-**'Trixi Pretty Princess'** This combination uses the vigorous Mini Famous series of calibrachoa. Floriferous plants are loaded with irresistible, double, soft pastel blooms.

CAMPANULA

8" Baskets

S, 1/2S. Serbian Bellflower. This rock garden perennial is hardy to zone 5 and tolerates drought quite well. Mounding/trailing stems have shiny, attractive bright green leaves and produce copious amounts of star-shaped blue flowers.

Give plants a good trim after blooming for another round of flowers. EASY.

-*poscharskyana* **'Blue Waterfall'** Larger flowers than the species. 8-10"H

CHENILLE

6", 8" & 10" Baskets

S. Long, soft, drooping cattails all year. Keep evenly moist. Heavy feeders, apply Osmocote in spring and summer. Bring indoors for winter enjoyment. Keep in a sunny window. Easy and FUN! The kids love 'em.

-**Firetail** Fuzzy, red flowered tassels. 6"H

CONVOLVULUS (Trailing Morning Glory)

8" Baskets

S. Most captivating sprawlers. Allow to dry slightly between waterings. Apply a slow release fertilizer such as Osmocote or feed regularly once/week when watering.

-**Morning Trails** Pale lavender blue flowers. Very pretty.

DAHLIA

8" Baskets

S, 1/2S. Spectacularly colored blooms which are great for attracting butterflies. Blooming spring until frost, rich, well-drained, evenly moist soil is best.

-**Goldalia Scarlet Imp.** Dynamic bicolored flowers have a naturally compact habit with excellent growth. 8-10"H, 8-10" W

EVOLVULUS

8" & 10" Baskets

S, 1/2S. Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

-**Blue My Mind** True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

FUCHSIA (Lady's Ear drops)

10" Baskets

1/2S, Sh. Extremely popular hanging basket. Large petticoated blooms in many shapes and colors. Fuchsias do NOT do well in full sun. They prefer 3-4 hours of filtered morning or late afternoon sun. Keep moist at all times, but not soggy. During breezy or hot weather, they may need water twice a day!

Leaf and blossom drop are caused by:

1. Extreme changes of temperature or environment.
2. Allowing to get too dry or too wet
3. Keeping inside the home.
4. Too Much Sun!

-'Dark Eyes' Double, large, violet-blue with shining red sepals.

-'Holly's Beauty' Large, double, lilac flowers with porcelain white sepals.

-'Lavender Beauty' Double. Red sepals and lavender corollas.

-'Lisa' Fluffy double blooms with lavender corollas and bright rose sepals.

-'Marinka' Single red flowers.

-'New Millenium' Double. Pink corollas with black sepals.

-'Seventh Heaven' This excellent trailing variety boasts magnificent, 4" creamy white and carmine-red flowers.

-'Swingtime' Double. White corollas with red sepals.

GERANIUMS

10" Baskets

S, 1/2S. Very popular hanging basket with good green foliage and profuse double or single blooms. Protect from wind. Can be brought inside in winter. Needs acidic soil - apply Miracid every week. Don't let go too dry. Water until pot drips, then pour off excess water from saucer.

-'Calliope Large' Series (Interspecific) Large flowers produced continuously all season long. The exceptional branching and superior vigor have garnered numerous awards for this series'. Excellent heat tolerance as well. 10-14" H

Colors include: Dark Red *NEW!* Pink Scarlet Fire

-'Contessa' Series (Ivy) Traditional ivy geraniums with semi-double flowers.

Colors include: Burgundy Bicolor (Picasso) Pink
Lavender (Amethyst) Red (Beach) White

-'Freestyle Orchid' (Ivy) Semi-trailing. Outstanding heat tolerance.

-'Temprano' Series (Ivy) Early flowering plants.

Colors include: Bright Red Pink (Flair)

IPOMOEA (Morning Glory Vine)

12" Baskets

S. *indica* Tropical vine with stunning, 4" bright cornflower blue trumpet shaped flowers. May be used as a houseplant in winter. Average, well-drained, evenly moist soil is ideal. 8-10'H

LANTANA

10" Baskets

S. Characterized by domed clusters of bright flowers that are attractive to both hummingbirds and butterflies. These plants thrive in hot weather and bloom profusely from spring until frost.

-**'Lavender Weeping'** Clusters of ½" wide, rose-lilac flowers.

-**'White Weeping'** Pure white flower clusters on trailing stems.

LOBELIA

10" Mono & Mixed Baskets

S, 1/2S. Trailing types for window boxes and hanging baskets. Compact types for beds and borders. Moist, rich, well-drained soil. Needs shade protection in hot weather. Shear to promote blooms.

A large selection of mixed lobelia baskets will also be available to chose from.

-**'Bella Donna'** Compact growth and heat tolerance combine making this plant a great choice for containers. Large flowers with a predominant white eye are a knockout in baskets. Mounding. 12-18"H

-**'Laguna Sky Blue'** Free blooming from spring through fall. Mounded and trailing. Heat and cold tolerant.

-**'Lucia Dark Blue'** Cobalt-blue blossoms withstand the heat better than older varieties. Outstanding performance alone, in the landscape, in baskets or in combination plantings. Plants retain their shape and color all season. 6-8"H

-**'Techno Heat Dark Blue'** Early flowering. Improved tolerance for summer conditions producing a more consistent blooming period. 6-10"H

MIXED HANGING GARDENS

12" & 14" Baskets

Various blends of hanging baskets planted with a combination of colorful, tough, attractive, trailing annuals for easy care all summer. Sizes range from 8" to 14" and they are priced individually. Some are offered in decorative cone-shaped mixed media style baskets. Don't forget to water and feed!

-**MixMasters' Series** Combinations containing Petunias, Calibrachoa, Lobelia, and Verbena in either complimentary or contrasting mixes. Uniform flowering time and vigor. **12" Only**

Mixes include:

'**Bejeweled**'/'**I Heart Pink**'- Bold yellows & purples, shades of pink

'**Comic Relief**'/'**Eye Caramba**'- Shades of purple offset w/white & yllw

'**Gimme Some Sugar**'/'**Heartland**'- Contrasting bright colors

'**Flower Child**'/'**Jazzberry Jam**'- Mostly purples & whites set off w/lit blue

'**Fashionista**'/'**Sweet Escape**'- Mostly cherries & pinks w/yellow and blue

'**Pink Outside The Box**'/'**Sunnyside**'- Lavender pink with yllw and white

'**Pop Culture**'/'**Power Play**'- Primary colors with some white sprinkled in

NASTURTIUM

8" Baskets

S. Bright colors. Edible flowers add interest to salads - colorful and tangy. Soil should not be too moist or rich for best blooms. Keep watered during dry weather. Very easy! Fun and Showy!

-**Indian Cress** This vivid heirloom comes in mottled shades of yellow and red, trailing up to 6' long.

-**Phoenix** Abundant blooms in fiery shades of gold, orange and red. Spaces in between the saw toothed petals lend a wonderfully messy appearance to the flowers. Bushy stems. 1'H, 1-1½'W

-**Vesuvius** This beauty is a rare, rich salmon-rose hue! This variety makes a nice cut flower but may have some variations in color. 1'H

OXALIS

8" Baskets

S, 1/2S. BWH. Grown for their light textured foliage and long blooming flowers. Foliage color may vary depending on light conditions. Can also be used as a houseplant with great results.

-**'Charmed Wine'** Mix of deep burgundy and black triangularly lobed leaves that have dainty lavender-pink or white flowers. 10-14"H

PETUNIA

10" Baskets

S, 1/2S. The most popular of all annuals. Some are fragrant. Moist, well-drained, acidic, fertile soil. For best results water and fertilize often. Deadhead and pinch back for best flowering.

