

# New Greenhouse Additions for 2020

## Bedding/Hanging Baskets:

Ageratum 'Aloha Blue'  
Argyranthemum 'Sassy Double Yellow'  
Angelonia 'Angelface Steel Blue' & 'Angelface Cascade Blue'  
Bacopa- 3 new varieties including 'Blutopia' in 4 packs and 'Gulliver Pink'  
Begonia, tuberous- GIANT blooming 'Amerihybrid Ruffled' series- 4 new colors  
Begonia, tuberous- 'Prism' series- 2 new colors  
Calibrachoa 'Kabloom' series (grown in 4 packs)- 6 new colors  
Cosmos 'Cupcakes' series & Apricot Lemonade  
Didelta 'Fancifillers Silver Strand'  
Dahlia-6 new assorted varieties  
Geranium, 'Big Eeze' series- 4 colors  
Geranium, Interspecific 'Calliope' series-4 new colors  
Geranium, Ivy-brocade style, single blooming types are back!  
Impatiens 'Beacon' series-best downy mildew resistant series yet! 5 colors + mix  
Lisianthus 'Voyage 2' series-3 new colors  
Lobelia 'Techno' series- 2 new colors  
Lobularia 'Marineland Frosty Lemon'  
Marigold 'Big Top Orange'  
Marigold 'Zenith' series-3 new colors  
Mixed Calibrachoa hanging baskets- 3 new color combinations  
Nemesia 'Angelart Banana', 'Aromance Pink' & 'Escential Blueberry Custard'  
Osteospermum-3 new assorted varieties  
Pansy 'Cool Wave' series-now in hanging baskets!  
Pansy 'Mammoth' series- 3 new colors  
Petunia-6 new assorted varieties  
Salvia 'Rockin Blue Suede Shoes'  
Strawflower 'Monstrosum Mix'  
Sunflower- 2 new blends grown in cell packs  
Thunbergia 'Arizona' series- 2 new colors  
Verbena 'Superbena Stormburst'  
Vinca 'Solar' series- 3 colors  
Zinnia 'Zesty' series-5 colors + mix

and MORE!!

## Vegetables/Herbs:

Cabbage 'Famosa' (Savoy), Asian Cucumber 'Tasty Jade', Kale 'Dazzling Blue', Kale 'Scarletbor' & 'Nero Toscana', Lettuce 'Wildfire Mix', Pepper 'Sheepnose', Tomato: 'Bodacious', 'Chestnut Chocolate', 'Giant Garden Paste' & 'SuperSauce'

## Bedding Plants for Sun

Agastache	Dianthus	New Guinea Impatiens
Ageratum	Dichondra	Nicotiana
Alyssum	Draceana	Nigella
Anagallis	Dusty Miller	Osteospermum
Anisodonteia	Evolvulus	Oxalis

**Price lists are posted in the front of each greenhouse or you can pick up a copy at the register.**

## BEDDING PLANTS

### ABUTILON (Flowering Maple, Parlor Maple)

3" Pots

1/2S. HW. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom throughout the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

-**Bella Mix** Large 3" bell shaped, yellow pink or red blooms. 14-18"H.

# AGASTACHE (Hyssop)

4 Packs

S.   BDW. Tall, tender perennials belonging to the mint family attract many a creature with their attributes. Hummingbirds, bees, and butterflies are all drawn to these blooms (we've made sure to choose varieties that will bloom the first year for you)! Grows best in full sun and dry-average soils. Very nice alternative to the standard spiky vertical accent.

- 'Astello Indigo'** Long-lasting, stately spikes of indigo blue over dark green foliage. This Fleuroselect gold medal winner looks amazing when planted en masse. Strong, bushy plants are vigorous yet compact. 20-24" H 4½" Pots Also
- aurantiaca* 'Tango'** Abundant, brilliant fiery-orange flowers. A compact habit with good branching and VERY aromatic grey-green leaves. 15" H
- pallidiflora* hyb. 'Globetrotter'** Dense, lilac-pink flower spikes with continuous vivid magenta bracts. 40" H (in flower)
- pallidiflora neomexicana* 'Rose Mint'** Bright, lavender-rose blooms during summer. Compact, well-branched habit. 15" H

# AGERATUM (Floss Flower)

6 Packs (Unless Noted)

S, 1/2S.   BCW. Prolific flossy mounds of blooms provide color all summer. Varieties for containers, bedding, and cut flowers. Combine with geraniums and Alyssum for that patriotic red, white, and blue combo. Does best in well prepared soil.

## Bedding Types

- NEW!-'Aloha Blue'** Bright lavender-blue, early flowering dwarf type. 6-8" H & W
- 'High Tide Blue'** This self-cleaning variety with strong branching is taller and more vigorous with a dense, mounded habit. 14-16" H, 12" W
- 'Patina Delft'** Excellent heat tolerance, bicolored sky blue & white flowers above a well-branched plant, no need to pinch. Vigorous, 10-14" H x 12-18" W **Choice 4 Pks**

## Cut Flower Types

- 'Blue Horizon'** Lovely lavender to purplish-blue fuzzy flowers on sturdy stems. Vigorous, uniform growth. 30" H

# ALCEA (Hollyhock)

6 Packs

S. BC. Striking, old-fashioned favorite. Butterflies and hummingbirds go into a frenzy around the tall spikes. Always popular! These bloom the first year not like the perennial type. Average, well-drained soil; will tolerate dry conditions once established. Staking may be necessary.

-**Indian Spring Mix**' AAS winner. Semi-double flowers in light pink to crimson-rose shades. 4-5'H

-**Summer Carnival Mix**' Fully double, 4" blooms in yellow, white, crimson, and rose. Very showy! 5-7'H

# ALYSSUM

S, 1/2S. BW. syn. *Lobularia*. Tiny blooms cover these carpet forming plants. The most popular of all edging plants. Their sweet honey-like fragrance attracts butterflies. Shear to encourage re-bloom. They prefer average, well drained soil.

6 Packs

-**Clear Crystal' Series** Vigorous, large flowered plants. 6-10"H, 10"W

Colors include: Lavender Shades Purple Shades

-**Giga White**' Giga from the greek word for "giant" these tetraploid, pure white flowers are produced from plants that are more robust than the standard. 4"H

-**Snow Crystals**' Large, pure white flowers. 4-6"H, 10"W

-**Wonderland Deep Purple**' Nice, compact variety with a vigorous spreading habit. Rich, deep mulberry blooms. 3"H, 8-12"W

3" Pots

-**Snow Princess**' A breakthrough in breeding gives this plant better tolerance to wind and rain. Strong, trailing growth makes it ideal for hanging baskets. Flowers throughout the summer and will remain attractive into the fall. 4-6"H, 2-4"W

-**White Knight**' Exceptional blooming and fragrance! Its habit is more restrained than snow princess and easily blends into combination planters and baskets without overtaking its companions. Lovely dark green leaves make the flowers "pop" even more. 4-6"H, 1½-2"W

**NEW!**-**Marineland Frosty Lemon**' Flowering abundantly in the spring and summer across the whole plant, its brightly variegated leaves and soft yellow blooms make this plant a winner. Well-behaved, compact habit "plays" well with others in combinations. 3-5"H,

## ANAGALLIS (Pimpernel)

3" Pots

S, 1/2S. BHW. Colorful plants for borders, rock gardens, and containers. Blooms all summer, cloudy conditions will cause blooms to close. Also makes an attractive indoor container plant for the winter. Prefers light, sandy soil. Intermingles well with others in the landscape & cascades quite nicely in window boxes.

-**'Wildcat' Series** Vigorous trailer with a meandering yet well branched habit.

Excellent heat tolerance, drought tolerant once established. 6-10"H, 10-18"W

Colors include:     Blue (Bright Indigo)  
                          Mandarin (Bright Orange)

## ANGELONIA (Angel Flower)

3" Pots

S.  BW. Long lasting colorful flowers are held on slender upright spikes lasting 4-6 weeks. Their habit makes them an excellent choice for a more interesting vertical accent in summer plantings. Aromatic foliage with an apple scent. Heat and drought tolerant. A good alternative choice for Lobelia and Bacopa in summer containers.

-**'Angelface' Series** Continuous blooming plants flower well into the fall and do not require deadheading. 18-24"H Cascade varieties were designed to have a low, trailing habit that "spills" over the edges of planters. 8-14"H, 12-30"W

Colors include:     Blue Improved  
*NEW!*Cascade Blue  
*NEW!*Steel Blue (Periwinkle-blue)  
                          Wedgwood Blue (Bicolored blue & white)  
                          White

## ANISODONTEA (African Mallow)

3" Pots

S.  BWH. Excellent container or patio specimens. Easy to grow into a standard. Bring indoors in winter and keep in a sunny window, water sparingly during winter months. Rich, well-drained soil, feed every 10 days. Protect from strong summer sun or plants may stop blooming, removing seed heads will also help.

-**'Elegant Lady'** Large, rose-pink flowers. 1-3'H

## ARGYRANTHEMUM (Marguerites, Boston Daisy)

S, 1/2S. BCW. Bright, showy 'daisies' bloom all summer. Excellent in the border, containers, and urns. Long lasting cut flowers. Average soil. Feed weekly. Deadhead as soon as flowers start to fade.

### 3" Pots

-**'Sassy' Series** Excellent branching, low maintenance. Ideal for using in mixed containers. Mounded, upright 10-14"H, 12-14"W

Colors include: Double Deep Rose

*NEW!* Double Yellow

Red

Rose

White

### 4½" Pots

-**'Beauty Yellow'** Uniform, compact plants perform very well throughout the season and produce high quality, bright yellow flowers. More compact than the traditional Butterfly. 1'H, 2'W.

-**'Golden Butterfly'** Continuous, stunning golden yellow blooms with yellow centers. Deadheading is NOT necessary with this hybrid! Excellent drought tolerance once established. 18-36"H

-**'Grandessa Pink Halo'** This intergeneric cross has big, bright 3-4" blooms; twice the size of standard Marguerites! Plants are full and vigorous. 18-24"H & 18-24"W

-**'Pure White Butterfly'** Bright, pure white daisy flowers are large with a bright yellow center. No dead-heading necessary. 18-36" H

-**'Vanilla Butterfly Improved'** Large, pale yellow daisies all season. This improved version has better color coverage and a richer hue. 18-36"H

## ARTEMISIA

### 3" Pots

S. ☞BW. Lean, well drained soil. Hardy to zone 3, can be used for perennial beds as well as annual plantings. May be sheared to shape. Maine native.

*NEW!*-*stelleriana* '**Mori's Strain**' White, felt-like pinnatifid lobed leaves.

Creeping. 8"H

# ASCLEPIAS

4 Packs

S. ☞☞BCW. Multi-purpose plants can be used for annual plantings and containers or simply to attract bees and butterflies. If using in floral arrangements it is best to sear the stem with a flame and plunge in water immediately. Deer and rabbit resistant. Transplant with care in a location that will be well-drained, warm and a bit drier.

-*curassavica* '**Silky**' **Series Mexican Milkweed** Will produce blooms and seeds at the same time, all season long. 24"H.

Colors include: *NEW!*Mix *NEW!*Scarlet

## ASTER (Starwort)

6 Packs

S. ☞BC. Brightly colored, showy blooms are long-lived cut flowers. Butterflies flock to them. Their peak bloom is in August to late September when gardens tend to look a bit faded. They prefer light, sandy soil with added lime and composted manure.

-'**Crego Finest Mix**' An old favorite with large, shaggy blooms. 18-24"H

-'**Giant Princess Mix**' Fully double, crested blooms reach 5" across. 28"H

-'**Matsumoto Mix**' Distinct yellow centers on finely colored 2" flowers. Heat resistant. 24"H

## BACOPA (Water Hyssop)

3" Pots (Unless Noted)

S. BW. Very showy flowers all summer long. Small scalloped leaves. Vigorous and heavy blooming. Heavy feeders. Keep moist- as plants will put on their best show when given adequate water and will abort buds if soil is allowed to get too dry.

*NEW!*-'**Atlas White**' This strongly heat tolerant variety boasts extra large, clean white flowers. Mounding/trailing habit, 6-8"H

*NEW!*-'**Blutopia**' Traditional lavender-blue coloration. A slightly more mounded habit with smaller leaves than its white counterpart. 6"H, 18-24"W **4 Packs**

-'**Scopia Gulliver**' **Series** This series was bred for abundant, early blooms that are continuous throughout the season, increased heat tolerance, and durability. Branched, compact habit. Extra large flowers up to 1" across.

Colors include: Blue White

-'**Snowtopia**' Beautiful white flowers with large leaves. Good performance in both large baskets or mixed containers. Trailing/spreading 1½-2'W, 6"H. **4 Packs**

# BEGONIA

## FIBROUS BEGONIA (Wax Begonias)

6 Packs (Unless Noted)

S, 1/2S. BW. Excellent color from spring until frost. More tolerant of sun than tuberous types. Keep moist in full sun. Fertilize every other week.

-'**Ambassador' Series** Large flowers, very rich green foliage. Dwarf. 8-10"H

Colors include: Coral Pink White

-'**Cocktail' Series** Compact plants bloom all season! Wine-stained foliage is covered with brightly colored flowers. 6-8"H

Colors include: Gin (Rose-pink) Vodka (Scarlet red)

-'**Dragon Wing Red' Large, wing-shaped, glossy green leaves with brightly colored single flowers in abundance all season. 12-15"H Choice 4 Packs**

-'**Sprint PLUS' Series** Large, round blooms are early to flower and very uniform. Green foliage. Excellent performance in containers or bedding. 10"H

Colors include: Blush Scarlet (Red) White

-'**Tophat' Series** Giant blooms are the largest flowers in its class! Versatile.

Fills out large patio planters easily. Green foliage with strong branching. 16-20"H, 20-24"W **4 Packs**

Colors include: *NEW!* Rose Bicolor Scarlet White

## HYBRID BEGONIA

4 1/2" Pots

1/2S. BW. Hybrid begonias have large, mostly double blooms all summer long and perform exceptionally well; whether planted in containers or the landscape.

-'**Amstel' Series** Vigorous, floriferous plants. 12"H

Colors include: Blitz (Yellow) Camilla (White w/ rose)

Carneval (Orange & yllw) Clara (Bright White)

*NEW!* -'**Move2 Joy Pink' Larger, double soft candy pink flowers that sit on top of the foliage. Improved sturdy, round habit is more compact.**

-'**Netja Dark' Semi-double, flamingo pink blooms. Dark, shiny green leaves.**

Upright habit. 12-18"H & W

-'**Rhine' Series Fully-double, peony-type blooms from May until frost.**

Colors include: Borias (Soft, antique pink)

Dragone Champagne (Soft peachy-pink)

-'**Valentine Red' Shiny, dark green leaves with bright, fire engine red, double blooms. Mounding.**

# BEGONIA, Continued

## TUBEROUS BEGONIA

4 Packs (Unless Noted)

1/2S. BW. Gorgeous Camellia-like blooms provide a brilliant display until frost. Morning or afternoon sun or a full day of filtered sun. Keep evenly moist and protect from strong winds. Remove faded blossoms and fertilize often to keep them in bloom. Tubers can be dug in the fall and stored over-winter.

-'AmeriHybrid Ruffles' Series Showy, double flowered blooms are EXTREMELY large at 5-9" in diameter w/ ruffled edges and deep green leaves. 10-15"H 4½" Pots

Colors include: *NEW!* Coral Salmon  
*NEW!* Mandarin Orange *NEW!* Pink  
*NEW!* Scarlet Red Yellow

-*boliviensis* *hyb.* 'Mistral' Series Large, eye-catching single flowers are the "go-to" choice for hanging baskets and trailing type planters. Excellent branching with elongated, dark green leaves. 10-12"H, 14-16"W **Choice 4 Packs**

Colors include: Dark Red Pink Yellow

-*boliviensis* *hyb.* 'Marshmallow' This compact beauty has prolific single, two-toned white and blush blooms. Strong performance for smaller plantings. 6-8"H, 10-12"W **Choice 4 Packs**

-'Fragrant Falls' Series Now we can not only have large, double flowers and a tidy habit built for the shade...there's also a delicious scent to go along with them! Ideal for baskets. 8-14"H, 6-8"W 4½" Pots

Colors include: Lemon Peach

-'Non-Stop' Series Double and semi-double 3" flowers. 8"H

Colors include: Appleblossom Deep Rose Deep Salmon  
 Mix Orange Pink  
 Red White Yellow

*NEW!*-'Prism' Series The next generation of breeding has created this robust series of Begonias. Massive double blooms are held up and over the foliage rather than tucked inside. Beautiful shades of peach and apricot. More vigorous and taller than traditional Non-stop types at about 14"H.

Colors include: Sunrise Sunset

# BEGONIA, Continued

## REX BEGONIA

4½" Pots

1/2S. BWH. These are also known as Painted Leaf Begonias. Grown for their beautiful, large, colored leaves. They have striking patterns in variations of pink, red, black, silver, and/or green. Pot into a loose, well-drained soil mix, avoid over-watering. Fertilize every two weeks in spring and summer. Also makes an easy indoor plant when given bright, filtered light and warm temperatures.