-**'Wave Mixture'** Floriferous, spreading plants make impressive hanging baskets. 7"H

SCAEVOLA (Fan Flower)

10" Baskets

S. Spectacular fan-shaped flowers all summer. Excellent, tough, showy plants for those who want something new and easy. Keep moist but be careful not to over water or over fertilize. A diluted solution of iron phosphate will deepen their color. Easy!

NEW!-**'Fairy Blue'** This excellent series of Scaevola produces free-banching plants that are suitable for multiple uses and show outstanding outdoor performance. 6-10"H, 1½-2'W

-**'Whirlwind Blue'** Attractive deep green, cascading foliage with delicate 1" deep blue flowers that are almost constantly blooming. 8-12"H

STREPTOCARPELLA

6", 8" & 10" Baskets

1/2S. Delightful mini Cape Primroses dance above attractive velvety-green foliage. Related to African Violets and Streptocarpus. One of our most popular hanging baskets. Allow to dry slightly between watering. Prefers morning or late afternoon sun. Bring inside before frost and keep in a warm, south window. Be careful not to over water in the winter and not to wet the foliage. Deadhead.

-**'Good Hope'** Numerous blue flowers. Small leaves.

THUNBERGIA (Black-eyed Susan Vine)

6", 8" Baskets

10" Mono & Mixed Baskets

S, 1/2S. This graceful, old-fashioned plant has nearly triangular leaves and tubular shaped flowers that are trumpet shaped with flattened faces. Very popular.

-**'Arizona Dark Red'** Warm shades of red tinged cream-orange to deep red w/ an even darker eye. Give plenty of vertical space and support for climbing!

-**'Lemon'** (Formerly 'Lemon Star') Climbs fast. Lemony-yellow with dark almost black eyes.

-**'Orange Beauty'** Climbs fast. Bright, vivid-orange colored blooms with dark almost black eyes.

VEGETABLES

Plant a Victory Garden and win the war against the high cost of fresh veggies! Locate your vegetable garden in an area with full sun and fertile, well-drained, moisture retentive soil. An excellent guide for beginning is the Maine Organic Farmers and Gardeners Association's (MOFGA) Technical Bulletin 1: Basics of Organic Vegetable Gardening, which can be viewed and printed at:
www.mofga.org/Publications/FactSheets/tabid/133/Default.aspx

Any featured All America Selections Winners will be denoted as follows: AAS

ARTICHOKE

3" Pots

Attractive, ornamental plant. Edible flower buds. Cook and serve with basil & melted butter. Check an Italian cookbook for recipes for stuffed artichokes. Harvest buds before they open. Sun. Feed heavily. Space 3' apart.

-**'Emerald'** Incredibly productive plants yield around a dozen buds per plant.

Glossy, deep green buds are 5" in diameter with a delicious meaty quality.

Spineless silvery foliage makes harvesting easy. 4-5'H

-**'Imperial Star'** 85 days. Six to eight, 3-4" heads per plant.

ARUGULA

6 Packs

Eruca vesicaria sativa. 1. A. Both leaves and flowers can be used to add a peppery bite to sandwiches and salads. For a continuous supply, successive plantings are recommended. Standard salad Arugula can be harvested at 21 days for baby greens and at 40 days for full size, harvest whole plants or individual leaves. Flowers are white with dark pink veins.

ASPARAGUS

1 Dozen Roots/Bundle

Long lived plants. Planting the roots correctly will yield large future harvests. Plant roots in a trench 6-8" deep, 8" apart for thin spears, farther apart for thicker spears. Cover with 2" of compost rich soil; to provide nourishment for years. Gradually fill in the trench as the plants grow. Harvest very lightly the second year, freely thereafter. In spring, cut the spears with a sharp knife at the ground level. After harvest, allow plants to have mature foliage thru the fall. Cut dead foliage after frost. Ask for our culture sheet for more detailed information.

- 'Jersey Knight'** Large, succulent spears with excellent flavor. Resistant to rust, crown rot, and fusarium. Vigorous and better adapted to heavy clay-like soils.
- 'Jersey Supreme'** High yields and great taste. Succulent spears are more uniform than other Jersey hybrids. Disease resistant and tolerates most soils.
- 'Purple Passion'** Unique and attractive purple color with milder flavor and a tenderness that lacks in other varieties. This variety grows best spaced at 6-8".

BEAN

6 Packs (Unless Noted)

One of the easiest vegetables to grow at home, large yields with minimal effort make them great for beginners! Beans prefer a well-drained soil, be careful not to over-fertilize. Space bush beans generously to promote good air circulation. Pole beans will need support to climb. Harvest frequently to promote new pod growth, plant successively every 2-3 weeks for beans all season long.

-**Romano Types** Characterized by their wide, flat meaty pods.

-**'Capitano'** 62 days. Yellow, bush type. Delicious, full flavor with a smooth, tender texture. Upright plants bear 4½-5" pods heavily.

NEW!-**'Furano'** 54 days. Bush type. Medium, flat, dark-green pods are slightly longer than Roma II at about 6". Their low fiber content lends an excellent eating quality and upright plants keep them up off the ground.

-**'Musica'** 67 days. Pole type. This plant produces masses of huge beans over a long period. Delicious, bright green, 7-8" long pods remain very tender even at their largest size. 6'H

NEW!-**'Roma II'** 58 days. Bush type. Medium green, flat pods are ~6" long with a robust flavor. Stringless pods.

BEAN, Continued

- 'Maxibel'** 55 days. Green, french/filet type. Sturdy, bush type, 22-26"H. Concentrated sets of high-quality, slender, 7" pods w/ unsurpassed bean flavor.
- 'Scarlet Emperor'** 75 days. Runner type, climbing. These beans will tolerate partially shaded conditions better than other bean types. Scarlet-orange flowers attract hummingbirds. Sweet, juicy 6-8" pods. 8-10'H **4 Packs**

CELERY

6 Packs

Crunchy texture and distinctive flavor makes this a popular addition to salads and many cooked dishes. Give these plants fertile soil and consistent moisture for best yield. As celery plants grow, mound soil up to blanch lower stems, if desired. Celery can be harvested when stalks are at an edible size, celeriac roots should be harvested in late summer/early fall when heads are 3-5" in diameter.

- Celery 'Tango'** 80 days. Similar to Conquistador but the flavor is better and the stalks are more tender. Performs well under less than ideal growing conditions, will tolerate heat and moisture stress. Space 6-8" apart.

COLE CROPS

Broccoli • Brussels Sprouts

Cabbage • Cauliflower • Kale • Kohlrabi

6 Packs

Members of the mustard family. Our mild Maine summers allow us to grow these cool season plants. Plants are typically heavy feeders but have various Nitrogen requirements. Top-dress each seedling at planting time with a handful of wood ashes to discourage root maggots. Collars will prevent cut worms and BT will prevent cabbage worms.

Broccoli- Good for you! Use lime to enrich soil with calcium and give plenty of moisture. Mix varieties for an extended season. A second planting by July 15th will provide a nice fall crop. Space with 8" in between and in rows that are 18" apart.

- 'Arcadia'** 86 days. Large, blue-green heads on tall, heavy stems. High yielding. Developed for close spacing.

Broccoli, Continued

- '**Aspabroc**' 50-60 days. Aka Broccolini. Tiny broccoli heads precede multiple side shoots, which are produced for a month longer. The shoots resemble broccoli raab with an asparagus-like stem.
- '**Belstar**' 66-75 days. Blue-green 6" heads are densely packed with florets. Flower heads are held up higher for easier harvesting. This variety is ideal for both spring and warm-weather planting. Excellent field holding capacity.
- '**Green Magic**' 57 days. Smooth, well-domed heads. Very uniform at maturity.
- '**Premium Crop**' 58 days. An AAS winner. Large plants with firm heads and small, dark green buds.