- '**China Curl**' Deeply twisting spiralled leaves have chocolate brown edges and a central band of silver with a deep pink layer faintly blurring between the two. Highly distinctive yet easy to blend in plantings. 14"H
- '**Escargot**' These attention-grabbing silver and olive green leaves swirl into the center like a snail shell giving the plant its name. Partially trailing. 6-12"H
- '**Fairy**' Part of the Fancy Leaf Large Series. Extra lg., bright multicolored leaves have burgundy margins, with mostly silver interior and green veins. 6-12"H
- '**Fireworks**' Wing shaped, iridescent silver leaves have metallic purple segments. This is one of our favorites! 12-18"H
- '**Great American Cities**' Series Tricolored leaves have contrasting colors in center, middle, and on leaf edges. Leaves are generally heart-shaped. 8-16"H
  - '**Cancun Christmas**' Green outer ring, burgundy center with pink and white speckles throughout. More compact than the rest of series. 8-10"H
  - '**Maui Mist**' One of the best pink shaded varieties, long pointed leaves.
  - '**New York Swirl**' Crisp, dark maroon and black fingers mark the center of the curling snail shaped interior. Silver and pink leaves have a darker undulating leaf margin with irregular teeth along the edge. Exquisite!
  - '**Seattle Twist**' Bright pink center, cream middle, green and pink edge.
- '**Miralest**' Part of the Bob Golden Collection, the leaves of this Begonia have a thick layer of deep green on the outside, pink in the middle, and almost black centers; splotched with white throughout. 12-18"H
- '**Pink Banded Silver**' Obvious bands of color make this variety a standout amongst the rest, changing from pink to silver then back to pink again.
- '**Tie Dye**' Deep red and green markings adorn these large, wavy-edged leaves. The blending of colors gives a neat tie-dyed effect. Less winter dormancy than other rex types (in case you wanted to keep it inside). 14"H

## BELLIS (Double English Daisy)

6 Packs

S, 1/2S. B. Yellow discs surrounded by ray flowers. Rosette shaped leaves make a nice ground cover. Tolerates cool weather. Well drained, reasonably fertile soil.

*NEW!* -'Tasso Mix' Compact plants with strong flower stems and large, pom-pom-style blooms that hover above the foliage. Lovely shades of pink, white, rose and red. A short-lived perennial, zone 4. 4-6"H, 6-8"W.

## BELLS OF IRELAND

6 Packs

S. BCD. Green bells surround small, white, fragrant blooms. Makes a wonderful cut flower. Poor to average, sandy, well-drained soil. Combine with other green flowers for an interesting combination. Will self sow. Stake plants when small to avoid sprawling. 30"H.

## BIDENS (Spanish Needles)

3" Pots

S, 1/2S. BW. Clusters of typically yellow, 1¼"-1½" wide, daisy-like flowers. Lacy, deeply divided, soft lime-green foliage. Flowers are nectar rich, bloom from spring well into the fall and attract beneficial insects. A good brightener for containers and window boxes. Moderately fertile, well-drained soil. Keep evenly moist, not wet.

-'Popstar' Extremely large, 1½-2" sunny yellow flowers are bigger than most varieties. Mounding/compact habit, 8-12"H

## BOUGAINVILLEA

3" Pots

S. Exquisite paper-like bracts in stunning colors bloom all summer. Allow to dry slightly between watering. If extended wet weather occurs, be sure to bring your plant in out of the rain. Protect from wind. Needs full sun to flower and would benefit from trimming off spent flower stalks, allowing fresh flower bracts to develop significantly faster. Ask for our culture sheet.

-'RijnStar Lila' Particularly suited to growing in cooler climates. An exceptionally heavy bloomer-often displaying lilac colored bracts along the entire branch. Compact, vigorous growth with dense green foliage.

## BROWALLIA (Bush Violet)

6 Packs (Unless Noted)

S, 1/2S. ☞BCW. Bell-like flowers on bushy plants are quite attractive to hummingbirds. Pinch when 5" tall to promote branching. Moderately rich soil. Thrives in filtered sunlight.

**NEW!-'Blue Lady'** This cold-hardy gem has small, single lavender-blue blooms with a cream and yellow center. Flowers continuously until temps reach 40°F in the fall, bring indoors before then & it will overwinter in a sunny window! Stems become tinged purple in cooler temps. 2'H, 1-2'W

**-'Endless' Series** Brilliant flowers bloom heavily all season long. Dense mounded habit. Beautiful in baskets or the landscape! 12-16"H, 10-14"W  
4½" Pots

Colors include: Flirtation (White) Illumination (Blue)

**NEW!-'Snow White'** Pure, bright white, single blooms with bright green leaves. A rare beauty that commands attention in that shady afternoon border. 1'H, 1'W.

## CALENDULA (Pot Marigold)

6 Packs

S. ☞☞BCW. Bright double flowers bloom til frost. Deadhead for best results. Petals can be used to flavor and color cakes, salads, and dips. Any reasonable soil will do.

**-'Bon Bon' Series** 2-3" blooms on free flowering plants. Very early. 8-10"H

Colors include: Apricot Light Yellow Yellow

**-'Pacific Beauty Mix'** Large double apricot and lemon colored flowers. Heat tolerant. 24"H

**-'Princess Mix'** A mixture of 2-3" brilliant orange and yellow, mostly double, flowers with black or green centers. 18-24"H

**-'Touch of Red' Series** 2-4" Double blooms with petals tipped in red. 12-18"H

Colors include: Orange Yellow

# CALIBRACHOA (Million Bells)

3" Pots (Unless Noted)

S.  BW. **EXCELLENT!** Small, rich-colored, petunia-like blooms explode over the plant all season. Very colorful. Self-cleaning. Heavy feeders, that like acid soil and high amounts of iron in their fertilizer. Attracts hummingbirds!

-'Aloha Tiki Orange' Very large flowers in a variety of bright, clean colors. Semi-upright habit.

-'Aloha Kona' Series Early blooming series with very large tropical colored flowers. Compact, semi-upright habit is perfect for window boxes. 8-10"H.

Colors include:      Blue Sky                      Dark Red                      Hot Orange  
   Hot Pink                      Midnight Blue              Neon  
   Pineapple                      Yellow

-'Aloha Nani White' Bright, pure white flowers are produced on an even more compact habit than its sister series-Aloha Kona. Mounding, 4-6"H

**NEW!**-'Bloomtastic Pink Flare' Extra large, hot pink blooms with prominent, darkened eyes and starry yellow centers. Vigorous and heat tolerant. Mounding 15-18"H

-'Callie Pink Morn' Enticing soft baby pink blooms with a lemony interior that irregularly creeps into the surrounding pink. Strong roots are more tolerant of pH changes than other Calibrachoa's. Trailing 12-16"W, 4-8"H

-'Chameleon' Series Industry first for Calibrachoa's! Highly unique flowers blending shades of yellows and pretty berry-pinks that will continually change color in reaction to seasonal factors. Outstanding garden performance. Compact, semi-trailing 8-10"

Colors include:      Lemon Berry                      Sunshine Berry

-'Hula' Series Very large flowers with wide, dark colored eyes and a yellow center. Medium-trailing habit. 10-12"W

Colors include:      Blue (Pale periwinkle blue/ deep violet center)  
   Soft Pink (Soft pink/ dp pink, magenta center)

-'Kabloom' Series Masses of large, bright blooms covering disease resistant plants. Bushy/trailing plants have a good branching structure. Ideal for use in mixed combination planters. 8-12"H, 10-14"W **4 Packs**

Colors include: **NEW!**Blue                      **NEW!**Cherry                      **NEW!**Coral  
   **NEW!**Denim                      **NEW!**Light Pink Blast  
   White Imp                      Yellow

## CALIBRACHOA, Continued

**NEW!**-'**Mini Famous Uno Violet Star**' Large lavender and white starred blooms on well-rounded plants, ideal for using in mixed containers. Excellent heat tolerance. Medium-compact habit 8-10"H, 10-12"W

-'**Superbells' Series** Mounding-trailing plants that are vigorous and floriferous. 6-12"H, 12-24"W

Colors include:	Blue	Cherry Red	Evening Star
	Grape Punch	Over Easy	Pomegranate Punch
	Tangerine Punch	White	Yellow
	Yellow Chiffon		

## CELOSIA

6 Packs

S.  BCD. Hailing from the tropics these showy plants are named for their large, fiery, often flame shaped inflorescences. Plant in masses for a bold bedding display. Rich, moist, but well drained soil.

-'**Smart Look Red**' Plume type flower. Well branched, bushy habit with dark bronze foliage. Makes a wide based bush with large, deep red plumes. Outperforms others in extreme heat. 15"H

## CENTAUREA (Bachelor's Buttons)

6 Packs

S.  BCD. Fluffy, pleasant flower heads. A long time favorite cut flower. Any well drained soil will do. Thin to 6-12" apart. Don't over-fertilize for best flowering, dead-heading is recommended, but will self-sow if allowed to mature. EASY.

-'**Blue Boy**' Clear blue, 2" blooms. 36"H

-'**Emperor William**' Heirloom. Single, lapis-blue flowers are abundantly produced atop sturdy, multi-branched stems. 2-3'H, 1'W.

-'**Jubilee Gem**' Dark blue, double flowers. Dwarf, bushy plants. 12"H

# CENTRATHERUM (Brazilian Bachelor Button)

6 Packs

S, 1/2S.   BW. This interesting Brazilian native belongs to the aster family and has prolific blooms that are loaded with irresistible nectar for the butterflies and other pollinating insects! Its bushy shape is very useful in borders. LOVES the heat and will tolerate dry conditions once established, prefers well-drained soil.

*-intermedium* **'Pineapple Sangria'** RARE and unusual plant. Pineapple scented leaves with 1" fluffy button shaped lavender-blue flowers. Hundreds of blooms continuously, starting early summer until hard frost in the fall. 18-24"H, 24"W

# CLEOME (Spider Flower)

4 Packs & 6 Packs

S, 1/2S.   BC. Tall dramatic plants. Unusual, fragrant, spidery flowers are borne singly or in clusters. A favorite of hummingbirds. Attractive in mass plantings. For best results, clip off seed pods as they form. Heat and drought tolerant.

*-'Queen' Series* Very large and showy plants with 5-6" clusters. Pink is an AAS winner. 4-6'H, 28-36"W **6 Packs**

Colors include:	Cherry (Bright rose)	Helen Campbell Pure wht)
	Pink (Vibrant above blush below)	Violet (Vivid Purple)

*-'Sparkler' Series* The first hybridized series on the market. Full, bushy habit is not so overwhelming in smaller gardens. Blush is an AAS winner. 40-48"H, 2-3'W **4 Packs**

Colors include:	Blush	Lavender
	Rose (Vibrant rose)	White (Bright white)

# COLEUS (Flame Nettle)

1/2S, S. BHW. Bright colored foliage for those shady areas. Superb potted plants. Will tolerate sun, but colors fade. Average soil. Remove flowers as they form.

**6 Packs (Unless Noted)**

*-'Black Dragon'* Large, dark red leaves with black edges. 12-14"H

*-'Fairway' Series* Well branched plants with an extra dwarf habit have vivid foliage colors and are versatile. They are well suited for use in baskets, landscapes, window boxes and planters. 8"H, 10"W

Colors include:	Orange	Rose
-----------------	--------	------

# CONVOLVULUS

## 3" Pots (Limited Quantities)

S. BW. Most captivating sprawlers. Both have been given the "Award of Garden Merit" from the Royal Horticultural Society. Use in front of the garden or in planters. Elegant when combined with white Lobelia. Allow to dry slightly in between waterings.

*-cneorum* Silverbush. Funnel-shaped 1½" white flowers with yellow centers. Silver foliage on bushy, upright, shrub-type plants. Silky accent plant. 12-18"H

# COSMOS

## 6 Packs

S. ABC. Their name is Greek for beautiful. Tall, open branched plants which are popular for the back of the border or cutting garden. Attracts butterflies. Average soil, will tolerate drier conditions. Deadhead and don't overfertilize for best flowering. Shelter from strongest winds or stake. Allow ample room.

*-bipinnatus* Large flowers and finely cut foliage. Brings a light look to the garden.

**NEW!-'Apricot Lemonade'** Gorgeous, early flowering plants with unique pink-centered apricot blooms. Upright, bushy habit. 20-28"H, 14"W

**NEW!-'Cupcakes' Series** This unusual new series has a flower form that is cup-shaped with petals that are fused together. Superb for cutting. 40"H

Colors include:      Blush                      White

**-'Daydream'** Pale pink with deep pink centers. 3'H

**-'Double Click' Series** Long-blooming plants with gorgeous, frilly, 2-3" pom-pom flowers. Double & semi-double blooms have sturdy stems. 2-3'H

Colors include:      Bicolor Pink                      Cranberries  
                                 Rose Bonbon                      Snow Puff

**-'Lemonade'** Fresh, pale yellow petals and bright yellow eye diverge from the norm with a blurry wide band of white around the eye. An extra special touch to already beautiful flowers. 20-24"H

**-'Psyche'** Semi-double, frilly flowers. Uniform and free-flowering. 40-48"H

Colors include:      Mix                                      White

**-'Rubenza'** Dark, ruby-red blooms mature to rosy-red. 3'H

**-'Sea Shells Mix'** Delicate foliage. Flowers have unique petals that each curve forming a tubular shape. Blooms are shades of white, pink, rose, and carmine. 3-5'H

## COSMOS, Continued

**-'Sensation' Series** Large, showy, single flowers. 3-5'H

Colors include: Dazzler (Crimson-red) Mix  
Pinkie (Soft pink) Purity(White)  
Radiance(Deep rose with crimson)

**-'Sonata' Series** Single, 3" flowers with gold centers. Dwarf. 2'H

Colors include: Carmine Pink  
Pink Blush White

**-'Xanthos'** Stunning, 3" soft pastel yellow flowers fade at the edges.  
Long blooming with a compact, upright habit. 20-24"H

## CYNOGLOSSUM (Chinese Forget-Me-Not)

6 Packs

1/2S, Sh. ♂B. A valuable splash of blue. Intense blooms rise above the plants in clusters. Spectacular with whites and pinks. Average, moist but well-drained soil is best; not overly fertile. Particularly suited for shady areas along northern or eastern facing exposures and is quite at home when nestled in between shrubs.

**-'Firmament'** Rich, clear blue flowers on bushy, compact plants. 15-18"H

## DAHLIA

S, 1/2S. ♂BCW. Diverse and versatile plants. They typically have large, spectacularly colored blooms which are great for attracting butterflies and make wonderful cut flowers. Large, garden varieties begin blooming later than the potted types, starting in early summer til frost. Rich, well-drained, evenly moist soil is best.

6 Packs

**-'Figaro' Series** Double blooms. Dark green leaves. Compact. 14"H

Colors include: Field Mix Orange Shades Red Shades  
Violet Shades White Yellow Shades

**-'Fresco' Mix** Dbl., brilliant colored blooms of red, violet, yllw, white & rose. 12"H

**-'Harlequin' Mix** Mixed colors with bold stripes and frilly collars. Very showy!  
Dwarf. 10-12"H

# DAHLIA, Continued

## 4½" Pots

-**'Dahlinova Hypnotica' Series** Vibrant, eye-catching 4" flowers in unique shades. Plants are well-branched, uniform, and perform well in either containers or the landscape. Blooms from spring to fall. 12-26"H

Colors include: Gold

Rose Bicolor

**NEW!**-**'Dalaya White'** Large blooming plants perform just as well in containers as they do in the landscape. Superior powdery mildew resistance. 16-18"H, 12-16"W

-**'Dalina' Series** Grande plants have big, vibrant, fully double flowers on thickly-branched; vigorous plants. Blooms until frost! 15-18"H, 12-18"W.

Colors include: Grande Castillo (Bright purple)

Grande Merida (Fiery red/white tips)

-**'Goldalia Rose'** Dynamic bicolored flowers have a naturally compact habit with excellent growth. 8-10"H **8" Baskets Also**

-**'Grandahlia' Series** Vivid colored flowers are held above the canopy and bloom continuously throughout the season. Plants continue to produce buds during the entire lifespan of the plant. 18-24"H

Colors include: Dark Red

**NEW!**Dark Rose

**NEW!**Sunny Flame

Yellow

**NEW!**-**'Happy Days Neon'** Dissected leaves that are nearly black make a wonderful background for the bright salmony-pink and yellow, single-type blooms. Well-branched habit works beautifully in containers or the landscape. 10-14"H & W

-**'Starsister Scarlet/Yellow'** Bright flowers are semi-double with frilly interior petals. Large blooms stand out against shiny dark green leaves. 10-16"H

**NEW!**-**'Venti' Series** Striking multi and single colored double blooms atop vigorous plants that have a more controlled habit. 15-18"H, 12-14"W

Colors include: Passion Fruit

Tequila Sunrise

# DAHLIA, Continued

## 9" Pots

-Large growing varieties for the garden and for cutting. Decorative type flowers are large, fully double blooms that show no central disc.

-'Aspen' Spiky, white, semi-cactus blooms w/ creamy yellow centers. 14-20"H

-'Claudette' Deep, 5" fuchsia-violet decorative blooms. Tight habit is good for containers. 18-20"H

-'Ellen Houston' Dramatic, 3½" orang red blooms w/ bronze leaves. 14-18"H

-'Firepot' Brilliant 4", coral-pink blooms with yellow centers. 18-24"H

-'Gallery Pablo' Decorative, fully double, 4" blooms. Orange at the tips and along the edges with yellow towards the inside; central eye is a deep orange. Compact, 10-14"H

*NEW!*-'Karma Choc' Rich, velvety wine that appears more towards dark chocolate in the center and deep cranberry-like on the surrounding rows. Up to 6" decorative blooms. 36-40"H

-'Karma Fuchsiana' Decorative. Vibrant fuchsia-red flowers on strong sturdy stems. 5" blooms, 30" H

*NEW!*-'Karma Gold' Decorative type, 5-6" blooms are mostly a warm peach with buttery highlights. 40"H

-'Karma Irene' Decorative. Bright, fiery orange-red. 6" blooms, 30-36"H.

-'Karma Prospero' Decorative, 6" blooms. Soft lilac-pink flowers like those of a water-lily. Dark foliage is a nice contrast. 36"H

-'Munchen' Bright yellow, 6" blooms. 24"H

-'Park Princess' Bright pink, 4" cactus type blooms have good stems for cutting. Compact habit fits well in the garden border. 24"H

-'Purple Gem' Vibrant, eggplant-purple semi-cactus type flowers up to 6" across. 36-40"H

# DAUCUS

## 6 Packs

S. ☞BC. Average, well-drained soil. Keep evenly moist. Give them ample room to grow. Outstanding, long-lasting filler-type cut flowers! Harvest when the stems are stiffer and most of the flowers on the umbel are open.

-*carota* 'Dara' A colorful spin on the plain ole Queen Anne's Lace. Shades from blackberry/ wine to soft cranberry to blush pink, with an occasional white. Each plant bears 7-15 strong, upright flower stalks with 4-6" umbels. 3'H, 24-28"W

# DELOSPERMA (Ice Plant)

3" Pots

S. BW. This drought-tolerant succulent forms clumping mats of fleshy green leaves. It makes a good groundcover, an interesting addition to annual containers, or a colorful touch arranged alongside other succulents. Average to well-drained, sandy soil is best.

*-floribunda 'Starburst'* This Plant Select winner has vivid, 2" magenta flowers with large white eyes, blooming from June until the fall. Attracts butterflies. 6"H

# DIANTHUS

6 Packs & 4 Packs

S.  BWC. This genus of 300+ plants contains annuals for bedding, self-sowing biennials, and undemanding perennials for the rock garden. Their habit is generally low-growing with grass-like leaves. Blooms can be single, semi-double or double and come in many shades, either solid or multicolored; most being fragrant. Keep dead-headed for repeat blooming. Moist, rich, slightly alkaline soil is preferred.

*-barbatus* (Sweet William) Old fashioned cut flower. Very fragrant. Spectacular displays when planted in large groups. Shear after bloom to continue flowering. Being that these plants are biennials, they will bloom every other year. Zone 4.

*-'Dash Mix'* Compact, well-branched plants are strong and have straight stems. Bright, fragrant blooms are a wide range of five different colors.

No staking necessary. 15-20"H, 12-14"W **4 Packs**

*-chinensis* (Annual Pinks) Named 'Pinks' because of their serrated petals, as if cut with pinking shears. Sweet smelling, lacy blooms all season. Attractive in the annual border, rock garden, and window boxes.

*-'Diana' Series* Early blooming, compact plants. Large, single flowers all season. 10"H x 10"W **6 Packs**

Colors include:	Blueberry	Crimson
	Deep Rose Shades	Mix (not incl. Blueberry)
	Salmon	Scarlet

## DICHONDRA

4 Packs & 3" Pots

S. BW. A low, creeping plant with rounded, almost circular silver leaves that have white on the undersides. Cascading stems producing a waterfall-like effect when grown in containers or hanging from a stone wall.

-**'Silver Falls'** Vigorous growth. Displays a true cascading habit. Very drought and heat tolerant. Branches well without pinching. 4"H x 24"W

## *NEW!* DIDELTA

3" Pots

S.  BW. A spreading succulent subshrub that thrives during the summer. An excellent choice for in ground or containerized spaces that need some funky texture. Drought resistant once established.

-**'FanciFillers Silver Strand'** Quaint, soft silvery upright leaves are similar to lavender except with outer edges that curl under; folding them in half to mostly hide the green undersides. Semi-trailing, 6-8"H, 12-16"W

## DRACAENA (Spike)

3½" Pots

S, 1/2S. WH. Tall grass-like clumps have been used for accents in urns since the Victorian era. A mainstay for planters and memorial tubs. Can be used as a houseplant. Soil-adaptable. Tolerates hot, dry conditions. 18-24"H

## DUSTY MILLER

6 Packs

S.  BDW. Exquisite silver foliage provides welcome contrast in the border, container, or window box. Good dried decoration. Thrives in a hot, dry site. See "Senecio" listing also on page 55.

-**'Silver Dust'** Very fine-cut, silver-white foliage. 8"H

-**'Silver Lace'** Delicate, silvery-gray, lacy foliage. Like fine filigree. 6"H

# ENGLISH IVY

## Choice 4 Packs

1/2S, Sh. WH. This foliage plant comes in many varieties with various leaf shapes and colorations. The leaves can be lobed, heart-shaped, or rounded and either plain green or variegated. They look great spilling over the edges of shady containers.

Green varieties:

**'Duckfoot'**

**'Green Ruffles'**

Variegated varieties:

**'Glacier'**

**'Gold Child'**

**'Gold Ingot'**

**'Golden Kolibri'**

**'Lauren's Lace'**

**'Mint Kolibri'**

**'Yellow Ripple'**

# EUPHORBIA

## 3" Pots

S.  BCW. A charming plant that has become increasingly popular due to their unique flower heads. The flowers are actually cup-shaped, ornamental bracts borne beneath the true flowers. Euphorbias exude a white sap when the stem or roots are damaged which can irritate the skin. No need for deadheading with this plant, it is self-cleaning! Excellent in mixed planters and window boxes.

**-'Breathless Blush'** One of the first dark-foliaged euphorbias on the market.

This plant has stunning red-flushed leaves with blush pink and white flowers.

Stocky, mounded plants display excellent heat tolerance. 8-12"H, 20-24"W

**-'Diamond Frost'** This is the single most awarded plant that Proven Winners has ever introduced. Clouds of dainty white flowers. Full and airy habit.

Exceptionally heat and drought tolerant. 13-16"H

***NEW!*** **-'Diamond Snow'** Fully double flowers adorn plants that have a more loose and light habit than Diamond Delight that came before it. 12-18"H & W

# EVOLVULUS

## 3" Pots & Choice 4 Packs

S, 1/2S. BW Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

**-'Blue My Mind'** True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

# FELICIA

4½" Pots & 4 Packs

S. ☹️ BWH. Masses of daisy-like blooms hover above fragile, succulent, fresh green stems; plant away from high traffic areas. Poor to moderately fertile, well-drained soil. Keep moist and feed every 10 days. May be brought inside for the winter.

-*amelloides* 'Astrid Thomas' Bright, cerulean blue flowers with yellow centers.

Much larger flowers than the species. Likes it cool. CHOICE!! 1-2'H 4½" Pot

-'Spring Merchen Mix' Dwarf, heavily branched variety with attractive 1¼" mostly sky blue blooms. Can also be pink, rose, or purple. 6-8"H 4 Packs

# FUCHSIA (Lady's Eardrops)

4½" Pots

1/2S, Sh. 🌿 W. Petticoated blooms in many shapes and colors. Fuchsias do not do well in full sun. They prefer 3-4 hours of morning or afternoon sun. Keep moist at all times, but not soggy. Remove the berries as soon as they form.

-'Dark Eyes' Double, large, violet-blue with shining red sepals.

-'Heri Mochara' Double, deep purple flowers with white sepals. Upright, bushy habit and abundant blooms.

-'Lisa' RARE! Fluffy double blooms with lavender corollas and bright rose sepals.

-'Marinka' Single bright red flowers with darker crimson petals.

-'New Millenium' Double. Pink corollas with black sepals.

-'Swingtime' Double. White corollas with red sepals.

-'Trudi Davro' Elegant, clean double white, outer petals fading to light pink.

# GAILLARDIA (Blanket Flower)

4 Packs

S. 🌿 ☹️ BWC. This short-lived perennial blankets the ground with flowers continuously from June thru August. Native prairie habitat gives these a high tolerance for drought and poor soil conditions. Excellent for bedding. Deadhead regularly.

-'Arizona' Series Ultra compact, tidy, mounded habit. Single daisy-like flowers up to 4" wide. 8-12"H. AAS winning. Cut back in the fall to increase winter survival.

Colors include: Apricot (Apricot w/ golden yellow edge, green eye)  
Sun (Mahogany red w/ yellow edge)  
Red Shades (Crimson red)

# GAURA (Wand Flower)

3" Pots

S, 1/2S. ♂BW. Profuse flowers resembling butterflies bloom most of the summer and are displayed above the foliage giving the plants an airy, ethereal look. Dead-heading is necessary for best flower production. Does best in well-drained sandy soil. Tender perennial.

- 'Ballerina Rose'** Striking, colorful pink flowers hover over dark-leaved plants; complimenting them nicely. Mounded, 12-18"H
- 'Belleza Compact Light Pink'** Excellent branching with green leaves and short flower stems. Flowers range from an almost white/blush white to a soft-medium pink. Mounding 12-18"H
- 'Passionate Blush'** So much interest provided by this plant, its new growth is burgundy colored and eye-catching flowers are deep pink appearing from ruby colored buds. Blooms are long-lasting. Compact, 18"H
- 'Siskiyou Pink'** Brilliant rosy-pink flowers with white stamens. 18-30"H
- 'Snow Fountain'** Masses of blush-pink buds open to pure white leaving traces of soft pink intermingling thru-out. Heavily branched plant. 2-3'H
- 'Whirling Butterflies'** Floriferous with bright white flowers. 18-36"H

# GAZANIA

6 Packs (Unless Noted)

S. ♂BW. These are desert plants, doing best in full sun, dry soil, and hot locations. Makes a nice edging. Showy daisy-like blooms open in sun and close in shade. Dead-head regularly. In winter these can be kept in a cool room w/a southern exposure.

-**'Big Kiss' Series** Huge, 4½" wide flowers can be striped or solid. Flowers all summer on full, bushy plants that fill in fast. 8-10"H

Colors include:      Mix (all colors plus white)      Orange  
                                 Red (rich burnt orangy-red)      Yellow  
                                 White Flame (creamy white w/pink stripes)  
                                 Yellow Flame (yellow w/mahogany stripes) 4 Packs

-**'Gazoo'** Show-stopping extra large, 3" flowers. Bright oranges, reds, and yellows with either clear or ringed blooms. Strong vigor in the ground. 10"H

Colors include:      Mixture      Red with Ring

-**'Kiss' Series** Large flowers on short, sturdy stems, with dark green foliage. Frosty varieties have silvery foliage. Mounded and uniform habit. 8-10"H

Colors include:      Frosty Red      Rose

# GERANIUM

4½" Pots

S, 1/2S. BWH. Nothing says 'Welcome Home' more than a clay pot filled with Geraniums at your door step. Well-drained, moderately rich soil for best bloom. Tolerates dry, hot conditions. Apply Osmocote monthly or fertilize weekly in the spring and summer for best results. Protect from wind. To avoid fungus problems, keep foliage and flowers dry. Can be overwintered in a sunny window.

**-Interspecific Geraniums** Breeding technologies have combined the best qualities of an Ivy with a Zonal. Large flowers are produced continuously all season long. Their mounding habit makes them suitable for most applications. Superior garden performance & heat tolerance over the traditional zonal type geraniums.

**-'Calliope Large' Series** Exceptional branching and excellent performance has garnered numerous awards for this series-they positively thrive during heat and drought conditions. Vigorous 14-16"H, 20-24"W.

Colors include:      *NEW!* Coral                      Dark Red              Hot Rose  
                                 *NEW!* Orange Splash                      Pink                      Red  
                                 *NEW!* Rose Mega Splash                      Salmon                      Scarlet Fire

**-'Calliope Medium' Series** Intense, semi-double flowers. Controlled habit is slightly less vigorous than the large group. 16-20"H, 14-16"W.

Colors include:      Pink Flame                      Red                      White

*NEW!*-**'Big EEZE' Series** Unmatched massive flower clusters weeks earlier than other leading interspecific series' do. Uniform branching at the base w/more traditional "zonal" look. Semi-vigorous 12-18"H & W

Colors include:      Foxy Flamingo                      Fuchsia Blue  
                                 Neon                      Watermelon

**-Novelty Geraniums** Showy leaves or flowers. Interesting accents.

**-'Platinum'** Grey green scalloped leaves have a narrow white edge and single, salmon-pink flowers. Oddly angular, spreading habit. 12-18"H

**-Ivy Geraniums** Great in hanging baskets, containers, and window boxes.

Good green foliage and profuse double or single blooms.

*NEW!*-**'Ivy League' Series** Exceptional heat tolerance with strong branching, making for FULL hanging baskets. 12-14"H, 20-24"W

Colors include:      Arctic Red                      Deep Pink  
                                 Hot Coral                      Light Lavender                      Orchid  
                                 Red                      Salmon                      White

*NEW!*-**'Blizzard Red'** Strong plant vigor with unbeatable branching and outstanding single-flowers. 12-14"H, 20-24"W

## IVY GERANIUM, Continued

-**'Cascade' Series** Traditional, single-flowered ivy geraniums with extreme heat tolerance all season. Vigorous, 12-14"H, 20-24"W

Colors include: *NEW!* Appleblossom  
Lila-Compact (Lavender-pink)  
Sofie (Rose-pink)

-**Regal Geraniums** (Martha Washington Geraniums) Unusual, showy, semi-double geraniums. Regals have eye-catching color patterns and make nice gifts. Use as a houseplant or for accent plants.

-**'Elegance' Series** Flowers early and into the summer. Self-branching, upright. 10-14"H

Colors include: Crystal Rose (Blush white with maroon center)  
Light Lavender Splash  
Purple Majesty (Deep purple with lilac)  
Red Velvet  
Royalty White (Pure white w/ pink center)  
*NEW!* Sunrise (Salmon-pink w/ hints of red & white)

-**Scented Geraniums** Most scented geraniums bear small clusters of single flowers. All varieties have leaves that are scented and the fragrance is typically reflected in their name. Upright growing types are usually quite vigorous and benefit from frequent pinching to keep them bushy.

**Scents include:** 'Angel's Perfume' (Citrus) Apricot  
'Attar of Roses' Citronella  
Lady Plymouth (Mint rose) Lemon  
Peppermint  
Orange (Large, single, light lilac blooms)  
Variegated Nutmeg

-**Zonal Geraniums** Brightly colored blooms on compact, floriferous plants. Leaves typically feature a band or "zone" of darker color, hence the name. Your classic Geraniums.

-**'Americana' Series** Boldly colored, large flower heads. 14-16"H & W

Colors include: Cherry Rose Coral  
Dark Red Dark Salmon Light Pink Splash  
Pink Salmon White Splash White

-**'Rocky Mountain Orange'** Strong, vigorous plants with outstanding garden performance. Their value is best utilized in bedding displays, give extra room planting every 18"; as opposed to the typical 12".

## GERBERA (Transvaal Daisy)

4½" Pots

S. BCW. Solitary, daisy-like flowers oozing with cheerfulness. They prefer rich, moist, well-drained soil. Heavy feeders! Pot one into a decorative pot for an excellent gift idea.

-**'Revolution Mega Select Mix'** Bushy plants are vigorous and perform well in large containers. Extremely large, brightly colored flowers, mostly having dark eyes. 12-16"H.

-**'Sundayz Maxi Mix'** Compact, sturdy plants designed specifically for use in containers. Lovely, 3-4" double flowers are long-lasting and slow to age. Lots of colors to choose from, some with dark eyes and some with light.

## GERMAN IVY

4 Packs & 3" Pots

S, 1/2S. BW. Lush, dark green, 2-3" ivy shaped leaves are fragrant when bruised. These plants LOVE to cascade- from planters, down window boxes, and below hanging containers. They provide an excellent backdrop for colorful annuals and are more heat tolerant than english ivies. Give consistent moisture for best results. Vigorous, trailing 4' or more! Makes a good houseplant as well.

## GOMPHRENA (Globe Amaranth)

6 Packs

S. ABCD. Upright spikes of clover-like flower heads provide interest to dried flower arrangements and crafts. Average soil that is well-drained is ideal, will tolerate dry soil when established, but needs water during extended dry periods.

-**'Qis' Series** Qis stands for "quality in seed". Large, 1½-2" ball-shaped flowers of lilac, pink, purple, rose, and white from summer until frost. Strong, well branched stems. 20-24"H

Colors include:

Mix

Purple

# GRASSES, ORNAMENTAL

4½" Pots (Unless Noted)

S. BDW. Unusual colored foliage along with different textures add pizzazz to any arrangement. Good alternatives for that added height instead of the ubiquitous *Dracaena* or "spike".

**NEW!**-*Cyperus 'Baby Tut'* (Dwarf Egyptian Papyrus) Upright stems hold wispy leaves resembling umbrellas giving this plant an exotic look. Vigorous and loves wet conditions. Great for containers without drainage, water gardens or the border of a pond. EASY! Can also be brought indoors as a house plant. Tolerates part sun. Most compact cyperus we've seen at 1½-2'H & W

☹-*Pennisetum' Celebration Fireworks'* Strongly variegated burgundy, green, and hot pink foliage is full of flair! Color will intensify as summer progresses. Soft pink plumes arch up above the leaves. Provides interest well into fall. 2-3'H

-*Festuca glauca Select'* Blue Fescue. Attractive, symmetrical clumps of icy blue grass-like foliage. Perfect for using in mixed containers the whole season long. Hardy enough to be planted in the ground later on. 10"H **3" Pots & 4 Packs**

# HELICHRYSUM (Licorice Plant)

3" Pots (Unless Noted)

S. ☹BW. Attractive filler in borders and containers, the soft colors and oval leaves provide a wonderful neutral accent. Poor to avg., well-drained soil. Keep moist.

-*'Icicles'* Upright mound of silver foliage, slender needle-shaped leaves. Great as a stand-alone in a unique planter. 12"H **Choice 4 Pks Also**

-*'Licorice' Series* Licorice-scented leaves. Excellent semi-trailing/trailing habit.