Brussels Sprouts- These delectable beauties can be finicky to grow. Some tips that are important: Start by selecting a good, strong fertilizer that contains the micronutrients boron and magnesium. Give plenty of moisture at planting and while plants are establishing a root system. When weeding avoid cultivating too deeply, this would disturb the roots. When the sprouts towards the bottom are $\frac{1}{2}$ - $\frac{3}{4}$ " in diameter pinch out the plant's growing tip to force the remaining sprouts to develop evenly, about 4 weeks. Space 18-24" apart.

- '**Jade Cross**' 85 days. AAS winner. This outstanding selection has medium, firm dark green sprouts with excellent flavor. Early and very productive, tolerates heat stress.

Cabbage- Try homemade sauerkraut this year. Tasty slaws too! Plant 15-18" apart.

- '**Mileta**' 88 days. Savoy type. Excellent, very dark, blue-green leaves that are heavily savoyed. Round heads are uniform, weigh in at an average of $3\frac{1}{2}$ lbs. and resist splitting after maturity.
- '**Stonehead**' 50 days. Heads are round, about 6" in diameter with short cores. Solid and slow to bolt.
- '**Minuet**' 48 days. Napa type. Small, 9" x 7" heads with dark green outer leaves and yellow interior leaves. Early to mature and slow to bolt. Wonderful, light, sweet taste. Disease and virus resistant. Space 12" apart.

Cauliflower- Keep well-watered and well-fed, especially while the heads are forming. For best results plant early! Plant every 18".

-**'Amazing'** 68 days. Medium-sized plants with domed, solid curds and self-blanching, upright wrapper leaves.

-**'Cloud'** 75 days. Gorgeous, pure white heads have tightly packed curds with partially wrapped leaves. Strong, upright plants will thrive when planted in either spring or fall. Uniform, early harvests of 5-7" heads.

-**'Skywalker'** 80 days. Medium-sized heads are self-wrapping so leaves do not need to be tied together. Very good cold tolerance for late summer and fall harvesting.

Kale- The beautiful ruffled leaves of the kale plant have a lively flavor along with unique peppery qualities. Excellent source of Vitamin A. Space plants 8" apart or closer for baby leaf production.

-**'Mix'** 60 days. New to the kale craze? This mixture is a good starting point. A sampling of 8 different kales featuring siberian, curly, and dinosaur types that will enable you to taste a wide variety.

-**'Starbor'** 55 days. Compact plants with very uniform leaves that resist yellowing. The finely curled, dark blue-green leaves are perfect for harvesting all at once. 12-18"H

Kohlrabi- The root-like bulb as well as leaves of this plant can be eaten. The bulbs are versatile and can be prepared by sautéing, roasting or enjoyed raw. Kohlrabi has a crunchy yet juicy texture and a mildly sweet, unassertive taste. Wonderful when steamed in the microwave with butter, shaved parmesian, salt, and pepper-the flavor is similar to cauliflower. Will keep in storage for 2-3 weeks. Space with 4" in between plants.

-**'Winner'** 45 days. Freshest, fruitiest taste. Holds well in the field without splitting. Harvest when bulb is ~2" in diameter for best enjoyment.

CORN

6 Packs

Plant Corn in blocks of at least 4 rows for proper pollination, rows should be 30-36" apart and plants spaced with 9" in between. Successive planting may be necessary. Corn requires warm, well drained soil that is highly fertile, use a fertilizer with high phosphorous. Use Bt for corn ear worms. Harvest when punctured kernels are full and "milky", when silks are browning, or 18-24 days after silks first show.

NEW!-'2472 XR' 71 days. Bicolor, 8" long ears are easy to harvest and have medium sized kernels. Tender, very sweet eating quality. Excellent soil vigor when planted early. Ears are set about mid-way on stalks.

-'**Double Standard**' 73 days. Vigorous plants that were developed especially for northern gardens. This early maturing, bicolor sweet corn has nice sized ears and excellent traditional corn taste.

NEW!-'Kickoff XR' 69 days. Thick, bicolored ears are extra large with slightly tapered tips. Tender and sweet ears with good color contrast of kernels. Ears are set high up on the stems.

CRESS (WATERCRESS)

6 Packs

This perennial green is a must for the garden, rich in vitamins with a delicious taste. Its distinctive peppery kick blends well with astringent fruits like oranges and grapefruit. Grows best in full sun and very moist soil with a pH of 7.0. Especially easy when grown containerized. After the first month when the plant has produced good growth you can submerge the whole pot in water up to the lip, then change the water periodically. 50 days.

CUCUMBER

4 Packs

Cucumbers are grown to be eaten fresh, cooked, or pickled. Moderately acid soil, plenty of moisture and fertilizer. To prevent powdery mildew apply a spray with the active ingredient copper octanoate (approved for organic gardening) regularly. Install row covers at planting and leave in place until well established to prevent the insidious striped cucumber beetles. This year we will also have sticky traps specifically designed for these pests available for purchase. Plant 1' apart with 6' in between rows, unless using a trellis.

-Slicing Varieties Add a refreshing taste to your summer salads.

- '**Burpless Bush**' 55 days. Firm, straight, 8-10", cylindrical fruit. Seedless.
- '**Bush Crop**' 60 days. 6-8" fruits on compact, bushy plants. Ideal for containers or small gardens.
- '**Diva**' 58 days. AAS winner. Smooth, thin skin with crisp yet tender, sweet seedless flesh. Very tasty! 6-8" fruits.
- '**Fanfare**' 62 days. 8-9" fruit. High yields over a long time. Semi-dwarf, compact habit. AAS winner.
- '**Marketmore**' 66 days. Very dark green skin. Slightly tapered fruit averages 8" in length. Bears fruits later but for a longer period of time.
- '**Patio Snacker**' 60 days. Short, 3' long vines are excellent for small space gardens and containers. Dark green, 8" fruits have good flavor, crunchy texture, and are non-bitter.
- '**Salad Bush**' 57 days. AAS winner. Very compact and plants are a great choice for small space or container gardening. Very productive 6-7" dark green fruits.
- NEW!*** -'**Slice More**' 62 days. Very straight, dark green fruits are high quality with crisp flesh, exceptional taste, and a very small seed cavity! Vines yield heavily and have great disease tolerance.
- '**Straight Eight**' 58 days. Excellent flavor. Pick at 8" long for best flavor.
- '**Sweet Slice**' 62 days. Bitter free and burpless! Vigorous vines produce 10-12" dark green, amazingly sweet fruits. No need to peel skins off before eating.

-Pickling Varieties Great for canning

- '**Homemade Pickles**' 55 days. Medium green fruit can be harvested when 1½ to 5" long. Very productive.
- '**Northern Pickling**' 48 days. Developed in Maine. Medium green fruits bear early and set heavily on short, space saving vines.

EGGPLANT

4 Packs

Attention cooks, don't soak in oil, just brush with olive oil, sprinkle with your favorite herbs, and broil. Or go for it - marinate with garlic and basil, dip in batter, and deep fry. Plants are heavy feeders; add compost and composted cow manure to soil. Watch for potato beetles, but don't use any harsh sprays or the pollination of fruit may really suffer.

- '**Black Shine**' 65-70 days. Deep purple, almost black, Asian type fruits are slim and tender. Very productive plants are reliable producers.
- '**Hansel**' 55 days. AAS Winner. Sweet, mini fruits are 4" long by 1" in diameter and produced in clusters for easy harvesting. 25-36"H
- '**Nadia**' 67 days. Classic, lg. Italian-type fruits are glossy, dark purple measuring 7½" x 3½". Tall, sturdy plants set fruit even under cool conditions.
- '**Orient Express**' 58 days. Attractive, slender, 8-10", glossy black fruits in the long, Asian style. Ready up to 2 weeks before most other varieties.

FENNEL

3" Pots

Feathery foliage holds rain drops as sparkling pearls. Fertile, well-drained soil and cool temperatures will produce the best bulbs. Plant 6" apart in well-drained, humus rich soil. **See Herb Section Also**

- '**Sweet Florence**' 80 days. Bulb has a delicate anise flavor and crisp texture. Wonderful sliced into salads, slightly sauteed, or grilled. Cooking will mellow the anise flavor. 36"H

LEEK

6 Packs

Adds a delicious, refined flavor to soups. Excellent for Vichyssoise, topped with fresh chives. Rich soil. Separate multiple plants in the cells and plant individually in trenches, 6" deep and about 6" apart. As the plants grow, fill in the trenches to blanch the stems. Can also be hilled up in rows.

- '**King Richard**' 79 days. Beautiful, full-sized, foot long leeks. Upright, medium green leaves. For summer harvesting.
- '**Pandora**' 90 days. Upright leaves are dark, blue-green; 1-1½" wide. Uniform, large diameter shaft. For late summer/early fall harvesting.

LETTUCE

6 Packs

Fresh greens for salads all summer long. Stagger plantings to keep your supply going all summer. Lettuce grows best during cool weather. Plant 10-12" apart for heading types, leaf varieties and ones that will be harvested as baby can be planted 6-8" apart.

-Butterhead Types Buttery, Boston types.

-'Buttercrunch' 75 days. Compact, crisp, heavy heads. Old favorite!

-'Red Cross' 48 days. Large, fancy, bright red heads.

-'Sylvesta' 52 days. Large heads with thick, flavorful, bright green leaves. This lettuce is amazingly good.

-Iceburg Types Extra crunch with a mild flavor.

-'Great Lakes' 82 days. Heirloom. AAS winner. Large, crisp heads that are well-folded. Harvest baby greens for that extra element of texture in your salad. Bolt resistance and very well adapted to adverse conditions.

NEW!-'Mighty Joe' 88 days. Very uniform, round heads are larger size than the traditional varieties. Vigorous with exceptional weight and excellent texture.

-Leaf Types Add a bit of color to those salads.

-'Brassica Greens 'Premium Mix' 21 days. A dynamic array of shapes and textures with flavors that can be spicy, mild, and slightly sweet.

-'Encore Mix' 28 days. A lovely blend of colors, shapes & textures.

-'Magenta' 48 days. Shiny, slightly puckered, red tinged leaves form whorled, conical heads.

-'Mesclun Mix' 21 days. Specialty mix of different greens and lettuces.

-'Red Sails' 45 days. Bronze-red crinkled leaves. Slowest to bolt of all the red loose leaved varieties.

-'Red Saladbowl' 51 days. Burgundy-red, deeply lobed, delicate, oak-like leaves. Retains its mild flavor for a long time and is slow to bolt.

-'Starfighter' 52 days. Shiny, green, slightly savoyed leaves that have good flavor with excellent heat tolerance and disease resistance.

-Romaine Types Make the perfect, crisp Caesar salad.

NEW!-'Sucriner' 60 days. Dense, bright green, petite heads of lettuce are super sweet as their name suggests and delightfully crisp.

-'Outredgeous' 57 days. Bright red leaves with ruffled edges. Full-sized heads are big and beautiful.

MELON/WATERMELON

4 Packs (Unless Noted)

What could be better than picking a fresh melon for your breakfast? Plant when the soil has warmed. Provide abundant moisture during the early stages of growth until the fruits are setting. Afterwards watering as signs of wilting occur. They need plenty of space so plant them with 2-3' in between, in rows that are 6' apart. Transplant gently, to disturb roots as little as possible.

NEW! -'**Minnesota Midget**' (Cantaloupe) 65-70 days. Early, heirloom produces a bounty of mini fruits measuring 4-6" across. Sweet, deep orange flesh, is sweet all the way down to the rind. Compact plants are ideal for small spaces and short seasons! High level of disease resistance.

-'**Honey White**' (Honeydew) 77 days. Early, cool-weather tolerant variety has smooth, round-oval fruits. Flavorful, very sweet 3 lb. fruits keep well post-harvest.

-'**Sarah's Choice**' (Cantaloupe) 76 days. Sweet and juicy, 3 lb. oval fruits are so flavorful they consistently win in Johnny's trials. **3" Pots**

-'**Sugar Baby**' (Watermelon) 80 days. Mouth-watering, crispy, sweet variety is the standard for home gardeners. 6' long vines will yield 4-6 fruits, 10" across.

ONION

6 Packs

Multiple plants per cell, 30-50 plants per pack. Seedlings should be separated and planted individually, 4" apart. Keep well watered and weeded. Supply extra nitrogen, soil should be well prepared prior to planting.

-'**Ailsa Craig Exhibition**' 110 days. Huge, mild Spanish onions average 5 pounds for September harvest. Unique sweet flavor. Short term storage.

-'**Copra**' 104 days. Highest sugar content of all the storage onions. Hard, medium sized bulbs with blocky, round shape. Excellent keeper.

-'**LaSalle**' 103 days. Early-mid season harvest. Large, dark bronze, round-globe shaped onions are suitable for long-term storage of 8 months or more!

NEW! -'**Oloroso**' 113 days. Semi-spanish type. Huge, heavy bulbs with copper brown skins & mostly single centers. Late season harvest. Stores 6-8 months.

-'**Riverside Sweet Spanish**' 115 days. High quality, 5", sweet and mild onions. Thick skins and small necks. Will keep in storage until early winter.

-'**Ruby Ring**' 112 days. Uniform, hard bulbs with dark red skins.

-'**Solstice**' 111 days. White Spanish type that also stores well, keeping for up to 4 months. Jumbo sized globe shape bulbs have a high percentage of single centers.

PEPPER

4 Packs (Unless Noted)

Provide lots of sun and rich moist soil. Do not add too much nitrogen. Use a fertilizer high in phosphorous and calcium. Space plants 12-18" apart. When planting both sweet and hot varieties it is best to isolate them from each other to avoid any cross pollination, which could result in Sweet peppers with heat.

-Sweet Varieties (Bell and Non-Bell are denoted)

-'Carmen' 60 days green, 80 days red. Non-Bell. AAS Winner. Sweet flavor is excellent for salads or roasting. 6" tapered fruits on upright, med. plants.

NEW!-'Goliath' 71 days. Sweet Bell type. Sensational, massive, thick-walled fruits are 4 lobed, 7½" long by 4" wide! Fruits set well under a variety of adverse conditions. Terrific flavor and more vitamin C than oranges! **3" Pots**

-'Jupiter' 66 days. Bell type. Huge, blocky fruit. **Excellent!**

-'Lipstick' 53 days green, 73 days red, ripe. Non-Bell. Considered by many to be the most delicious sweet pepper. Dependable, early, heavy yields, even in a cool season! 4" long fruits are perfect raw or cooked.

-'Marcato' 70 days red, ripe. Tapered Italian type. Jumbo fruits shaped like a horn, w/2-3 lobes. VERY sweet fruits ripen from green to blood red. **3" Pots**

NEW!-'Mecate' 75 days. Bell type. Uniform, smooth medium to large blocky fruits. Ripens to a yellow and will not turn orange. **3" Pots**

-'North Star' 65 days. Bell type. 3-4 lobed, sweet tasting peppers. Ripens early from green to red.

NEW!-'Superette' 60 days. Sweet Banana type. Bright, yellow fruits are 8½" long and 2" wide. Will ripen to red if not picked.