-*'Lemon'* Bright, lime colored foliage. Slightly less vigor. 8-12"H, 24-30"W

-*'Mini Licorice'* (*Plecostachys*) Petite, pale bluish green leaves. 8-12"H, 12-20"W **Choice 4 Pks Also**

-*'Splash'* Variegated green and lime foliage. Vigorous grower! 12"H, 24-30"W

-*'White'* Silver-white felted leaves. Vigorous grower! 12"H, 24-30"W

# IMPATIENS, Continued

## New Guinea Impatiens-4½" Pots

A good substitute for Geraniums if you have fungal problems on your blooms. New Guineas love fog and rain AND they tolerate more sun than regular Impatiens!

-**'Magnum' Series** Enormous flowers that will not fade during high temperatures. Strong performer with superior branching. 8-10"H

Colors include:	Clear Pink	Clear White	Fire
	Hot Pink	Lavender	Pink
	Red	Red Flame	Salmon
			White Blush

## Sun-Loving Varieties-4½" Pots

-**'Sunpatiens Compact' Series** An outstanding new and award-winning addition to the garden. Providing easy, continuous color all season in either the sun or part shade, they thrive in high heat and humidity. Avoid excessive fertilizer which would lead to less flowers. 14-32"H, 14-24"W. Can reach 3 feet tall when grown in the landscape.

Colors include:	Deep Rose	Fire Red	Orange
	<i>NEW!</i> Orchid Blush	Pink	
	Royal Magenta	White	

# IPOMOEA (Sweet Potato Vine)

## 3" Pots

S, 1/2S. BC. Used as an attractive foliage filler for pots and window boxes, most varieties having rounded or heart-shaped leaves. Very versatile. Average, well-drained, evenly moist soil is ideal.

### -*batatas* varieties

-**'Blackie'** Lobed, near-black foliage. 8-10"H

-**'Bright Ideas Black'** Traditional lobed-leaf shape in luxurious deep burgundy. Durable and heat tolerant with controlled vigor. Semi-trailing, 8-12"H, 18-24"W

-**'Margarita'** Bright chartreuse, fan-shaped foliage. 10-12"H, 18-24"W

-**'Sweet Caroline' Series** Good vigor yet will not overgrow other plants when interplanted. Sweetheart varieties have heart shaped leaves. Bewitched varieties are more upright and more compact with a serrated margin. Dense and semi-mounded, 6-8"H when containerized, 18-24"H in the landscape.

Colors include:	Bewitched Green with Envy	Light Green
-----------------	---------------------------	-------------

-*indica* Morning Glory Vine. Tropical vine w/stunning, 4" blue trumpet shaped flowers. May be kept as a houseplant in winter. Climbing & trailing 8-10'H

# ISOTOMA (Laurentia)

6 Packs

S. BW. A charming addition from the Bellflower family, this warm-weather annual has finely cut fern-like leaves and thin flattened tubular flowers from early summer until fall. Average, well-drained soil is best.

-**'Tristar' Series** Abundant star shaped flowers above lovely mounds of cushiony green, finely cut foliage. Flowers continuously throughout the summer. 8"H

Colors include:      Deep Blue                      Sky Blue

# KALE

6 Packs

S, 1/2S. BW. Have a partially shaded planter lacking that interesting vertical eye-catcher? This smoothie-making edible power-house also makes a wonderful decorative accent when used in containers. Some can get quite tall and would shine as a central element. See our listing on page 78 under vegetables for the varieties we will be offering this season.

# LANTANA

3" Pots (Unless Noted)

S.   BW. Characterized by domed clusters of bright flowers that are attractive to both hummingbirds and butterflies. These plants thrive in hot weather and bloom profusely from spring until frost. Poor to average, well-drained soil. Fertilize often and dead-head spent blooms for best results.

-**'Bloomify' Series** The first Lantana series on the market to have certified, completely sterile flowers! Blooms are produced continuously without dead-heading! Ball-shaped, mounded habit. 12-20"H & 12-18"W

Colors include:      Red                                      Rose

-**'Lavender Weeping'** Clusters of 1" wide, warm lilac flowers on trailing stems.  
**4½" Pots Limited Quantities**

-**'Lucky Lavender'** Beautiful blush white and pink clusters with pale lemon colored florets towards the center. Plants have excellent branching and withstand stressful conditions with ease. 12-16"H, 12-14"W

## LARKSPUR (Annual Delphinium)

6 Packs

S, 1/2S. BCD. Showy blooms for great color. Fertile, well-drained soil. Excellent cut flowers are also attractive to hummingbirds. Deadheading will prolong the bloom time, but will self-sow if flowers are allowed to set seeds.

-**'Sublime Mix'** Exceptional mix of colors is an improved strain of the Imperial series that is recognized worldwide as the best series for drying, as well as a wonderful choice for cutting. A wide range of nine colors are in this assortment. 3-4'H

## LAVATERA (Tree Mallow)

6 Packs

S. BC. Delicate Hibiscus-like blooms all season. Bushy habit is useful for hedges or as an accent plant in the border. Ordinary, well-drained soil. Planting in a soil that is too rich will yield few flowers.

-**'Mont Blanc'** Large, 4" pure white flowers have a lovely sheen. 24"H

-**'Twins Hot Pink'** A dwarf that is satiny with fully rounded, 4" flowers. Disease tolerant. Excellent cut flowers. CHOICE! 20"H

## LISIANTHUS (Eustoma)

4 Packs

S. BC. Elegant, chalice-shaped flowers with fleshy gray-green leaves. Best results will be achieved when planted in the ground rather than a container. Rich, well-drained soil. Likes lime. A must for the cutting garden! Will continue to produce flowers after first cuttings are taken.

-**'Mariachi' Series** Ultra-double, 3-3½" flowers. Great cut flower. 20-36"H

Colors include:      Blue                              Carmine                              Lavender  
   Misty Pink                              Pure White

-**'Rosita 2' Series** Strong stems and thick leaves, mid-sized rose shape blooms are long-lasting for cutting. 30-36"H

Colors include:      Blue Picotee                              Purple

**NEW!**-**'Voyage 2' Series** Gorgeous double flowers that are abundantly filled with lightly fringed petals and unique, globular buds. These sturdy-stemmed blooms offer the traditional long vase life after cutting. 24-36"H

Colors include:      Deep Rose                              Light Apricot                              White

# MANDEVILLA/DIPLADENIA

6" Pot with Trellis

S. W. Large, morning glory-like blossoms on a twining vine with glossy, dark green leaves. Avg. to rich soil that is moist but well-drained. Blooms all summer and into the winter, where it makes a fine houseplant for a hot sunny window. In season, allow to dry slightly between watering and feed every two weeks with a liquid bloom booster; or apply Osmocote. Goes dormant in winter with some leaf drop. Keep much drier in fall and winter until new growth starts in spring. Loves it hot!!!

-**'Pink Parfait'** RARE! Large, dark green leaves. Rich pink, double flowers.

Hose-in-hose blooms have a wonderfully fruity scent!

-**'Sun Parasol' Series** Gorgeous blooms, glossy, green foliage. Natural climbers.

**'Apricot'** PHENOMENAL, giant 3-5" creamy golden peach blooms. A refreshing diversion from the norm. Vigorous habit & excellent branching.

**Giant Group:** Vigorous 3-5" flowers- later than orig. group. Lg., coarse leaves.

Colors include:      Crimson                      Pink

**Original Group:** Compact growth, 2-3" flowers early, small rounded leaves.

Colors include:      Dark Red                      Pink                      White

# MARIGOLD

6 Packs

S.   BCW. Not boring anymore! Extremely versatile annual with many flower forms and heights. Blooms all summer. The dwarf varieties stand out in planters and the taller ones make a bold statement in borders (may need staking). A true garden workhorse. Deadhead for better bloom.

-**African Marigolds** Useful in large, formal beds. Big, flattened globe-shaped flwrs.

**NEW!-'Big Top Orange'** Massive 3-4", fully double blooms create an impressive display atop sturdy, multibranched plants. Improved garden performance. 16-20" H & W

-**'Jubilee Diamond'** Weather resistant, 4" lemon yellow blooms on sturdy stems. 18-24" H. An old favorite returns!

-**'Lady First'** An AAS favorite! Lg., bright yellow 3-4" double blooms. 16-18" H

-**'Marvel Gold'** Excellent outdoor performance. Tight, 4" double blooms flower early in the season. 18" H

-**'Sweet Cream Vanilla'** 3" creamy white flower heads. 16" H

## MARIGOLD, Continued

**-French Marigolds** Prolific flowers and compact habits.

**-‘Durango’ Series** Extra large flowers on strong stems. 10-12”H

Colors include: Bolero (Golden yellow w/red tips)  
Flame (Mahogany w/orange edges)  
Red Yellow

**-‘Janie’ Series** Uniform, continuous blooms. Dwarf. 8-10”H

Colors include: Bright Yellow Deep Orange  
Flame Tangerine

**-‘Safari’ Series** Extra large, clear flat blooms. 8-10”H

Colors include: Orange Yellow Yellow Fire

**-Triploid Marigolds** Hybrids of African and French Marigolds. Sterile flowers don’t put energy into forming seeds so they bloom profusely and continuously thru the hot weather.

**-‘Sunburst’ Series** We can no longer source this series and recommend the Zenith series as the next best substitute.

**-‘Zenith’ Series** Huge 3” blooms, some that are carnation-style and some crested types. Fantastic garden performance all summer-long with excellent branching. 12-15”H, 10-12”W

Colors include: *NEW!* Deep Orange *NEW!* Golden Yellow  
Lemon Yellow *NEW!* Red & Gold

**-Signet Marigolds** Compact plants with finely divided, lemon scented, fern-like foliage. Masses of small flowers cover these plants & would make nice baskets.

**-‘Tangerine Gem’** Low, neat mounds of lacy leaves. Petite, dime sized, single orange flowers have a long blooming period and are edible. 12”H

**-‘Lulu’** Charming, single, lemon yellow blooms. 8-12”H

## MATRICARIA (Feverfew)

6 Packs

S.   BCW. syn. *Tanacetum*. Closely related to Chrysanthemums, this plant has finely cut leaves. *Often strong-scented*. Bees and wasps dislike them and will avoid the area, take care not to plant them near other plants where pollination by bees is necessary. Excellent border plant and cut flower. Will self-sow.

**-‘White Wonder’** Double white blooms with yellow centers. 24”H

# MORNING GLORY/MOONFLOWER

6 Packs (Unless Noted)

S, 1/2S. BW. Vines for around the mailbox, for climbing up a trellis or fence, or for hanging from a planter. Will tolerate poor soil but prefers evenly moist conditions.

**A limited number of assorted 6" trellised pots will be available also.**

- 'Blue Star' Large blue flowers with white stars. 8-12'H
- 'Clark's Heavenly Blue' Large, sky blue flowers. Favorite. 8-10'H+. **6" Pots Also**
- 'Crimson Rambler' Crimson red flowers with white centers. 6-8'H
- 'Grandpa Ott' Very old variety. Dark purple with a red star.
- 'Milky Way' Large, white flowers with carmine-rose streaks.
- 'Moonflower White' Magnificent, fragrant blooms open at night. Blooms until first frost. 10-20'H **6"Pots Only**
- 'Pearly Gates' AAS winner. Large, satiny white, daytime flowers. Grows 6-8'H

# MYOSOTIS (Forget-Me-Not)

3" Pots

S, 1/2S.   BW. One of the most beautiful spring plants. Compact, mat forming plants covered with dainty flowers. Biennial. Self-sows freely once established.

Well-drained, moist acidic soil.

- palustris* Bright blue flowers with small yellow eyes bloom from May thru August. Runner type roots that will spread up to 18". Keep soil moist. 6-8"H

# NASTURTIUM

6 Packs (Unless Noted)

S.   BW. Bright colors, climbers and dwarfs. Edible flowers add interest to salads - colorful and tangy, slightly spicy leaves are also edible and high in vitamin C. Soil should not be too moist or rich for best blooms. If nothing grows there, plant Nasturtiums! Keep watered during dry weather. Very easy, fun AND showy! Works just as well when grown in planters and baskets.

## NASTURTIUM, Continued

- 'Gleam' Series** Large, fragrant, single and semi-double flowers. Trailing.  
Colors include: Golden Mix
- 'Jewel Mix'** A rainbow of brilliant yellow, red, orange, pink, chamois, rose and some bicolored double blooms. 12"H
- 'Ladybird'** Dwarf, bushy plants have golden-yellow flowers with eye-catching bright red spots. 8"H
- 'Peach Melba'** Bright, soft, cream-yellow colored blooms with maroon dots. Compact, mounding habit. 10"H
- 'Phoenix'** Abundant blooms in fiery shades of gold, orange and red. Spaces in between the saw toothed petals lend a wonderfully messy appearance to the flowers. Bushy habit. 1'H, 1-1½'W **4 Packs**
- 'Tip Top Alaska' Series** Old fashioned, single, 2½" flowers. Silver variegated leaves. 10-12"H  
Colors include: Gold Mix Scarlet
- 'Whirlybird' Series** Flowers sit open-faced on top of the stems and lack the typical black spur. Mounding habit. 12"H  
Colors include: Cherry Rose Mahogany Red Mix

## NEMESIA

3" Pots

S, 1/2S. ♂BW. Tubular flowers borne on racemes. Starts flowering early and is frost tolerant in the fall! Shear to keep blooming. Useful for softening container plantings, will drape over the sides. Avg.-rich, well-drained soil that remains moist is best. Transplant with care as these plants are brittle. Most have a candy-like fragrance.

**NEW!**-*fruticans* **'Aromance Pink'** Blooming continuously with highly fragrant, soft pink blooms with central yellow eye that do not need dead-heading. Well-branched stems w/ attractive medium green leaves. 10-18"H, 12-18"W

-*hybrida* **'Angelart' Series** Very showy, large fragrant flowers atop an upright, mounding habit. Vigorous. 8-12"H & W.

Colors include: **NEW!**Banana Orange Peach Imp

**NEW!**-*hybrida* **'Esencial Blueberry Custard'** New genetics have introduced this variety w/ its elevated heat tolerance and strong fragrance. Charming bicolor violet & yellow blooms early in the season. 8-12"H & W

-*hybrida* **'Nesia Banana Swirl'** Floriferous plants have large, delicately scented bicolor yellow and pink flowers. Bred for very good heat resistance with a compact/upright habit and excellent branching. 14-16"H

## NICOTIANA (Flowering Tobacco)

6 Packs

S, 1/2S.    . Very fragrant, old-fashioned flowers. Put where you'll enjoy them - along walks, around terraces or at doorsteps. Average soil. Easy. Often self-sowing and will attract moths and hummingbirds. Very popular!

-**'Fragrant Cloud'** Large, beautiful white flowers with a strong fragrance in the evening will attract various species of Sphinx Moths. 3' H

-**'Nicki' Series** Fragrant. Bushy plants. 20"H

Colors include: Lime White

-**'Perfume' Series** Heavily-scented, upward-facing blooms are 2" across and held above the foliage. A lovely choice for cut flowers. 16-20"H

Colors include: Deep Purple Red *NEW!*Rose

-*sylvestris* **'Only the Lonely'** White fragrant flowers all summer. 4½-5'H

## NIGELLA (Love-in-a-Mist)

6 Packs

S, 1/2S.    . Flowers seem to float above the ferny foliage. Interesting, inflated seed pods are good for drying. If seed pods are not desired, deadheading will prolong blooming. Will self-sow if allowed. Average, well-drained soil. Easy! Prefers the cool portion of the season so re-plant every month for continuous blooms.

*NEW!*-**'African Bride'** An award-winning variety for quality with gorgeous pure white petals and contrasting, nearly black seed pods. 34-36"H

-**'Miss Jekyll Blue'** Sky blue flowers. Bushy, 24"H

## OREGANO, ORNAMENTAL

3" Pots

S.    . Excellent textural element for baskets, planters and rock gardens. Delicious fragrance is attractive to pollinators! Makes a lovely potted plant indoors or can be dried to use in arrangements. Plant in full sun and in lean, fast drying soil; drought tolerant once established. Cooler nights will intensify the color variation.

-**'Kirigami'** Incredibly unique and eye-catching! Bright apple-green foliage holds purple-green bracts and rose colored flowers. Dense, mounded-slightly trailing habit that is fuller than the standard ornamental varieties. 8-10"H spreads 12-14"

## ORLAYA (White Lace Flower)

6 Packs

S, 1/2S.  BC. *grandiflora*. (White Finch) Pure white flowers resemble the blooms of lace-cap Hydrangeas. Delicate fern-like foliage. Long blooming, from summer through fall. Long-lasting cut flowers. Rave reviews from our gardener clientele! Take cuttings frequently to keep flower production going. 24"H

## OSTEOSPERMUM

3" Pots

S.  BW. Daisy-like flowers in iridescent colors. Glossy foliage. Blooms best during the cooler periods of the season but would continue to bloom longer if given a site that is protected from the strong mid-day sun. Average to poor soil that is light and well-drained. Feed weekly.

-**'Margarita' Series** Large flowers on well branched plants. Compact, 12-16"H

Colors include: *NEW!* Blue Sunrise      Bronze Bicolor

*NEW!* Bronze Flare      Dark Pink

Orange Flare      Purple

-**'Tradewinds' Series** Excellent branching, compact plants. Exceptional heat tolerance 12-16"H

Colors include: Cinnamon (Creamy white w/peach edge)

*NEW!* Rose

-**'Voltage' Series** This is the longest blooming Osteospermum available on the market, it exhibited very good heat tolerance in grower trials. Mounding/spreading habit. 10-16"H, 24-28"W

Colors include: White      Yellow

## OXALIS

4½" Pots

S, 1/2S. BWH. Grown for their light textured foliage and long blooming flowers. Foliage color may vary depending on light conditions. Mostly mounding habit intermingles well with other plants. Can also be used as a houseplant with great results, shear back stems if they get too long and leggy.

-**'Charmed Wine'** Mix of large, deep burgundy and black triangularly lobed leaves that have dainty lavender-pink or white flowers. 10-14"H

# PANSY & VIOLA

6 Packs

S, 1/2S. BW. These irresistible faces are truly a sign of spring. Choose from our extensive selection. Masses of velvety color for borders, edging, and containers. Moist, fertile soil. Frequent deadheading keeps flowers coming. Will bloom all season if watered, deadheaded, and fertilized properly.

-**Pansies** Large flowers on compact plants. **Assorted 6" pots also and see page 72 in the Hanging Basket section for new 'Cool Wave' Pansies.**

-**'Colossus' Series** Huge, 4" blooms on compact plants. 4-6"H

Colors include: Lavender Medley Neon Violet  
Tricolor White Yellow

-**'Delta Premium' Series** Now available as premium-bred for increased plant health and vigor. Large, 3" upright facing blooms. Some with faces. 4-6"H

Colors include: Deep Blue  
Marina (Blue shades w/ dk blue eye)  
Neon Violet Pure Primrose  
Pure White Pure Yellow

-**'Majestic Giants II Blotch Mix'** Extra large flowers. Uniform habit. 8"H

-**'Mammoth' Series** Vigorous plants with large blooms. 6-8"H

Colors include: *NEW!* Big Red Deep Blue Dazzle  
Glamarama White On Fire (Red/orng & drk eye)  
*NEW!* Pink Berry (Mauve & drk violet eye) *NEW!* Prima Yellorina  
Sangria Punch (Dp rose & yllw w/ dark eye) Viva La Violet

-**'Matrix' Series** Superior branching without stretching. 8"H

Colors include: Amber Mix Blue Blotch

-**'Ultima Morpho'** This AAS winner shows color early and is a striking combination of blue and yellow. 6"H

-**Violas** Masses of small, brightly colored, fragrant flowers cover these plants. **Assorted 6" pots also**

-**'Penny' Series** Uniform habit and flowering. 4-6"H

Colors include: Blue Denim Jump-up Marina  
Marlies Orange Orange Jump-up  
Peach Jump-up Primrose Picotee Purple Picotee Violet  
White Blotch Yellow Blotch Yellow Jump-up

-**'Sorbet' Series** Outstanding temperature tolerance. 6"H

Colors include: Citrus Mix Lemon Chiffon

# PETCHOA

4½" Pots

S, 1/2S. BW. A cross between a petunia and a calibrachoa. The results are flowers that are as abundant as a calibrachoa with the larger size of a petunia. Very tolerant of heat and adverse weather conditions, with no "breaks" between flowerings. Grow the same as you would a petunia.

-**'Supercal Premium Cinnamon'** Large vibrant pumpkin orange blossoms with a dark charcoal eye and lipstick rose edges; overall color fading with age. Non-sticky foliage. Medium vigor, semi-mounding 14-20"H & W.

# PETUNIA

S, 1/2S.   BW. The most popular of all annuals. Some are fragrant, varieties with the strongest fragrance tend to be colors that are darker and more saturated; like purple. Moist, well-drained, acidic, fertile soil. For best results water and fertilize often. Deadhead (the seed grown types) & pinch back for best flowering.

## 4½" Pots- Cutting Grown

-**'Crazytunia' Collection** Novelty petunias that are grouped together by their funky and/or unique colors. Habit, vigor, and flower size will vary.

Varieties include:

**NEW!**-**'Black Mamba'** Velvety black thru out. Mounding, 6-10"H,8-12"W

-**'Blackberry Cheesecake'** Trailing habit, vigorous, large creamy peach, pink, and burgundy flowers. 12-16"

**NEW!**-**'Cherries Jubilee'** Red & white bicolored blooms. Mounding, 6-12"H

-**'Grandiflora Hybrids'** Lg. flowers on mounding plants from early summer-fall.

**NEW!**-**'ColorRush White'** Excellent garden performance shown in trials.

Heat and rain tolerant! Vigorous mounds, 10-12"H, 2-3'W

-**'Potunia' Series** Tight, "bubble-like" habit makes for lush, flower-filled containers all season. Excellent mildew tolerance. Plus varieties are 25% larger. 6-10"H

Colors include:

Plus Pinkalicious

Plus Yellow

Starfish (White w/lilac star & dk eye)

-**'Ray White'** Incredible garden performance. Self-cleaning! Very large, attractive white flowers. Compact habit, 8-12"H

-**'Starlet Blue'** Good choice for small pots and mixed plantings, rich, deep blue flowers very early. Very good heat tolerance. Mounding/trailing. 6-10"H, 12-20"W

## PETUNIA- 4<sup>1</sup>/<sub>2</sub>" Pots, Continued

***NEW!***-**'Veranda Compact Double'** Series Beautiful, fully double, ruffled blooms that present themselves around the outside of the plant instead of tucked inside hidden. 6-12"H, 18-24"W

Colors include: Lavender Sugar Plum

**-Landscape and Spreading Hybrids** Excellent for bedding, to fill in spaces in the border, in window boxes, or containers. No deadheading required!

**-'Double Wave' Series** Same high performance and versatility as in the Wave series, except with vibrant fully double flowers. 6-8"H, 18-24"W

Colors include: Blue Velvet Pink White

**-'Supertunia' Series** A longtime favorite of growers and home gardeners. The large flowers have an irresistible fragrance, self-cleaning habit, and continuous bloom. 6-12"H, 1-2'W.

Colors include: Bermuda Beach (Slmn) Honey (Goldn yllw)  
Royal Magenta Royal Velvet

**-'Surfinia' Series** Vigorous, trailing plants can spread up to 8'W. Self-cleaning and more tolerant of wind and rain than other petunias. 5-7"H

Colors include: Heavenly Blue Rose Vein

**-Multiflora Hybrids** Smaller flowers are more prolific than the grandiflora types and have a better tolerance to the elements. Strong stems with a slightly more compact habit as well.

**-'Surprise' Series** Large flowers atop lush, vigorous plants. Spreading/trailing growth. 8-12"H

Colors include: Blue Sky Yellow

**-'Sweetunia' Series** Unique blooms stand out from the crowd and begin early on. Upright-semi trailing habit with medium vigor. 8-12"H

Colors include:

Fiona Flash- Scarlet red with crimson highlights, black eye

Johnny Flame- Neon purple edging with deep purple center

Purple Spotlight- Thick white edge with deep aubergine center

Suzie Storm- Crimson edging with deep burgundy center

# PETUNIA, Continued

## 4 Packs- Seed Grown

**-Landscape and Spreading Hybrids** Excellent for bedding, to fill in spaces in the border, in window boxes, or containers. No deadheading required!

**-'Easy Wave' Series** Compact, spreading habit. Flowers are 2-3". 6-12"H, spreads up to 3'W.

Colors include: Blue

*NEW!* Lavender Sky Blue

Rosy Dawn (Coral/wht eye)

White

Yellow

**-'Evening Scentsation'** 2017 AAS winner! As its name states the fragrance exuding from this petunia is sensational, especially at night. Blooms of a seldom seen lavender-blue are 2½". Mounding/spreading habit. 5-8"H, 30-36"W

**-'Opera Supreme' Series** Robust plants produce copious amounts of blooms covering the whole length of the stem. 12-15"H. Vigorous plants create carpets in the landscape, covering up to 12-15 square feet!

Colors include: Blue Pink Morn Purple

Raspberry Ice White

**-'Ramblin' Series** Free flowering, more compact than other spreading types. 8-10"H, 2½'W

Colors include: Neon Rose Nu Blue Peach Glo

Red White

**-'Shock Wave Denim'** Vibrant, 1½-2" wide flowers are the earliest among the Wave series to bloom. Floriferous and self-cleaning with a manageable habit. Plants are quick to recover after rain. 7-10"H, spreads 2½-3'W

**-'Wave' Series** Ground hugging, spreading plants. Flowers are 2-2½". Very popular! 5-7"H, spreads up to 4'W!

Colors include: Lavender

Misty Lilac

Pink

Purple, Classic

# POPPY

6 Packs (Unless Noted)

S.   BC. Dainty blooms all summer are perfect for bees that just love romping around inside gathering pollen. Sear stems after cutting for longer vase life. Light, well-drained, moderately rich soil. Loves our cool climate and is resistant to deer browsing. Some may need staking and most can be spaced 10" apart.

- nudicaule* **'Wonderland' Mix** Iceland Poppy. Very popular 4" wide, single poppies May-June, or longer if conditions are cooler. Tough, wind resistant strain that is short-lived but will self-sow. 10"H. **4-pack**
- 'Cherry Glow'** Heirloom selection with stunning ruby red, tulip-shaped petals accented by a bright white interior. Classic silvery gray lettuce-leaf foliage. 2-3'H
- 'Frosted Salmon'** Lush, salmony-pink peony type blooms seem straight out of a still life painting with their gorgeous ruffled texture. 2-3'H
- 'Heirloom Mix'** An interesting mix of gorgeous colors & shapes. Hues of lavender, black raspberry, cherry & dark claret; all w/a dark blotch at the petal base. 2-3'H
- 'Hungarian Blue'** Lovely, lavender-violet heirloom variety that is extra vigorous w/healthy foliage and strong stems! Large seed pods filled w/blue-black seeds.
- 'Peony Mix'** Fully ruffled 4" blooms in purple, pink, scarlet, white & yellow. 2-3'H
- 'Lauren's Grape'** Show stopping violet blooms with dark centers. 2-3'H
- 'Shirley Double Mix'** All double, brightly colored blooms. 2½-3'H
- 'Sissinghurst White'** A variety maybe once gracing the famous white garden?! Elegant, finely pleated pure bridal white petals. Blue/grn lettuce-like lvs. 2-3'H

# PORTULACA (Moss Rose)

6 Packs

S. BW. Low-spreading sun lovers. Flowers will only open in sunny weather, deadhead to promote blooming. Thrives in sandy soil. Tough, drought tolerant plants can be used in sites where few other annuals will grow. Useful for edging along rock gardens or walls, or in containers.

-**'Sundial' Series** Huge, double flowers on compact plants. Very showy with vivid colors. Early and long-lasting. Low, 6" high, spreading to 15" wide.

Colors include:      Fuchsia                      Mango                      Peach

-**'Tequila' Series** Tolerates cool, wet conditions better than other portulacas. Spreading habit. 8"H x 14-18"W

Colors include:      Mix                              Peppermint  
                            White                              Yellow

# RUDBECKIA

6 Packs (Unless Noted)

S.   BC. Huge daisies in a variety of rich, warm colors. In the right conditions, some may come up again in future years. Most are *R. hirta* hybrids. Average loamy soil. It's not summer without these beauties. Flowers all summer until frost!

- '**Autumn Colors**' Shades of reds, yellows, and bronzes with flowers up to 5" in diameter! 20-24"H

**NEW!**- '**Rising Sun Chestnut Gold**' Outrageous 5-6" bicolored blossoms have a wide outer band of rich gold complemented by an inner swath of chestnut brown and a brown eye. The lack of daylength requirements mean this traditional fall bloomer will begin its show in the spring! It'll be hard to walk by this one without saying "WOW". 18-24"H **1 Gal. Pot**

- '**Cappuccino**' Rust-colored, 4" flowers with yellow edges. 18-20"H

- '**Cherokee Sunset**' Double and semi-double 4" flowers. A blend of sunset colors - golden yellow, orange, bronze, and mahogany. 24-30"H

- '**Denver Daisy**' Large, 6-8" abundant golden flowers draw attention with distinct rings around their dark eyes. 22-26"H

- '**Goldilocks**' Beautiful 3-4" bright golden-orange, daisy-like flowers that are mostly double; some are semi-double. 24-28"H

- '**Indian Summer**' Bronze petals, red rings, and rusty red centers make an attractive contrast. 5" flowers. 36"H

- '**Marmalade**' Large, golden yellow daisies with dark eyes. 18"H

- '**Prairie Sun**' Very large flowers with yellow tips on golden petals and green centers. 28-32"H

- '**Sahara**' Irresistable new addition! Chocolate centered blooms in muted shades of caramel, antique rose, and sienna. 18-24"H

- '**Sonora**' 6" sunflower-like blooms with brown centers. 1-2'H

# SALPIGLOSSIS (Painted-tongue)

6 Packs

S. BC. Petunia-like, exotic blossoms with many contrasting veins or sometimes stripes; each one a velvety work of art on its own. Excellent as cut flowers and in mixed or container plantings. Transplant with care in fertile, evenly moist, well-drained soil. Protect from strong winds and give partial shade during the hot summer season for a longer blooming period. Weaker stems may demand staking.

- *grandiflora* '**Finest Mixture**' Beautiful, rich colors. 36"H

# SALVIA (Sage)

4 & 6 Packs, 3" Pots (As Noted)

S.   BCW. Bright flowers on showy spikes. Red salvia is popular for patriotic red, white, and blue schemes. The blue salvias are often used in large bedding displays to tie in and soften other colors. Fertile, well-drained soil. Pinch to promote bushiness. Deadhead regularly.

-*coccinea* '**Summer Jewel**' Series Early, profuse blooms continuously through the season. Dark, finer textured leaves add interest. 18"H **6 Packs**

Colors include: Pink Red

-*farinacea* **varieties** Blue Salvia - even though it comes in other colors. Typically blue flowers on long graceful stems.

-'**Cathedral**' Series Full, well-branched plants with richly colored flowers. 18-24"H **3" Pots**

Colors include: Deep Blue Sky Blue  
Shining Sea (Bicolor blue & white)

-'**Evolution**' Deep violet flowers on long, dense spikes. Well-branched habit. 18"H **6 Packs**

-'**Fairy Queen**' Well-branched plants are long-blooming. Densely filled spikes of sapphire blue flowers are brushed with white. 18"H **6 Packs**

-'**Mystic Spires Blue Imp.**' Extended outdoor performance makes for true blue flowers all season-plants still look beautiful at the end of sept.! A new growth pattern also hides the dead foliage underneath. 2-2½'H **3" Pots**

-'**Rhea Blue**' Compact, even habit. 18"H **6 Packs**

-'**Victoria Blue**' Extremely uniform spikes of color above green, shiny foliage. 18-22"H **6 Packs**

-*hyb.* '**Rockin**' Series IMPRESSIVE richly colored blooms on trouble free plants! Sterile genetics mean constant blooms all season. 2-4'H, 2-2½'W. **3" Pots**

Colors include: *NEW!* Blue Suede Shoes (Blue w/black) 4½" Also  
Deep Purple Playin The Blues

-*x. longispicata* '**Big Blue**' Clear blue spikes cause a frenzy among pollinators. No dead-heading necessary! Vigorous and low maintenance. 2-3'H, 18"W **4 Packs**

-*x. longispicata* '**Mysty**' Everything we've come to love about Mystic Spires with slightly less vigor- great for mixed plantings. 12-18"H &W **3" Pots**

-*patens* **varieties** Gentian Sage. Loose racemes of 2" long, deep blue flowers.

-'**Patio**' Series Compact plants with soft, green foliage. 12"H **4 Packs**

Colors include: Deep Blue Sky Blue

-*splendens* '**Sizzler Red**' Scarlet Sage. Bright spikes. Compact plants, 10-12"H **6 Pks**

## SANVITALIA (Creeping Zinnia)

6 Packs

S, 1/2S.   BW. Abundant, small, zinnia-like blooms cover this spreader until frost. Great in rock gardens, containers, or as an edging plant. Soil that is average to rich and well-drained is preferred but plants will tolerate dry and sandy soil. Little fertilizer is required.

- 'Mandarin Orange' AAS winner. This versatile variety has outstanding, 1" double orange flowers that with their dark center look like miniature sunflowers. 6"H
- 'Million Suns' Prolific blooms of golden yellow daisies. Well-branched, mounded habit. 10"H

## SCAEVOLA (Fan Flower)

3" Pots

S, 1/2S.   BW. Spectacular fan-shaped flowers all summer! Great for attracting butterflies. Excellent, tough, showy plants for those who want something new and easy. Keep moist but be careful not to over water or over fertilize. A diluted solution of iron phosphate will deepen their color. Easy! No dead-heading necessary! Seashore native and deer tolerant.

- 'Diamond' Bicolor blooms are lavender and white. 15"H
- 'Scalora' Series Virtually impervious to the summer heat! Durable, vigorous and well-branched. 8-14"H, trailing 12-24"W

Colors include:

'Glitzy' UNIQUE, lavender and white with lemony yellow eye.

'Suntastic Yellow' Two-toned yellow and white with a darker lemon-yellow throat.

'Topaz Pink' Medium baby pink

- 'Scampi' Series Compact, tidy habit is suitable for mixed containers as well as landscape plantings. Mounded. 6-10"H, 12-18"W

Colors include: Blue Pink

*NEW!* White

- 'Whirlwind Blue' Attractive deep green, cascading foliage with delicate 1" flowers that are almost constantly blooming. 8-12"H

# SENECIO

4½" Pots

S, 1/2S.  BHW. This diverse genus belonging to the aster family is most often grown for a dramatic contrast with their foliage and not for their flowers. Fast growing and drought tolerant plants that can be treated as an annual or house-plant in our area. If bringing indoors keep in a bright, cool (45° min.) room and let dry between waterings during winter dormancy. Well-drained soil, water regularly until established; do not overwater. Feed lightly to avoid plant becoming leggy. Pinch to keep growth more bushy.