NEW!-'Super Red Pimento' 70 days. Non-Bell. Extra thick, sweet flesh, 5" x 3" fruits.

-'X3R Red Knight' Bell type. 57 days green, 77 days red, ripe. Big, blocky fruits. Widely adaptable, exceptionally cold tolerant & disease resistant.

-**Hot Varieties** The higher the Scoville rating the hotter the pepper! The Scoville Index rates the hotness of peppers by the amount of capsaicin they contain.

-'Cayenne Long Thin' 72 days Long, slender, red fruits reaching 6". The thin, wrinkly flesh is used for pickling or processing into dried flakes. 3500-5000 Scovilles.

-'Early Jalapeno' 60 days green, 80 days red, ripe. 2½" sausage shaped fruits. 2500-8000 Scovilles.

-'Krimzon Lee' 62 days green, 82 days red, ripe. Beautiful, big 6-8" x 2" fruits. Paprika type pepper is both sweet and hot. Thick flesh makes this pepper choice for roasting, grilling, salsa, and even salads.

POTATO

5 Lb. bags

Ensure that your spuds are pesticide free by growing them yourself! Start with fertile, well-drained soil; composted manure is a good addition. 1 lb. of seed potatoes will plant a 5-8' row. A pre-conditioning treatment called green sprouting is highly recommended for our area; it cuts 10-14 days off the growing cycle, increases the yield and helps prevent disease. For this, place potatoes in darkness for 7-10 days 70-75°F until sprouts are seen, then expose them to light and decrease temp. to 50°F. Prep for planting by leaving small spuds whole and by cutting large ones into 2 oz. pieces with at least two eyes (sprouts). Planting the same day as cutting will reduce the incidence of seed piece decay. When the soil reaches 55-60°F, plant in trenches 4-6" deep leaving 12" in between. When plants reach 6-8"H, gently hill the soil around the base, repeat again at 12-15"H; applying mulch afterwards. It is very important to keep soil moisture consistent until harvest, avoid overhead watering in the afternoon to keep blight at bay. Baby or "new" potatoes can be harvested around 30 days after flowering (for those who simply can't resist) otherwise when the plant has died leave tubers in the soil 2-3 more weeks to set the skins. Dry briefly on a cool day out of the sun, then brush off any excess soil. To help guard against the Colorado Potato Beetle plant pieces in healthy soil, rotate crops every 3-5 years, and handpick the adults and larvae dropping them into soapy water and squishing any orange eggs found on the undersides of leaves, row covers also aid in this pursuit. If insecticides are needed use a Spinosad or Pyrethrum based option.

-'**Kennebec**' Midseason. Heirloom. Classic Maine all-purpose potato, tough and adaptable growing in a wide range of conditions. Stores extremely well. Abundant yields of uniform, sweet, white fleshed tubers with buff colored skin.

-'**Norland**' Early. Heirloom. Tender, red skinned tubers w/white flesh. Lovely when roasted. So delicious keeping them in storage will not be a concern.

-'**Red Pontiac**' Late. Heirloom. Large, rounded tubers with red skin and white flesh. This multipurpose potato stores well. Drought tolerant in the field but susceptible to most common potato diseases.

-'**Russet**' 110 days. Heirloom. Elongated oval tubers have smooth pale brown skin with white flesh that turns fluffy when baked making the perfect vehicle for any number of toppings.

-'**Yukon Gold**' Early Midseason. Heirloom. Tasty, yellow thin-skinned tubers give a buttery flavor and appearance with a dry texture. Excellent flavor and drought tolerant. Stores well.

PUMPKIN

4 Packs (Minimum of 8 plants/pack)

A Halloween necessity. Give them plenty of space and keep well-watered. They prefer fertile soil - add composted cow manure. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly.

- 'Orange Smoothie'** 95 days. AAS winner. Bright orange, smooth, non-ribbed fruits are good for painting. Fruits average from 6-9 pounds. Plants have a medium vine length and should be spaced 2½-3' apart.
- 'Racer Plus'** 85 days. Ribbed, dark orange, mid-sized pumpkins with great looking dark green handles. 12-16 pound fruits yeilding 2-3 per plant. Short vines may be spaced 2-2½' apart.
- 'Tom Fox'** 110 days. Well-ribbed, medium pumpkins between 12-20 pounds. Deep orange color and fantastic handles make them great for Halloween. Long vines yield 2-3 fruits per plant and should be planting with 3-4' in between.
- 'Rouge Vif D'Etampes'** 115 days. This Cinderella type pumpkin resembles a flat yet full, scarlet-colored, wheel of cheese. It has been recorded as being the type grown by the pilgrims for Thanksgiving, not only is it decorative, but good for pies and recipes too. Long vines yield up to 6 fruits per plant, 10-15 lbs. each. Space with 2-4' in between.

SHALLOT

6 Packs

Used for flavoring soups, salad dressings, vegetables, and grain dishes. Multiple plants per cell. Separate and plant seedlings individually, 4-6" apart. Plant in well-drained soil with lots of organic matter, bulbs are ready to harvest when the leaves have turned yellow and fallen over.

- 'Camelot'** 110 days. Teardrop-shaped bulbs have a dark red-skinned exterior and white interior with excellent flavor. Good storagability through the winter months.
- 'Conservor'** 110 days. Easy to peel. Large, single bulbs have a reddish-brown skin and cream interior. Suitable for long-term storage.

SPINACH

6 Packs

One of the “super foods”, packed with antioxidants and minerals. Grows best in cool, mild climates. Plant in a moist, fertile soil with a pH of at least 6.0 (6.5-7.5 is best) as Spinach is sensitive to acidity levels. Full sun to pt. shade, water at soil level to avoid splashing on leaves. Harvest greens at full or baby size, rinse multiple times before eating.

-‘**Tyee**’ Semi-Savoy type. 40 days. Slowest to bolt, this is considered the standard of Savoyed Spinach. Dark green leaves are vigorous, with an upright habit. Does well as a spring, summer, or fall Crop, and is an ideal type for hoop house growing thru December.

SQUASH

4 Packs

Christopher Columbus brought squash back to England from the New World. Modern day squash has been consumed for over 10,000 years. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly. Space generously-with 6’ in between rows.

-**Summer Squash** Eaten as soon as picked, either raw or cooked.

-‘**Aristocrat**’ syn. Commander. 53 days. Zucchini-type. Smooth, dark green, 7-8” cylindrical fruit. Compact, bushy plants.

-‘**Costata Romanesco**’ 52 days. Heirloom. Prominently ribbed, Italian zucchini with gray-green skin. Delicious and nutty with good texture.

-‘**Slick Pik**’ 48 days. Extra early. Very attractive yellow fruits have a good taste, and are blemish-free thanks to the spineless leaf petioles; also making it easier to harvest.

-**Winter Squash** Usually baked. Try with maple syrup & butter. Stores well.

NEW!-‘**Atlas**’ 90 days. Butternut type. Fruits are ~4 lbs. with dark orange flesh and a slightly bulbed shape making peeling easier. Short vines yield heavily.

-‘**Bonbon**’ 95 days. AAS winner. Classic buttercup fruits are dark green, with gray “button” on the underside. Weighing an average of 4-5 lbs. and producing an average of 4 fruits per plant. Space 12” apart.

SQUASH, WINTER Continued

- Early Butternut** 82 days. Short, heavy yielding vines with 10-12" fruits that can be spaced 12" apart. Yields 4-5 fruits per plant.
- Honey Bear** 85 days. Acorn type. Deliciously sweet, mini 4" round fruits are just the right size for 2 servings. Compact, bush type plants can be spaced every 12" and are resistant to powdery mildew. Averages 3-4 fruits per plant.
- Sweet Meat** 115 days. Heirloom hubbard type. Renowned for its rich, sweet flavor; makes the best pumpkin pie ever! 10-15 lb. round, slate gray fruits keep superbly. Vigorous vines-to 10' long.

STRAWBERRY

3" Pots, bare-root 10/bundle & 10" Hanging Baskets
See "Fruits & Nuts" and "Herbaceous Perennials" section of the nursery catalog for further information.

SWISS CHARD

6 Packs

Swiss Chard is an excellent source of Vitamins A, C, and K. Rich in Calcium and Iron also. Will tolerate partial shade. Harvest the young leaves when tender, cutting only the outer leaves at the base of the plant. Be careful not to disturb the root system. Space 6" apart.

- Bright Lights** 28 days baby, 55 days mature. AAS winner. Multi-colored stems of gold, pink, orange, purple, red, and white. Eat raw or lightly cooked. Milder taste than many chards.
- Lucullus** 35 days baby, 52 days mature. Wide, white stalks that are delicious when treated like asparagus. This plant has incredible versatility- leaves, stalks, and even the flowers can be tasty when added to your meals. Plants may re-emerge after a mild winter to produce an early spring harvest. 20"H
- Rhubarb** 35 days baby, 60 days mature. Glossy, dark green leaves are heavily crinkled with bronze/red veins and crimson stalks. 12-16"H

TOMATO

4 Packs & 4½" Pots

Lycopersicon esculentum. A staple of vegetable gardens. Tomatoes are low in calories and good sources of Vitamin C and lycopene, a beneficial caratinoid.

Determinate - Plants stop growing at a certain height, usually 2'. The crop will ripen over a short period of time, good if you're processing for storage. Good for containers and small gardens

Indeterminate - Plants continue to grow until frost or the vines are top-pruned. The crop will ripen over a long period. Stakes or supports are needed.

Disease Resistance Codes:

B - Early Blight

Ff - Fusarium Races 1&2

N - Nematodes

St - Stemphylium Gray Leaf Spot

A - Alternaria Stem Canker

F - Fusarium Wilt

L - Late Blight

T - Tobacco Mosaic Virus

V - Verticillium Wilt

-Cherry And Grape Varieties - Good for snacking or in salads.

-'Cupid Hybrid' 65 days. Indeterminate. AFSt. 1", very sweet fruits are crack-resistant. Very heavy yields from vigorous plants.

-'Jasper' 60 days. Indeterminate. BFfL. This AAS winner has small deep red, cherry fruits that resist cracking and have a pleasantly chewy texture with a sweet flavor. Extra vigorous and tall.

-'Juliet' 60 days. Indeterminate. This AAS winning grape tomato is sweet and has deep red, shiny fruits that are 1½ to 2 ounces in size. With 12-18 fruits per cluster! Crack resistant. Very productive.

-'Sunsugar' 62 days. Indeterminate. FT. Sweet, golden, cherry tomatoes. Crack resistant fruits on vigorous plants.

-'Sungold' 57 days. Indeterminate. FfV. Deep sweetness with a hint of acid tartness. Small fruits in prolific clusters ripen early to a rich apricot color and produce until frost. EXCELLENT!

-'Supersweet 100' 65 days. Indeterminate. FTV. Clusters of very sweet, early season, round fruit.

-Large Varieties - Good for slicing, salads, and canning

-'Better Boy' 75 days. Indeterminate. VFNASt. All America Selections winner. Deep red fruit with a meaty interior. 8 - 14 oz. 4½" Pots Also

TOMATO, LARGE FRUITING Continued

- '**Better Bush**' 68 days. Determinate. VFfNAST. Early variety bears fruits all season long and requires very little staking. Large, 4" fruits that are sweet and meaty with that highly sought after "real tomato" taste.
- '**Big Beef**' 70 days. Indeterminate. VFfNTAST. Beefsteak type. Huge, 14 oz. fruits on large plants. Excellent flavor! **4½" Pots Also**
- '**Brandywine Red**' 78 days. Indeterminate. Amish heirloom tomatoes. Possibly the best tasting tomato. Large, some over 1 pound, deep pink skinned and red fleshed fruits.
- '**Caspian Pink**' 80 days. Indet. Fruits are large, less rounded than most, reddish-pink in color and have excellent texture, sweet taste, and great flavor. Fruits average 10 oz. **4½" Pots Also**
- NEW!*-'**Goliath Bush**' 68 days. Determinate. VF. This is the tomato for those with limited space! Attractive, compact plants grow to 3½' tall and require little staking. Meaty, flavorful 3-4" fruits with a high sugar content. Bears fruits consistently until frost.
- NEW!*-'**Goliath Original**' 65 days. Indeterminate. VFfNTAST. Smooth, bright red 10-15 oz. fruits have a sweet, luscious flavor and nearly blemish free exterior. Vigorous plants produce high yields with good disease resistance. **4½" Pots Also**
- '**Marbonne**' 69 days. Indet. FT. An improved hybrid of the Heirloom 'Marmande' with better disease resistance and vigor. Deep red, 7-9 oz., ribbed fruits have a smooth soft texture and superior flavor. **3" Pots**
- '**New Girl**' 62 days. Indeterminate. VFf. Better tasting and more disease resistant than Early Girl. Fruits are 4-7 oz. and hold their ripeness and flavor on the vine well.
- '**Parks Whopper CR Imp**' 65 days. Indeterminate. VFfNT. The standard for taste, size, and production. Improved disease and crack resistance than the original. Large, 12 oz. fruits make the perfect sized slices for sandwiches- almost covering a whole piece of bread! **4½" Pots Also**
- NEW!*-'**Ultra Boy II**' 68 days. Indeterminate. VFN. Good yields of early, globe-shaped 14 oz. fruits are very firm, dark red with excellent old-fashioned flavor.
- NEW!*-'**Ultra Sweet**' 62 days. Indeterminate. VFT. Early, Very firm, medium sized beefsteak hybrid. Bright red fruits weigh 10oz. with an outstanding balance of acidity and sweetness that give that highly sought after "tomato" taste.

TOMATO, Continued

-Paste Varieties - Good for sauces.

-'**Golden Rave**' 67 days. Indeterminate. T Baby Roma type tomato is high-yielding with 2 oz. golden yellow fruits. Sweet, well-balanced flavor is excellent for fresh eating or cooking.

-'**Roma**' 75 days. Determinate. VF Bright red, 2 oz. Italian pear-shaped fruits with meaty interiors make great sauces and ketchup.

NEW! -'**Sunoma**' 74 days. Determinate. VFfT. Extra large plum-shaped fruits have good firmness and color.

-Dwarf Varieties - Best suited for container gardening.

-'**Red Robin**' 55 days. Determinate. Masses of mild, sweet, 1" fruits on 8-12"H plants. Tender skin and good taste even when grown indoors.

-'**Tiny Tim**' 45 days. Indeterminate. This heirloom grows 10-12"H and 14" W. Heavily yielding clusters of 1" flavorful fruits.

HERBS

Codes:

1=Culinary, 2=Medicinal, 3=Ornamental, 4=Dye, 5=Dried Flowers, 6=Aromatic
A=Annual, B=Biennial, P=Perennial, TP=Tender Perennials, HP=Houseplant

BASIL

3" Pots

Ocimum basilicum. 1,3. A. This king of the herb world offers an array of flavors and scents. Ideal for salads, pesto, Italian dishes, and other ethnic cuisine. Pinch off blooms to prolong the harvest. Full sun, moderately rich, evenly-moist soil.