-*candicans* '**Angel Wings**' Sensational broad, silky leaves of matte silvery/white beckon like a warm blanket. Their distinctive coloring, texture, and large size will attract attention wherever they're planted! Good choice for coastal gardens. 10-16"H & W

# SNAPDRAGON

6 Packs

S.  BC. Long time favorites for the garden. Great colors! Plant en masse for a spectacular display. Blooming starts at the base of the spikes and moves upwards. Deadhead for repeated bloom. Very fertile, well-drained soil.

-**'Liberty' Series** Very early flowering with large, graceful spikes. 24-28"H

Colors include:	Crimson	Lavender	Mix
	Rose Pink	White	Yellow

-**'Madame Butterfly Mix'** Bright, azalea-like, double blooms. 24"H

-**'Rocket' Series** Long flower spikes. Heat resistant. 30-40"H Excellent cut flower!

Colors include:	Cherry	Lemon	Red
	Rose Shades	White	

-**'Twinnny' Series** First double flowering series with a low habit, basal branching keeps the plants looking full. Exceptional weather tolerance to both hot and wet summer growing conditions. Performs well in mixed containers and in the landscape. 12"H

Colors include:	Appleblossom	Mix	Peach
	Rose	Violet	White
	Yellow Shades		

## STATICE

6 Packs

S. 🦋BCD. A favorite cut flower, wonderful for drying - keeps its color well and resists shattering after processing. Harvest flowers when they are fully open and hang upside down to dry. Good for beginners. Average soil.

-'**Seeker Mix**' More uniform with a better color range than it's predecessor, Pacific Mix. Strong stems produce 1½-3" flower heads in a very satisfying array of colors including blue, pastel blue, purple, white, rose shades, and light yellow. 24-30"H

## STOCK (Gilliflower)

6 Packs

S, 1/2S. BC. Deliciously scented racemes of flowers over soft blue-gray foliage. Looks great mixed in the perennial border or a seaside planting. They come into their prime in September. Stocks are a member of the Brassica family so it's best to not plant them in the same place year after year. Rich, moist, well-drained soil.

-'**Mime Purple**' Strong stems showcase at least 55% double florets. Abundant deep purple blooms with slight shades of color variation add to the "wow-factor" in the cutting garden. Upright, green-leafed plants. 15-18"H, 6"W

-'**Vintage**' Mix Double & single blooms. Frost & heat tolerant. 18-22"H

## STRAWFLOWER

6 Packs

S. 🦋BCD. Old fashioned favorite. Attracts butterflies. For dried flowers, cut stems before the blooms are fully open and hang to dry. May require staking. Average to dry, well-drained soil. Tolerates low fertility.

***NEW!*** -'**Monstrosum Mix**' Lovely rainbow mixture of double, 2-2½" white, orange, yellow, red and pink shaded blooms. 30-40"H

# SUNFLOWER

4 Packs (Unless Noted)

S, 1/2S. 🐇🐕BC. These cheerful and familiar flowers twist to follow the sun. Attractive to seed-eating birds. Sturdy, yet should be planted on its own or at the back of the border as their roots give off a chemical that inhibits the growth of some plants. Well-drained soil. Also, check out our nice selections in the seed rack.

**NEW!-'Fantasia Blend'** This pollen-free mix contains 4-8" double and semi-double blooms, selected from the whole spectrum-white to darkest red. 4-5'H

**NEW!-'Musicbox Mix'** Well-branched plants with colorful 4-5" flowers, ranging from deep mahogany-reds to creamy yellows. Pure and bicolor shades. 28"H

**-'Sunfinity'** This innovative new variety is vigorous and branching-producing many large, bright yellow flowers for 9-12 weeks!! Stronger tolerance to mildew than traditional sunflowers. In the garden it can get 3-4' high and 2-3' wide if adequate amounts of water are given. **8" Pots**

# SWEET PEA (Lathyrus)

6 Packs

S. 🐇BC. These climbing vines bear clusters of fragrant flowers all season. Wonderful cut flowers. Keep blooms picked for best production. Mulch to keep roots cool. Side dress with 10-10-10 or Osmocote. Rich, deep, moist soil.

**-'Mammoth' Series** Lrg flwrs w/long stems. Early flowering & heat resistant. 5-6'H  
Colors include:      Deep Rose              Lavender      Mid Blue      Mix  
                         Navy Blue      Slmn Cream-Pink      Scarlet      White

**-'Old Spice Mix'** Highly fragrant 1" blooms smell like orange blossoms. 5-6'H

# THUNBERGIA (Black-eyed Susan Vine)

4½" Pot

S, 1/2S. 🐇W. This graceful, old-fashioned twining plant has nearly triangular leaves and trumpet shaped flowers with flattened faces. Rich, evenly moist, well-drained soil. Protect from the wind. Blooms continuously ALL summer long. Fast growing!

**-'Arizona Lemon Sunrise'** Pale lemon yllw w/white edges. Dark black eye. 5-7'H

**NEW!-'Arizona Pink Beauty'** Large, soft blush-pink blooms have a deep, dark central eye and petals that are intermittently brushed with white. 40-80"H

**NEW!-'Arizona Terracotta'** Vigorous with unique lovely blooms that are a pale warm lemon shade blushed w/apricot and a dark burgundy center. 40-80"H

## THUNBERGIA, Continued

- '**Lemon**' (Formerly 'Lemon Star') Lemony-yellow with dark almost black eyes.
- '**Sunny Susy Red Orange**' Burnt red-orange centers fading to golden orange towards the tips.
- '**Sunny Susy Rose Sensation**' Breakthrough new color! Lovely shades of deep rose blooms with dark black eyes. 5-8'H
- '**Tangerine Slice A-PEEL**' New unique coloration! Rusty orange, pinwheel-looking blooms with tangerine stripes and dark almost black eyes. 6-8'H

## TITHONIA (Mexican Sunflower)

6 Packs

S. 🌱🐛BC. Daisy-like blooms which attract butterflies and make excellent long-lasting cut flowers. Fast growing and drought tolerant, they seem to ENJOY the extreme summer temperatures! Doesn't prefer soil that is too rich or moist. Blooms start in the summer extending through fall, deadhead regularly.

- '**Fiesta del Sol**' AAS winner. Intense, 2-3" dark orange blooms. Heat, wind, and pest resistant. Compact, cutting variety. 2-3'H
- '**Goldfinger**' Compact, upright habit. Vivid burnt orange-scarlet flowers are almost 3½" across and blooming all summer long. 24"H
- '**Torch (Red)**' AAS winner. Brilliant 3½-5" orange-scarlet blooms. Strong branching habit. Can become much larger with more thorough waterings. 40"H
- '**Torch Yellow**' The first yellow flowering Tithonia, 3" flowers have a central orange disc surrounded by golden yellow petals. 4-6'H

## TORENIA (Wishbone Flower)

4½" Pots

1/2S, Sh. 🌱🐛BC. Foliage and growth habits like impatiens, but with a snapdragon-like flower. Moist, rich soil. Plants that are placed in afternoon shade will tend to have brighter flowers; if placed in too much sun foliage will have a bronzy cast. Feed twice a month in borders, weekly in containers. Hummingbird favorite! Low-maintenance and STUNNING!

- '**Catalina Midnight Blue**' Extra heat tolerant plants! Oversized, deep violet-blue blooms with a central lavender/lemon eye. 6-10"H, 8-10"W

# TRACHYMENE (Blue Lace Flower)

6 Packs

S.  BCW. Formerly *Didiscus*. This little known Australian native has lacy flowers similar to Queen Anne's Lace. Summer blooms appear on curvy delicate stems, which may need light staking. Shelter from wind if possible and dead-head spent flowers for repeat blooming. Full sun to light shade with moist, well-drained, fertile soil. Fertilize monthly until well established.

-*coerulea* 'Madonna Blue' Long-lasting, 3" lavender blue umbels have a light scent and attract beneficial insects. Silver foliage carried upon strong stems proving to be superb cut flowers. Will bloom for roughly 8 weeks. Space 8" apart. 2'H

## VERBENA

S.  BW. Rounded clusters of small, tubular flowers. A workhorse in the garden. Blooms all season long and is attractive to both butterflies and hummingbirds. Average soil that is well-drained and evenly moist. Regular deadheading will encourage repeat blooming. Self sows.

### Choice 4 Packs-Cutting Grown

-'Lanai' Series Great mildew resistance. Flowers are 1-2" wide. Premium varieties are striking novelty colors and patterns. Upright varieties are better for smaller containers with their mounded habit that will not fall open in the middle. 8-12"H, 12-14"W. Most other colors have a strong trailing habit 6-10"H, 20-24"W. Excellent!

Colors include:	Blue	Bright Eye
	Compact Lime Green (semi-mounding. 4-8"H,12"W)	
Deep Purple	Peach	Prem. Candy Cane
	Prem. Twister Burgundy	Royal Prple w/Eye
Red	<b>NEW!</b> Upright Purple Velvet	White

-'Wicked Great Grape' Intense, eye-catching novelty pattern never-before-seen. Massive blooms w/ bisected florets that have cool violet/purple on the inner side and white w/lav. edge on the outer side. Compact, mounding plants. 12-18"H

### 6 Packs-Seed Grown

-*bonariensis* Small, rose-violet blooms carried in 2-4" clusters, excellent as cut flowers. Blooms until frost. 3-4'H

### 3" Pots-Cutting Grown

-*bonariensis* 'Lollipop' Unique dwarf form makes this variety an ideal choice for the front of the border. Excellent flower canopy and shelf life when cut. 2'H

## VERBENA, 3" Pots Continued

-*bonariensis* '**Meteor Shower**' Another impressive dwarf variety that has gained 20+ awards in no time at all. Long-lasting blooms provide an airy streak of color in plantings. Will grow in part sun. Upright. 20-30"H

-'**Empress**' Series This series is very tolerant of cold and heat, their trailing/spreading habit is useful in either bedding or container applications. Charme flower types have a lighter eye for a bicolored effect. Sun types are specifically bred for filling up the landscape with fantastic outdoor performance with reduced time between blooms. All with extra large flowers! 6-12"H, 18-36"W Flair types have a semi-upright, slightly more compact habit.

Colors include:      Flair Cherry              Hot Pink Charme  
                                 Imperial Blue              Lavender              Sun Red

-'**Firehouse Light Pink**' Individual florets with a pure white eye and soft, blush pink outside make for a lovely effect. Bred to have a shorter cycle between blooms for more color! Superior garden performance with excellent powdery mildew resistance Mounded, 8-10"H, 18-22"W

-'**Superbena**' Series Large, 2½" flowers are early to bloom on rounded-trailing plants. Vigorous and mildew resistant. 6-12"H

Colors include:      Dark Blue              Large Lilac Blue  
                                 Royale Chambray (Pale violet-blue)

## VINCA (Annual Periwinkle)

6 Packs

S, 1/2S. BW. *syn. Catharanthus*. Brightly colored five-lobed blooms appear similar to Impatiens. Shiny, dark green, simple leaves. These plants thrive in the heat and humidity, being native to Madagascar. Moist, rich, well-drained soil.

-'**Cooler**' Series Large 1½" flowers have overlapping petals making them extra showy! Shiny dark green foliage and a refined, mounded habit. More tolerant of cool, wet conditions. 10-12"H

Colors include:      Peppermint              Red

**NEW!**-'**Solar**' Series This disease resistant series tolerates cooler weather conditions AND hot/humid conditions. Large, 2" blooms with overlapping petals that make blooms seem even larger. Strong basal branching with a compact habit 10-12" H & W.

Colors include:      Apricot              Orchid w/Eye  
                                                      Raspberry w/Eye

# VINCA VINE

4 Packs & 3" Pots

S, 1/2S. 🐞W. These trailing vines combine well in containers, baskets, and window boxes. Trimming will help keep them looking neat. Primarily grown for their attractive foliage they can be seen sprinkled with pale blue flowers in summer. Average soil and plenty of water, adapts well to most soil types.

**-major varieties** Annual vining types

-**'Variegata'** Near sage colored leaves w/irregular white markings spotted here, there & everywhere. New growth has touches of yellow. Trails 3' plus!

-**'High Color'** Similar to the variegated type except with creamy yellow markings that are more uniformly dispersed. 12-18"W

-**'Wojo's Gem'** This showy variety has slightly wavy deep forest green leaves with unusually placed distinct lemon-yellow highlights towards the inside. Stems are also an interesting matching muted yellow color. 15-18"W

**-minor 'Illumination'** Most variable variety listed here-with leaf combinations containing lemon yellow, apple, and olive green markings. Stems are a yellow almost white in color. Hardy to zone 5! 4-8"H, 24-36"W

# ZINNIA

6 Packs (Unless Noted)

S. 🐞BCD. Unique flower forms with great color ranges. Attracts butterflies. Long-lasting cut flowers. Colors remain vibrant when flowers are dried. Blooms abundantly summer until frost. Deadheading increases bloom time. Average soil. Loves hot, full sun. Give space. For best results don't water late in the day. Keep foliage dry and provide good air circulation. Tall types will need to be staked.

**-Dwarf Varieties** Can also be used in containers. 10-18"H

-**'Magellan' Series** Vibrantly colored pom poms. 12-14"H

Colors include:	Cherry	Ivory	Mix
	Pink	Salmon	Scarlet
			Yellow

-**'Profusion' Series** Winners of many awards! 2" blooms on self-cleaning plants. Vigorous and disease resistant. 10-12"H

Colors include:	5 Color Blend	Double Deep Salmon
	Double Hot Cherry	Double Yellow
		Red

-**'Zahara' Series** Very large flowers bloom all summer. 12-18"H

Colors include:	Double Bright Orange	Double Cherry
	Double Fire	Double Strawberry
		Starlight Rose

# HANGING BASKETS

This year, Surry Gardens is offering a large selection of new and interesting hanging baskets. There is sure to be one that will meet your needs. We have plants for sun and shade, plants that will tolerate heat, cool, and wind; in addition to plants that will attract hummingbirds and butterflies.

**Get your baskets early, they don't hang around for long.**

To ensure that our hanging baskets beautify your surroundings all season, we recommend the following care. For general feeding, we suggest Osmocote brand time-release fertilizer pellets. (14-14-14) Apply at the time of purchase, and reapply every 4 to 6 weeks. The recommended amounts to add are as follows: 8" baskets - 3 tablespoons, 10" baskets - 5 tablespoons, 12" baskets - 7 tablespoons, 14" baskets - 9 tablespoons, and 16" baskets - 12 tablespoons. In addition to Osmocote, some varieties will need supplemental feeding of a water soluble fertilizer such as Peter's Blossom Booster or Miracle-Gro. These heavy feeders are noted in their descriptions. To keep your plants beautiful throughout the season, it is important to check water daily and remove all spent blossoms and seed pods. Keep in mind that once your basket has matured it would not be unusual for it to need watering more than once a day, especially if it is located in full sun or a windy area. All our baskets are priced on labels or on lists posted in each greenhouse.

Codes:            S - Sun                            1/2S - Part Sun                            Sh - Shade

## **ABUTILON (Flowering Maple, Parlor Maple)**

10" Baskets

1/2S. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom through the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

*-megapotomicum* '**Variegatum**' Yellow flowers are suspended from red calyces. Slender, mottled gold foliage.

## BEGONIA, Continued

-**'Rhine' Series** Fully-double, peony-type blooms. **8" Baskets**

Colors include: Borias (Soft, Antique Pink)  
Dragone Champagne (Soft peachy-pink)

-**'Solenia' Series** Fully-double flowers bloom all season. Vigorous, glossy dark green foliage. Proven garden performers. **8" & 10" Baskets**

Colors include: Apricot                      Dusty Rose                      Orange  
Velvet Red                      Yellow

-**'Valentine Red'** Shiny, dark green leaves with bright, fire engine red, double blooms. Mounding. **8" Baskets**

## BEGONIA, REX

Assorted 12" Baskets

1/2S. These are also known as Painted Leaf Begonias. Grown for their beautiful, multi-colored leaves. They have striking patterns in variations of red, black, silver, pink, and/or green. Avoid over-watering. Feed every 2 weeks in spring & summer. Also makes an easy indoor plant when given bright, filtered light and warm temperatures.

## BOUGAINVILLEA

10" Baskets

S. Exquisite paper-like bracts in stunning colors bloom all summer. Allow to dry slightly between watering. If extended wet weather occurs, be sure to bring your plant in out of the rain. Protect from wind. Needs full sun to flower and would benefit from trimming off spent flower stalks, allowing fresh flower bracts to develop significantly faster. Ask for our culture sheet.

-**'Elizabeth Angus'** Glossy green foliage and vibrant purple bracts. Full, lush habit.

-**'Fire Opal'** Brilliant, orange-gold bracts with bright green elongated leaves.

-**'Flame'** Small, more narrower green leaves that start out tinged red with bright brick-red colored bracts.

-**'Imperial Thai Delight'** Dark green leaves showcase one of the most interesting displays of color. Bracts that emerge white will develop pink shading towards the tips, pink coloration will be less prominent if grown with less than intense sun.

## CALIBRACHOA, Continued

-**'Confetti Garden Aloha Kona' Series** More compact growth than the Aloha series, semi-upright habit. Lg. flowers in cheerful tropical colors.