- '**Amethyst Improved**' Very dark, almost black, thick, turned-down leaves. 16-20"H
- '**Dolce Fresca**' AAS winner for 2015. Genovese type. Beautiful, bushy plants with a dwarf habit and hundreds of dark green, very aromatic leaves. Excellent for use as a bedding plant. Flowers aren't produced until very late in the season. 10-14"H, 10-12"W
- '**Italian Large Leaf**' Extra large, fragrant leaves. Great for pesto. Sweet flavor. 16"H
- NEW!**-'**Martina**' Genovese type leaves. Intense, aromatic flavor, Can be grown year round with greenhouse conditions. Dwarf,14"H
- '**Mrs. Burns' Lemon**' Bright green, 2½" long leaves with an intense, sweet & tangy, lemon flavor. 20-24"H
- '**Plenty**' Extra vigorous grower with resistance to fusarium wilt. Grows well indoors or outside and is a good choice for the cooler spring and fall months. Genovese type with dk. green, intensely aromatic leaves. 18-24"H
- '**Sweet Thai**' Spicy, anise-clove flavor that is most commonly used as a condiment in Asian cuisine. The stems and blooms are an attractive purple color. 12-18"H

BAY

3" & 6" Pots

Laurus nobilis. 1,2,3. HP. An evergreen tree hardy to zone 8, the Bay plant has always been associated with glory, honor, and greatness. Dried leaves can be used in soups, stews, marinades, sauces, or added to the water when cooking grains. Full sun to part shade when outside, Bright light when inside. Can grow to 6' indoors.

BORAGE

3" Pots

Borago. 1,3. A. (Self Sows) Borage was said to give Roman warriors the courage to fight, or was that the wine they mixed it in? The chopped fresh leaves, with their cucumber-like flavor, and the flowers are delicious in salads and summer drinks. Add a few leaves when making a vegetable stock, or simply saute like spinach. Float the star-like blossoms in punches or freeze them in ice cubes. Flowers attract bees.

-*officinalis* Traditional, blue flowers. 3'H

-*officinalis* 'Alba' Pure white flowers. 20"H

CATNIP

3" Pots

Nepeta cataria. 2. P. Drives the felines into a frantic frenzy. Fragrant, bushy plants bear white flowers from May to September. This tough plant tolerates drought, dry, rocky soil, air pollution, and deer. Hardy to zone 3. Sweet, minty flavored tea is a soothing nightcap, a folk remedy for colds. 18-24"H

CHAMOMILE

3" Pots

Chamaemelum. 1,2,3. A. Tea made from the centers of the flowers is very popular as an aid to digestions, to reduce fever, and to calm inflammations. Makes a soothing and cleansing skin wash. Loamy soil with high sand content. Moist, but not waterlogged.

-'German' Apple scented. Great in teas. 18-24"H

-'Roman' Strong fragrance. 9"H Perennial to Zone 4.

CHERVIL

3" Pots

Anthriscus cerefolium. 1. A. Traditionally used in all spring salads. Improves any dish where parsley is usually used. A carrot relative. Does not dry well.

CHIVES

3" Pots

Allium. 1,3,5. P. A diminutive member of the onion family. Essential for every kitchen. Dainty, round clusters of flowers. Repels insects. 18"H

-'**Gigantic**' Elegant, arching form with attractive star-shaped white flowers is appealing not just for culinary purposes. Has the pleasant flavor of chives as well as a faint garlic taste. Almost twice the size of standard chives. 24"H

-'**Staro**' Heavier leaves hold up better for processing, freezing, drying, or using fresh.

CILANTRO (Coriander)

3" Pots

Coriandrum sativum. 1. A. Widely used culinary herb. Popular in Indian, Greek, Mexican, Latin American, and Asian cooking. The leaves have a very different taste from the seeds. The pale mauve flowers attract bees. Likes cool weather and moist, well-drained soil. 2½'H

-'**Cilantro/Coriander**' Bred for maximum leaf production without bolting in the heat.

-'**Calypso**' 50-55 days for leaves, 120-150 days for seed. Full, bulky plants provide a large, uniform harvest of scented leaves. Weeks slower to bolt than the competition. 12-18"H

DILL

3" Pots

Anethum. 1. A. Best known as the flavor in pickles. Seeds add interest to dishes ranging from potato salad, to sauerkraut, to apple dishes. Try the chopped leaves with sour cream, vinegar, and sliced cucumbers or as a garnish.

-'**Bouquet**' Compact plants with finely cut foliage are used primarily for their seeds in pickling.

-'**Fernleaf**' Unique, dwarf plants with dark green leaves. Its used primarily for its fresh foliage in recipes. Slow to bolt. 18"H

EUCALYPTUS

3" Pots

Eucalyptus. 2,3,6. TP. Broad shiny silver leaves on smooth grayish white stems. Cough drops and antiseptic rinses are made with oil from the leaves. Can be used indoors to neutralize and deodorize the air.

-'**Silver Dollar**' Ornamental variety used by florists for its lg. round leaves. 2'H

FENNEL

3" Pots

Foeniculum. 1,3. TP. Feathery foliage holds rain drops as sparkling pearls. Stunning yellow flower umbels add interest to plantings. When adding to a prepared recipe that is hot it is best to wait until the very last moment because heat will destroy the delicate flavor. Average, well-drained soil is best.

See Vegetable Section Also

-'**Bronze**' 50-60 days. Non-bulbing type. Bronze-red, lacy foliage with a sweet flavor that can be used in salads, dressings, or for decoration.

LAVENDER

3" Pots (unless noted)

Lavandula. 1,3,5,6. P. Fragrant, blue-violet flowers for potpourris, sachets, soaps, and perfumes. Excellent border and accent plants. Attracts butterflies.

-*angustifolia* English lavender

-'**Hidcote Superior**' Fragrant lavender blue flowers. 12"H **6" Pots Also**

-'**Jean Davis**' Pinkish flowers. Compact, oval habit. 15"H

-'**Munstead**' Lavender blue, fragrant flowers. 18"H **6" Pots Also**

-'**Sweet Romance**' Early blooming violet-purple, branched flower spikes atop a compact mound of gray-green foliage. 12-18"H. **6" Pots**

-*intermedia* Dutch Lavender, aka Lavandin. A cross between *L. angustifolia* and *L. latifolia*.

-'**Phenomenal**'. Heat, humidity, and drought tolerant with elegant lavender flowers. 22-24"H. **4½" Pots Also**

-'**Provence**' Light purple, intensely fragrant blooms. 18"H

NEW!-*stoechas* '**Anouk**' Series Spanish Lavender. Full, upright plants with colorful flower spikes that rebloom throughout the season. Excellent attributes like disease resistance, weather tolerance, and spicy fragrance make this a wonderful component for containers. 14-18"H

Colors include: Deep Rose Double (Dark Purple)

LEMON BALM

3" Pots

Melissa. 1,2,6. P. A member of the mint family. Fresh leaves make a calming, delicious tea. Fresh chopped leaves are interesting in salads. Use in perfumes and soaps. Attracts bees. 2½'H

LEMON GRASS, WEST INDIAN

4½" Pots

Cymbopogon citratus. 1,2,6. TP. Aromatic grass from India. Used for flavorings, perfumes, and to treat digestive problems and fevers. This plant forms handsome, 2-3'H upright clumps of slightly arching light green foliage. Plant in full sun with well-drained soil and keep evenly moist. Can be overwintered in a sunny window. As the preferred species for culinary use, the stems can be crushed or chopped and used in soups and marinades.

LEMON VERBENA

3" Pots

Aloysia triphylla. 1,3,6. TP. A strong lemon flavor compliments other teas. Try adding finely crumbled dried leaves to your carrot, banana, or zucchini bread. Used in sachets. Excellent houseplant or for a cool sun porch. Can grow to 5'H.

LOVAGE

3" Pots

Levisticum officinale. 1. P. Excellent flavoring for soups, stews, and casseroles. Celery-like flavor. Hollow leaf stems make good straws for Bloody Mary's, or so we hear! Tall growing, handsome, tropical looking herb. 5'H.

MARJORAM

3" Pots

Origanum majorana. 1. A. A special, strong, spicy flavor. Rub on meat before cooking. Combines well with sage when used on poultry dishes. Oil from the top portion of the plant may be used in soaps.

-'Sweet' Flowers early, compact, 20"H.

MINT

3" Pots

Mentha. 1,3. P. Grown for the familiar leaves, which have long been cultivated for their oils. See almost any cookbook for uses. Partial shade and moist soil. Can be invasive, so plant where you want it to spread.

-'Chocolate' Bronzy peppermint-like foliage with a unique flavor. 24"H

-'Kentucky Colonel' Excellent spearmint flavor and scent, great for jellies. Large leaves and a robust plant habit. 24"H Cut often for good regrowth.

-'Orange' Very fragrant with a neat habit.

-'Peppermint' Deliciously spicy! Great for tea. 24"H

OREGANO

3" Pots

Origanum. 1,2,3. TP. Necessary for Italian, Spanish, and Mexican cooking. Flavor compliments tomatoes nicely. Plant in full sun and in lean, fast drying soils. Roots easily - take cuttings to grow indoors for your winter cooking. Its oils are said to have antiseptic properties.

-**Greek** Strong growing, intensely flavorful leaves. Hardy to zone 5, winter protection necessary. 12-28"H

-**Italian** This variety is actually a cross between sweet and wild marjorams lending a milder flavor than greek oregano. An herb pantry staple, very versatile, the leaves can be used dried or fresh. Clumping, mounding habit with some trailing branches. 1-2'H

PARSLEY

3" Pots

Petroselinum. 1. B. Balances flavors of food. Fresh green foliage makes an excellent garnish. High vitamin and iron content. Neutralizes garlic or onion aftertaste, also frequently used in dog treats for canine breath-freshening.

-**'Italian Dark Green'** Large, dark green, flat leaves with a strong flavor.

-**'Triple Curled'** Milder flavor than flat leaved.

PATCHOULI

3" Pots

Pogostemon. 2,6. TP. Well known for its fragrance, it is often used in perfumes. It is also used to treat intestinal issues, colds, vomiting, and nausea. Skin conditions such as burns, chapped skin, fungal problems, and acne have also been treated with its oil. Bushy plants with large leaves reach 3-4'H. Prefers rich soil and part shade.

ROSEMARY

3" Pots

Rosmarinus officianalis. 1,2,3,4,6. TP. One of the most fragrant herbs. One hundred and one uses for decoration, hair and skin rinses, and cooking. Use the stems as skewers for barbecued kabobs. Butterflies and bees love rosemary and the honey produced is delicious. Attractive evergreen foliage and pale blue flowers. Fine houseplant for cool, sunny windows!

-**'Blue Spires'** Well-branched habit with sweeping upright habit and clear blue flowers. 4'H

-**'Prostratus'** Creeping, low-spreading groundcover. Violet blue flowers.

Trails up to 3'. 6-12"H. **8" Baskets Also**

-**'Tuscan Blue'** Upright habit & broader leaves than other varieties. Clear blue flowers.

RUE

3" Pots

Ruta. 3,5,6. P. A hardy subshrub with gray, aromatic foliage. Repels fleas. The oils in this plant can cause skin rashes on some people. Rue is best used in ornamental gardening and its value as a medicinal plant is outweighed by its toxicity. Belonging to the Rutaceae family, this plant is one of the few that serves as a host for the Giant Swallowtail Butterfly larvae; witnessed here in 2012!

-*graveolens* Dainty clusters of yellow flowers are followed by attractive green seed capsules. 36"H

SAGE

3" Pots

Salvia. 1,3. TP. Originally found in the Mediterranean. Used in flavoring meats and cheeses. Tolerant of hot, dry conditions. Some are not meant to be edible but are more intended to be decorative additions in planters and beds.

-*elegans* **'Pineapple'** Delicious pineapple scent and flavor. Brilliant red flowers appear late in the season. 2-3'H

SAGE, Continued

-officianalis varieties

- aurea* 'Golden Variegated' syn. Good Friends Golden. Chartreuse-yellow leaves with dark green markings. 12"H
- 'Berggarten'* Large, gray blue leaves. Robust and low growing. 24"H
- 'Common'* Gray-green leaves and pale blue flowers, best variety for culinary purposes. 32"H
- NEW!*-*'Icterina'* Fragrant, striking variegated golden foliage. Bluish-purple flowers in summer. Mounded 10-12"H, 16-20"W
- 'Purpurea'* Aromatic purple foliage. 12-24"H
- 'Tricolor'* Ornamental, aromatic, white, green, and pink foliage. 12-18"H

SANTOLINA

3" Pots

Santolina. 3,6. TP. Native to the Mediterranean, this member of the daisy family gives the appearance of Lavender. Frequently found in knot gardens during Elizabethan times for its aroma & willingness to be pruned to shape. Grows best in arid, nutrient poor slightly alkaline locations with full sun. Hardy to zone 6.

NEW!-*etrusca* Etruscan Santolina. A lovely foliage for textural interest. Soft, gray green leaves are graceful with creamy white button looking flower heads in the summer. Benefits from a light trim after flowering. Traditionally used to repel moths from clothing. 16"H

SAVORY

3" Pots

Satureia. 1. Adds special flavor to dishes with peas, beans, or lentils. Excellent in vegetable juices and meatloaf.

- 'Summer'* A. Has a delicate flavor. Interesting addition to green beans.
- 'Winter'* P. Strong, pungent flavor. Attractive low bush for borders.

SORREL

3" Pots

Rumex acetosa. 1,2,4. P. Grown for greens in the old-fashioned garden. Adds zest to bland foods. Great additions to salads. Leaves high in Vitamin C. Remove flowers as they form to keep leaves tender. Harvest often. 12"H

STEVIA

3" Pots

Stevia rebaudiana. 1. A. The glucoside compounds found in this plant make it 200-300 times sweeter than cane sugar without the resulting calories and tooth decaying plaque. Their dried, powdered leaves can be substituted for sugar in recipes. Leaves consumed fresh tend to be less sweet. This native of Paraguay and Brazil prefers rich, consistently moist, well-drained soil and thrives in sandy loam. Will tolerate partial shade. Bushy plants are high-yielding and produce the best quality of leaves for harvesting prior to flowering. 1-2'H & W

SWEET ANNIE

3" Pots

Artemisia annua. 5,6. A. Large, pyramid-shaped plants have fern-like, dark green foliage. Sweetly scented foliage can be dried and used for wreaths and decorations. Bears panicles of tiny yellow flowers. Full sun, average to fertile well-drained soil. 4-7'H

TARRAGON

3" & 6" Pots

Artemisia dracunculus var. sativa. 1,6. P. Ours is the true French strain. Use fresh leaves, in small amounts, in sauces, salads, meat, vegetable, and egg dishes. Preserve dried, frozen, or in white vinegar. Plants are heavy feeders and need plenty of water. 24"H

THYME

3" Pots

Thymus. 1,3,5,6. P. A fundamental herb in French cooking. Pretty pink or purple flowers attract bees and butterflies. Excellent for rockeries, borders, and in cracks along pathways. Creeping and bush types. All do best in poor, well drained soil. Full sun. Also see our perennial listing.

-*citriodorus* varieties (Lemon Thyme)

-'**Doone Valley**' Pungent, tiny green leaves are splashed with yellow.

Compact, low-growing 5". Tender perennial.

-'**Golden Lemon**' Pungent lemon scent and golden variegated foliage which is more pronounced in bright light. 6-10"H. Tender perennial.