Colors include: Hawaiian Country-True blue, dark red, white  
Hawaiian Flamingo-Hot pink, soft pk., midnight blue  
Hawaiian Hilo-Dark red, pineapple, true blue  
Hawaiian Kalani-Hot pink, orange, pineapple  
Hawaiian Mahalo-Hot pink, dark lavender, cherry  
Hawaiian Summer-Dark red, pineapple, hot orange

-**'Confetti Garden Duo Bloomtastic Blossoms'** This show-stopper has extra large, pale pink and lavender-blue blooms. Prominent, darkened eyes with central yellow star. Vigorous and heat tolerant.

**NEW!**-**'Confetti Garden Trio Summer Solstice'** Another attention-getting, vigorous calibrachoa mixture. This blend combines the extra-large starred & solid Bloomtastic varieties with the a lovely bright yellow. **10" Baskets Only**

-**'Trixi' Series** These combinations use a mixture of the vigorous Mini Famous series of calibrachoa. Floriferous plants are loaded with irresistible blooms.

Colors include:**NEW!**Batting Eyes (Orange, salmon & yllw w/dark eyes)  
**NEW!**On the Double (Double dark blue & double plumtastic)  
Party Favor (Blue, pink & white)  
**NEW!**Purple with a Purpose (Dark blue, light blue, white)

## CHENILLE

8" Baskets

S. Long, soft, drooping cattails all year. Keep evenly moist. Heavy feeders, apply Osmocote in spring and summer. Bring indoors for winter enjoyment. Keep in a sunny window. Easy and FUN! The kids love 'em.

-**'Firetail'** Fuzzy, red flowered tassels. 6"H

## CONVOLVULUS (Trailing Morning Glory)

8" Baskets

S. Most captivating sprawlers. Allow to dry slightly between waterings, will be drought tolerant once established. Apply a slow release fertilizer such as Osmocote or feed regularly once per week when watering (likes lime).

-**'Morning Trails'** Pale lavender blue flowers that close in the evening. Very pretty.

# EVOLVULUS

8" & 10" Baskets

S, 1/2S. Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

-**Blue My Mind** True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

## FUCHSIA (Lady's Ear drops)

10" Baskets

1/2S, Sh. Extremely popular hanging basket. Large petticoated blooms in many shapes and colors. Fuchsias do NOT do well in full sun it causes leaf discoloration. They prefer 3-4 hours of filtered morning or late afternoon sun. Keep moist at all times, but not soggy. During breezy or hot weather, they may need water twice a day!

**Leaf and blossom drop are caused by:**

1. Extreme changes of temperature or environment.
2. Allowing to get too dry or too wet
3. Keeping inside the home.
4. Too Much Sun!

-**Dark Eyes** Double, large, violet-blue with shining red sepals.

-**Heri Mochara** Double, deep purple flowers with white sepals. Upright, bushy habit and abundant blooms.

-**Holly's Beauty** Large, double, lilac flowers with porcelain white sepals.

-**Lavender Beauty** Double. Red sepals and lavender corollas.

-**Lisa** RARE! Fluffy double blooms with lavender corollas and bright rose sepals.

-**Marinka** Single bright red flowers with darker crimson petals.

-**New Millenium** Double. Pink corollas with black sepals.

-**Orange King** Large, marbled double blooms of hot pink & apricot-orange.

-**Seventh Heaven** This excellent trailing variety boasts magnificent, 4" creamy white and carmine-red flowers.

-**Southgate** Double pale pink corollas and blush pink-white sepals.

-**Swingtime** Double. White corollas with red sepals.

-**Trudi Davro** Elegant, clean double white, outer petals fading to light pink.

# GERANIUMS

## 10" Baskets

S, 1/2S. Very popular hanging basket with good green foliage and profuse double or single blooms. Protect from wind. Can be brought inside in winter. Needs acidic soil - apply Miracid every week. Don't let go too dry. Water until pot drips, then pour off excess water from saucer.

**-'Calliope Large' Series** (Interspecific) Large flowers produced continuously all season long. The exceptional branching and superior vigor have garnered numerous awards for this series. Excellent heat tolerance as well.

Colors include:      Dark Red                      Hot Rose                      Pink

**-'Calliope Medium White'** (Interspecific) Less vigor than the large Calliopes yet with the same strong habit, heat tolerance, and large flower size.

**NEW!-'Ivy League' Series** (Ivy) Exceptional heat tolerance with strong branching, making for FULL hanging baskets. 12-14"H, 20-24"W

Colors include:      Arctic Red                      Burgundy Bicolor  
Deep Pink                      Hot Coral                      Light Lavender  
Orchid                      Red                      Salmon                      White

**NEW!-'Blizzard Red'** (Ivy) Strong plant vigor with unbeatable branching and outstanding single-flowers. 12-14"H, 20-24"W

**-'Cascade' Series** (Ivy) Traditional, single-flowered geraniums with extreme heat tolerance all season. Vigorous, 12-14"H, 20-24"W

Colors include:      **NEW!**Appleblossom                      Sofie (Rose-pink)  
Lila-Compact (Lavender-pink)                      White

# IMPATIENS, SINGLE

1/2S, Sh. Here's that needed color for the shade. Blooming all season long. Moist soil is ideal, allow to dry slightly between waterings. Water in the morning to help discourage the formation of mildew. EASY!

**NEW!-'Beacon' Series** The second series to be specifically bred for resistance to *Impatiens Downy Mildew*, showing even better performance than the Imara series after being inoculated.

Colors include:      Bright Red                      Coral                      White

**-'Imara XDR Rose'** The first series with a proven resistance to *Impatiens Downy Mildew!* Thorough testing in the US & EU showed a strong performance in the garden all season long, even after being inoculated with the mildew.

## IPOMOEA (Morning Glory Vine)

Assorted 12" Baskets

S. *indica* Tropical vine with stunning, 4" bright cornflower blue, trumpet shaped flowers. May be used as a houseplant in winter. Average, well-drained, evenly moist soil is ideal. Climbs 8-10' tall and will trail just as much!

## LANTANA

10" Baskets

S. Characterized by domed clusters of dainty flowers that are attractive to both hummingbirds and butterflies. These plants thrive in hot weather and bloom profusely from spring until frost.

-'**Lavender Weeping**' Clusters of 1" wide, warm lilac flowers on trailing stems.

-'**White Weeping**' Pure white, 1" flower clusters on trailing stems.

## LOPHOSPERMUM

10" Baskets

S. Fully-trailing vine that will perform all summer long. Large, trumpet-shaped flowers have long, slender stems. Pale green leaves have very serrated edges and will fill in to magnificently provide coverage for masking a post or other structural element. EASY.

-'**Lofos Compact' Series** Compact version of the traditional Great Cascade with the same high quality flowers and a habit that camouflages spent flower bracts nicely. Neat and tidy habit is quite vertical- a good choice for those slender areas that aren't wide enough to accommodate most other basket offerings. Trailing to 30"

Colors include:

Rose

White

# MANDEVILLA/DIPLADENIA

10" Baskets

S. Large, morning glory-like blossoms on a twining vine with glossy, dark green leaves. Blooms all summer and into the winter, where it makes a fine houseplant for a hot sunny window. In season, allow to dry slightly between watering and feed every two weeks with a liquid bloom booster or apply Osmocote. Goes dormant in winter with some leaf drop. Keep much drier in fall and winter until new growth starts in spring. Loves it hot!!!

-**'Pink Parfait'** RARE gem! Large, dark green leaves. Rich pink, double flowers. Hose-in-hose blooms have a wonderful fruity scent.

-**'Sun Parasol' Series** Vividly-colored blooms. Glossy, green foliage.

'Apricot' PHENOMENAL, giant 3-5" creamy golden peach blooms. Vigorous habit with excellent branching. Coarse foliage.

**Original Group:** Compact growth, 2-3" flowers, small rounded leaves, natural climber.

Colors include:      Dark Red  
                                 Pink  
                                 White

## MIXED HANGING GARDENS

10", 12" & 14" Combo Baskets

S, 1/2S. Various blends of hanging baskets planted with a combination of colorful, tough, attractive, trailing annuals for easy care all summer. Sizes range from 10" to 14" and they are priced individually. Some are offered in decorative cone-shaped mixed media style baskets. Don't forget to water and feed!

-**Surry Gardens Blends** Crafted and grown on-site using our own formulations.  
**12" & 14" Baskets Only**

-**'Trixi Combos' Series** Irresistible mixtures containing Petunias, Calibrachos, and Verbenas. Thoroughly trialed to ensure uniform flowering time and vigor. **10" & 12" Baskets Only**

Mixes include:      Cherry Kiss (Shades of pink)  
                                 Geisha Girl (Shades of red)  
                                 Nightfall (Shades of purple)

## OXALIS

8" Baskets

S, 1/2S. Grown for their light textured foliage and long blooming flowers. Foliage color may vary depending on light conditions. Mostly mounding habit intermingles well with other plants. Can also be used as a houseplant with great results, shear back stems if they get too long and leggy.

-**'Charmed Wine'** Mix of large, deep burgundy and black triangularly lobed leaves that have dainty lavender-pink or white flowers. 10-14"H

## PANSY

10" Baskets

S, 1/2S. BW. These irresistible faces are truly a sign of spring. Choose from our extensive selection. Masses of velvety color for borders, edging, and containers. Moist, fertile soil. Frequent deadheading keeps flowers coming. Will bloom all season if watered, deadheaded, and fertilized properly.

**NEW!-'Cool Wave' Series** From the ever popular "Wave" line of products gives us these fast-growing, lush spreading/hanging type Pansies. Their vigor would also make a striking ground cover. 6-8"H, 2-2½'W!

Colors include:      Blue Skies                      Frost  
                                    Golden Yellow              Raspberry      Violet Wing

## PLUMBAGO

10" Baskets

S. Blue, Phlox-like flower clusters bloom all summer. Allow to dry between waterings. Feed every two weeks with Peter's or apply Osmocote every 30 days. Frequent pinching will help control the shape and is beneficial for the plant.

-**'Imperial Blue'** A heavenly shade of tropical cerulean blue not very often seen in nature. Sticky, 3-4" clusters appear first at the tips then on smaller side branches of these vigorous, sprawling plants. Can grow over 2 ft. if unpinched.

## STREPTOCARPELLA

6", 8" & 10" Baskets

1/2S. Delightful mini Cape Primroses dance above attractive velvety-green foliage. Related to African Violets and Streptocarpus. One of our most popular hanging baskets. Allow to dry slightly between watering. Prefers morning or late afternoon sun. Bring inside before frost and keep in a warm, south window. Be careful not to over water in the winter and not to wet the foliage. Deadhead.

-**'Good Hope'** Numerous blue flowers. Small leaves.

## THUNBERGIA (Black-eyed Susan Vine)

6", 8" & 10" Baskets

S, 1/2S. This graceful, old-fashioned plant has nearly triangular leaves and trumpet shaped flowers with flattened faces. Rich, evenly moist, well-drained soil. Protect from the wind. Blooms continuously ALL summer long. Fast growing!

-**'Arizona Lemon Sunrise'** Pale lemon yllw w/ white edges. Dark black eye. 5-7'H

**NEW!**-**'Arizona Pink Beauty'** Large, soft blush-pink blooms have a deep, dark central eye and petals that are intermittently brushed with white. 40-80"H  
**8" & 10" Only**

**NEW!**-**'Arizona Terracotta'** Vigorous, climbing vines with unique lovely blooms that are a pale warm lemon shade blushed with apricot and a dark burgundy center. 40-80"H **8" & 10" Only**

-**'Lemon'** (Formerly 'Lemon Star') Lemony-yellow with dark almost black eyes.

-**'Sunny Susy Red Orange'** Burnt red-orange centers fading to golden orange towards the tips.

-**'Sunny Susy Rose Sensation'** Breakthrough new color! Lovely shades of deep rose blooms with dark black eyes. 5-8'H **6" Only**

-**'Tangerine Slice A-PEEL'** New unique coloration! Rusty orange, pinwheel-looking blooms with tangerine stripes and dark almost black eyes. 6-8'H

# VEGETABLES

Plant a Victory Garden and win the war against the high cost of fresh veggies! Locate your vegetable garden in an area with full sun and fertile, well-drained, moisture retentive soil. An excellent guide for beginning is the Maine Organic Farmers and Gardeners Association's (MOFGA) Technical Bulletin 1: Basics of Organic Vegetable Gardening, which can be viewed and printed at:

[www.mofga.org/Publications/FactSheets/tabid/133/Default.aspx](http://www.mofga.org/Publications/FactSheets/tabid/133/Default.aspx)

\*\*Any featured All America Selections Winners will be abbreviated as follows: AAS Winner

## ARTICHOKE

4 Packs

Attractive, ornamental plant with edible flower buds. Cook and serve with basil and melted butter. Check an Italian cookbook for recipes of stuffed artichokes. Harvest buds before they open. Plant in full sun spaced 3' apart. Fertilize heavily and your patience will be rewarded!

-**Imperial Star**' 85 days. Six to eight, 3-4" flower buds per plant.

## ARUGULA

6 Packs

*Eruca vesicaria sativa*. Both leaves and flowers can be used to add a peppery bite to sandwiches and salads. For a continuous supply, successive plantings are recommended. Standard salad Arugula can be harvested at 21 days for baby greens and at 40 days for full size, harvest whole plants or individual leaves. Flowers are white with dark pink veins. Plant in fertile, well-drained soil, keeping the soil moist will help slow bolting. Arugula prefers cool conditions and may even over-winter if given enough protection. Use row covers to avoid troubles with flea beetles.

# ASPARAGUS

1 Dozen Roots/Bundle

Long lived perennials. Correctly planting the roots will yield large future harvests. Set roots (fanned out) in a trench 6-8" deep, 8" apart for thin spears, farther apart for thicker spears. Cover with a 2" layer of compost rich soil to provide nourishment for years. Gradually fill in the trench as the plants grow. Harvest very lightly the second year, freely thereafter. In spring, cut the spears with a sharp knife at the ground level. After harvest, allow plants to have mature foliage thru the fall. Cut dead foliage after frost. Ask for our culture sheet with a diagram and more detailed information.

- 'Jersey Knight'** Large, succulent spears with excellent flavor. Resistant to rust, crown rot, and fusarium. Vigorous and better adapted to heavy clay-like soils.
- 'Jersey Supreme'** High yields and great taste. Succulent spears are more uniform than other Jersey hybrids. Disease resistant and tolerates most soils.
- 'Purple Passion'** Unique and attractive purple color with milder flavor and a tenderness that is lacking in other varieties. This variety grows best spaced at 6-8".

# BEAN

6 Packs

One of the easiest vegetables to grow at home, large yields with minimal effort make them great for beginners! They prefer well-drained soil, take care not to over-fertilize or disturb the shallow roots. Space bush beans generously to promote good air circulation. Pole beans will need support to climb. Harvest frequently to promote new pod growth and plant fresh seeds every 2-3 weeks for beans all season long.

-**Romano Types** Characterized by their wide, flat meaty pods.

-**'Capitano'** 62 days. Yellow, bush type. Delicious, full flavor with a smooth, tender texture. Upright plants bear 4½-5" pods heavily.

-**'Musica'** 67 days. Pole type. This plant produces masses of huge beans over a long period. Delicious, bright green, 7-8" long pods remain very tender even at their largest size. 6'H

-**'Roma II'** 58 days. Bush type. Medium green, flat pods are ~6" long with a robust flavor. Stringless pods. Sturdy, high-yielding plants. Unbeatable for freezing or canning.

## BEAN, Continued

- '**Maxibel**' 55 days. Green, french (Haricots Verts)/filet type. Sturdy, bush type, 22-26" H. Concentrated sets of high-quality, slender, 7" pods with unsurpassed bean flavor. Crisp and stringless!
- '**Scarlet Emperor**' 75 days. Runner type, climbing. These beans will tolerate partially shaded conditions better than other bean types. Scarlet-orange flowers attract hummingbirds. Sweet, juicy 6-8" pods. 8-10'H
- '**Seychelles**' 55 days. Green pole type. One of the tastiest, earliest, and most productive pole beans. AAS winner for its uniformity, flavor, and texture. Heavy crops of tender, stringless beans are enjoyed best at ~4" long but are still crunchy and delicious at 5-6". Healthy plants will reach 7-9' tall!

## BEET

6 Packs

Another crop that we just CANNOT do without. Tasty greens and pickled roots make this a necessary component for the vegetable garden. With the ability to produce plentiful crops in containers, in ground early on, hydroponically in water, or under high tunnels in fall; these gorgeous workhorses are the epitome of versatility in the garden and the kitchen. Light, loamy soil with a high pH is best. Keep plants well watered during dry spells to prevent scab. Thin plants after planting by eating young greens as they grow or by snipping extras leaving at least 3" in between.

- '**Avalanche**' 55 days. AAS Winner. Round roots are a beautiful snow white that won't stain your hands or your cutting board! Mild and sweet in flavor without that slightly bitter aftertaste beets can have. Harvest when 2<sup>3</sup>/<sub>4</sub>-3".

## CELERY

6 Packs

Crunchy texture and distinctive flavor makes this a popular addition to salads and many cooked dishes. Give these plants fertile soil and consistent moisture for best yield. As celery plants grow, mound soil up to blanch lower stems, if desired. Celery can be harvested when stalks are at an edible size.

- '**Tango**' 80 days. Similar to Conquistador but the flavor is better and the stalks are more tender. Performs well under less than ideal growing conditions, will tolerate heat and moisture stress. Space 6-8" apart.

# COLE CROPS

Broccoli • Brussels Sprouts

Cabbage • Cauliflower • Kale • Kohlrabi

6 Packs

Members of the mustard family. Our mild Maine summers allow us to grow these cool season plants. Plants are typically heavy feeders but have various nitrogen requirements. Top-dress each seedling at planting time with a handful of wood ashes to discourage root maggots. Collars will prevent cut worms and BT will prevent cabbage worms.

**Broccoli-** Contains more calcium than milk! Use lime to enrich the soil with calcium and give plenty of moisture. Mix varieties for an extended season. A second planting by July 15th will provide a nice fall crop. Space with 8" in between plants in rows 18" apart.

- '**Arcadia**' 86 days. Large, blue-green heads on tall, heavy stems. High yielding. Developed for close spacing. A staff favorite!
- '**Aspabroc**' 50-60 days. Aka Broccolini. Tiny broccoli heads precede multiple side shoots, which are produced for a month longer! The shoots resemble broccoli raab with an asparagus-like stem. Tender & tasty. Can be planted tightly.
- '**Belstar**' 66-75 days. Blue-green 6" heads are densely packed with florets. Flower heads are held up higher for easier harvesting. This variety is ideal for both spring and warm-weather planting. Excellent field holding capacity.
- '**Green Magic**' 57 days. Smooth, well-domed heads. Very uniform at maturity.
- '**Premium Crop**' 58 days. An AAS winner. Large plants with firm heads and small, dark green buds.

**Brussels Sprouts-** These delectable beauties can be finicky to grow. Some tips that are important: Start by selecting a good, strong fertilizer that contains the micronutrients boron and magnesium. Give plenty of moisture at planting and while plants are establishing a root system. When weeding avoid cultivating too deeply, this would disturb the roots. When the sprouts towards the bottom are 1/2-3/4" in diameter pinch out the plant's growing tip to force the remaining sprouts to develop evenly, about 4 weeks. Space 18-24" apart.

- '**Jade Cross**' 85 days. AAS winner. This outstanding selection has medium, firm dark green sprouts with excellent flavor. Early and very productive, tolerates heat stress.

**Cabbage-** Try homemade sauerkraut this year. Tasty slaws too! Plant 15-18" apart. Install floating row covers at planting to protect against flea beetles.

*NEW!*-**'Famosa'** 81 days. Savoy type. Deep blue-green heads with a yellow-tinted interior. Tender leaves surround 2-4 lb. heads that have very good flavor. Best for using in cooked dishes.

-**'Ruby Perfection'** 85 days. Very popular for storing, will keep several months. Measuring 8" across these perfect, globe-shaped beauties are dense with a deep, purple-red color. Weighing 3-4 lbs.

-**'Stonehead'** 50 days. Heads are round, about 6" in diameter with short cores. Solid and slow to bolt.

-**'Rubicon'** 52 days. Napa type. Full sized heads weigh in at 5½-6½ lbs. with broad white ribs and creamy yellow interior. Slow to bolt. Delicious flavor is juicy, sweet, and tangy. Space 12-18" apart.

**Cauliflower-** Keep well-watered and well-fed, especially while the heads are forming. For best results plant early! Space plants every 18".

-**'Amazing'** 68 days. Medium-sized plants with domed, solid curds and self-blanching, upright wrapper leaves.

-**'Skywalker'** 80 days. Medium-sized heads are self-wrapping so leaves do not need to be tied together. Very good cold tolerance for late summer and fall harvesting.

**Kale-** The beautiful ruffled leaves of the kale plant have a lively flavor along with unique peppery qualities. Excellent source of Vitamin A. Space plants 8" apart or closer for baby leaf production.

*NEW!*-**'Dazzling Blue'** 30 days baby, 60 days mature. Gorgeous, lacinato-type that's as vigorous and tasty as it is beautiful! Large, blue-green leaves have a prominent purple-pink midrib; leaf color will intensify to a purple shade in cooler temps. Slightly sweet and tender quality. 2-2½'H

-**'Mix'** 60 days. New to the kale craze? This mixture is a good starting point. A sampling of 8 different kales featuring siberian, curly, and dinosaur types that will enable you to taste a wide variety.

*NEW!*-**'Scarletbor'** 60-90 days or harvest when baby. Highly ornamental, vigorous variety with red-purple foliage that becomes curlier and deeper in color during cooler weather.

## Kale, Continued

- 'Starbor'** 55 days. Compact plants with very uniform leaves that resist yellowing. The finely curled, dark blue-green leaves are perfect for harvesting all at once. 12-18" H
- 'Winterbor'** 60 days. Fresh market growers endorse this extra-productive kale. Well-curved, blue-green, ruffly leaves. Re-grows vigorously for successive harvests. High yields.

**Kohlrabi-** Maybe not the most beautiful vegetable at first glance but WELL worth the garden space, try it once and you'll be hooked! The root-like bulb as well as leaves of this plant can be eaten. Versatile fruits can be prepared by sautéing, roasting, enjoying raw or as a wonderful low-carb substitute for noodles (when spiralized). Kohlrabi has a crunchy yet juicy texture and a mildly sweet, unassertive taste. Wonderful when steamed in the microwave and sprinkled with butter, shaved parmesan, salt, and pepper-the flavor is similar to cauliflower. VERY tasty!

- 'Kossak'** 80 days. Impressive sized bulbs are an immense 8" in diameter yet with no loss in quality or texture; interior remains sweet and tender! Space plants with 10" in between. Harvest before bulbs elongate. Will keep in cold storage for up to 4 months!

## CORN

### 6 Packs

Plant corn in blocks of at least 4 rows for proper pollination, rows should be 30-36" apart and plants spaced with 9" in between. Successive planting may be necessary. Corn requires warm, well drained soil that is highly fertile; use a fertilizer with high phosphorous. Use Bt for corn ear worms. Harvest when punctured kernels are full and "milky", when silks are browning, or 18-24 days after silks first show.

- 'American Dream'** 77 days. AAS Winner. Super sweet, bicolor. Exceptionally tender with the finest eating quality. Excellent tip fill and strong husk protection.
- 'Kickoff XR'** 69 days. Early, super sweet. Thick, bicolored ears are extra large with slightly tapered tips. Tender and sweet ears set high up on the stems.
- 'Xtra-tender 20173'** 73 days. Mid-season, super sweet, bicolor. Outstanding, flavorful 7½-8" ears snap off easily from the stalk. Long shelf life. Good tip fill and husk coverage.

# CUCUMBER

## 4 Packs

Cucumbers are grown to be eaten fresh, cooked, or pickled. Moderately acid soil, plenty of moisture and fertilizer. To prevent powdery mildew apply a spray with the active ingredient copper octanoate (approved for organic gardening) regularly. Install row covers at planting and leave in place until well established to prevent the insidious striped cucumber beetles. Plant 1' apart with 6' in between rows, unless using a trellis.

**-Slicing Varieties** Add a refreshing taste to your summer salads.

-'**Burpless Bush**' 55 days. Firm, straight, 8-10", cylindrical fruit. **Seedless.**

-'**Diva**' 58 days. AAS winner. Smooth, thin skin with crisp yet tender, sweet **seedless** flesh; spineless. Very tasty! 6-8" fruits at almost every node. Highly recommended. Vines can grow to 6' long.

-'**Fanfare**' 62 days. High yields over a long time, superb disease resistance. Semi-dwarf, compact habit is excellent for containers. Vines grow 2-2½'. AAS winner. Slim, deep green 8-9" fruits are remarkably flavorful.

-'**Salad Bush**' 57 days. AAS winner. Very compact and productive plants are a great choice for small space or container gardening. Dark green fruits are 6-7" long. Disease tolerant.

-'**Straight Eight**' 58 days. AAS winner. Excellent flavor is best when harvested at 8" long. Smooth, perfectly straight, dark green fruits have a very small seed cavity and white spines. Vigorous with heavy yields.

-'**Sweet Slice**' 62 days. Bitter free and burpless! Vigorous vines produce 10-12" dark green, amazingly sweet fruits. No need to peel skins off before eating.

**NEW!**-'**Tasty Jade**' Vigorous plants produce high yields of long Asian style fruits. Thin-skinned fruits are 11-12", glossy and bitter-free with small seed cavities. Intermediate resistance to downy mildew. **3" Pots Also**

**-Pickling Varieties** Great smaller types for canning.

-'**Homemade Pickles**' 55 days. Medium green fruit can be harvested when 1½ to 5" long. Very productive. Crisp texture & wonderful flavor. Plants grow to 3' long and have excellent disease resistance.

-'**Northern Pickling**' 48 days. Developed in Maine. Medium green fruits bear early and set heavily on short, space saving vines.

# EGGPLANT

## 4 Packs

Attention cooks, don't soak in oil, just brush with olive oil, sprinkle with your favorite herbs, and broil. Or go for it - marinate with garlic and basil, dip in batter, and deep fry. Plants are heavy feeders, add compost and composted cow manure to soil. Watch for potato beetles, but don't use any harsh sprays or the pollination of fruit may really suffer.

- '**Black Shine**' 65-70 days. Deep purple, almost black, asian type fruits are slim and tender. Very productive plants that are reliable producers.
- '**Hansel**' 55 days. AAS Winner. Sweet, mini fruits are 4" long by 1" in diameter and produced in clusters for easy harvesting. 25-36"H
- '**Nadia**' 67 days. Classic, large Italian-type fruits are a glossy dark purple measuring 7½" x 3½". Tall, sturdy plants set fruit even under cool conditions.
- '**Orient Express**' 58 days. Attractive, slender, 8-10" long shiny black asian-style fruits. Ready up to 2 weeks before most other varieties.

# FENNEL

## 4 Packs

Feathery foliage holds rain drops as sparkling pearls. All parts (including young shoots) of this plant are edible. Wonderful sliced into salads, lightly sauteed, or grilled. Cooking will mellow the anise flavor. Fertile, well-drained soil and cool temperatures will produce the best bulbs. Plant 6" apart in well-drained, humus rich soil. Transplant with care as roots do not like to be disturbed.

- '**Preludio**' 80 days. Heavy, rounded bulbs are uniform w/traditional flavor.
- '**Sweet Florence**' 80 days. Heirloom. Delicate flavor and crisp texture.

# LETTUCE

## 6 Packs

Fresh greens for salads all summer long, stagger your plantings to keep a steady supply handy. Grows best during cool weather. Plant 10-12" apart for heading types, leaf varieties and ones that will be harvested as baby can be planted 6-8" apart.

- Butterhead Types** Buttery, Boston types.
  - '**Buttercrunch**' 75 days. Compact, crisp, heavy heads. Old favorite!
  - '**Red Cross**' 48 days. Stunning, large, fancy, bright red heads. Heat tolerant.
  - '**Nancy**' 58 days. Thick, medium-green leaves form tight, extra-lrg. heads that are unusually crisp for a Boston type. Delectable taste and texture.

## LETTUCE, Continued

**-Iceburg Types** Extra crunchy with a mild flavor.

-**'Crispino'** 57 days. Tight, dense heads of perfect Iceburg lettuce, excellent results are almost certain with this variety. Sweet, crisp, and moist green outer leaves surround a white interior.

-**'Mighty Joe'** 88 days. Very uniform, round heads are larger size than the traditional varieties. Vigorous with exceptional weight & excellent texture.

**-Leaf Types** Add a bit of color to those salads.

-**'Magenta'** 48 days. Shiny, slightly puckered, red tinged leaves mature to whorled, conical heads. Crispy with good flavor. Heat tolerant, non-bitter!

-**'Mesclun Mix'** 21 days. Specialty mix of different greens and lettuces.

-**'Red Sails'** 45 days. Bronze-red crinkled leaves. Slowest to bolt of all the red loose leaved varieties.

-**'Red Saladbowl'** 51 days. Burgundy-red, deeply lobed, delicate, oak-like leaves. Retains its mild flavor for a long time and is slow to bolt.

-**'Starfighter'** 52 days. Shiny, green, slightly savoyed leaves that have good flavor with excellent heat tolerance and disease resistance.

**NEW!**-**'Wildfire Mix'** 28 days. A blend selected specifically for varieties that would provide the greatest color contrast, with a higher percentage of red types. Contains oakleaf, romaine, and leaf types.

**-Romaine Types** Make the perfect, crisp Caesar salad.

-**'Sparx'** 58 days. Upright, dense heads are attractive with good flavor and uniformity. Increased heat tolerance for use throughout the season.

-**'Sucrine'** 60 days. Back by popular demand! Dense, bright green, petite heads of lettuce are super sweet as their name suggests & delightfully crisp.

-**'Outredgeous'** 57 days. Bright red leaves with ruffled edges. Full-sized heads are big and beautiful.

## MELON/WATERMELON

3" Pots (Unless Noted)

What could be better than picking a fresh melon for breakfast? Plant when soil has warmed. Provide abundant moisture during the early stages until the fruits are setting, afterwards water as signs of wilting occur. Give plenty of space with 2-3' in between plants, rows 6' apart. Transplant gently, to disturb roots as little as possible.

-**'Sarah's Choice'** (Cantaloupe) 76 days. Sweet and juicy, 3 lb. oval fruits are so flavorful they consistently win in Johnny's trials. **4 Packs Also**

## MELON/WATERMELON, Continued

-**'Solstice'** (Cantaloupe) 76 days. LARGE 7-9 lb. fruits have the look of an old style musk melon with deep ribs and heavy netting. Slice at the ribs for generous portions of thick, very sweet flesh! Plants yield greatly and have superior disease resistance.

-**'Sugar Baby'** (Watermelon) 80 days. Crispy, sweet variety is the standard for northern home gardeners. Long, 6' vines yield 4-6, 8-10 lb. fruits each. **6 Packs**

## ONION, LEEK & SHALLOT

6 Packs

Indispensable Alliums! We've sown multiple plants per cell, 30-50 plants per pack. Take care to separate seedlings gently and plant individually as specified to get the most for your garden. All prefer thoroughly prepared soil that is well-drained and rich in organic matter. Keep watered and weeded for best results.

**Leek**-Adds a delicious, refined flavor to soups. Excellent for Vichyssoise, topped with fresh chives. Plant seedlings in trenches, 6" deep and about 6" apart. As the plants grow, fill in the trenches to blanch the stems. Can also be hilled up in rows.

-**'King Richard'** 79 days. Beautiful, full-sized, foot long leeks. Upright, medium green leaves. For summer harvesting.

-**'Tadorna'** 100 days. Long, 7-8" blue-green shaft is easy to clean and frost tolerant. For early-late fall harvesting.

**Onion**-Thin slices cooked really low and slow with a little butter and salt are caramelized, mouth-watering perfection! They're enough to make one want a whole garden-ful. Plant seedlings 4" apart. Supply extra nitrogen. Onions that are spicy may be a result of soil that is too acidic.

-**'Ailsa Craig Exhibition'** 110 days. Huge, mild Spanish onions average 5 pounds for September harvest. Unique sweet flavor. Short term storage.

-**'Copra'** 104 days. Highest sugar content of all the storage onions. Hard, medium sized bulbs with blocky, round shape. Excellent keeper.

-**'LaSalle'** 103 days. Early-mid season harvest. Large, dark bronze, round-globe shaped onions are suitable for long-term storage of 8 months or more!

-**'Oloroso'** 113 days. Semi-spanish type. Huge, heavy bulbs with copper brown skins & mostly single centers. Late season harvest. Stores 6-8 months.

-**'Ruby Ring'** 112 days. Uniform, hard bulbs with dark red skins. Stores well.

## ONION, LEEK & SHALLOT, Continued

**Shallot**-Used for flavoring soups, salad dressings, vegetables, and grain dishes. Plant seedlings 4-6" apart, bulbs are ready to harvest when the leaves have turned yellow and fallen over.

- '**Camelot**' 110 days. Teardrop-shaped bulbs have a dark red-skinned exterior & white interior w/excellent flavor. Good storability through the winter mos.
- '**Conservor**' 110 days. Easy to peel. Large, single bulbs have a reddish-brown skin and cream interior. Suitable for long-term storage.

## PEPPER

4 Packs (Unless Noted)

Provide lots of sun and rich moist soil. Do not add too much nitrogen. Use a fertilizer high in phosphorous and calcium. Space plants 12-18" apart. When planting both sweet and hot varieties it is best to isolate them from each other to avoid any cross pollination, which could result in Sweet peppers with heat.

**-Sweet Varieties (Bell and Non-Bell are denoted)**

- '**Boris**' 60-65 days. Sweet Banana. Nearly straight, 8" x 1¾" wide fruits held higher on the plant for easier harvest. Pale yellow maturing to bright red. Medium-heavy, sweet and delicious flesh. **3" Pots Also**
- '**Carmen**' 60 days green, 80 days red. Non-Bell. This AAS winning "Bull Horn" type is particularly suited for northern climates. Remarkably sweet flavor is excellent for salads. 6" tapered fruits on upright, med. plants.
- '**Goliath**' 71 days. Sweet Bell type. Sensational, massive, thick-walled fruits are 4 lobed, 7½" long by 4" wide! Fruits set well under a variety of adverse conditions. Terrific flavor and more vitamin C than oranges! **3" Pots**
- '**Jupiter**' 66 days. Bell type. Huge, blocky fruits with thick green walls. Great for stuffing & freezing. High-yielding, disease resistant plants are a sturdy 30" with a dense canopy. **Excellent!**
- '**Lipstick**' 53 days green, 73 days red, ripe. Non-Bell. Considered by many to be the most delicious sweet pepper. Dependable, early, heavy yields, even in a cool season! 4" long fruits are perfect raw or cooked.
- '**North Star**' 60 days. Sweet Bell. Extremely early variety is ideal for our area. Blocky 3-4 lobed, bright red peppers are produced even under unfavorable conditions. 18-22"H
- '**X3R Red Knight**' Bell. 57 days green, 77 red. Blocky 4½" square fruits w/ thick walls. Sugary sweet when ripe. Exceptionally cold & disease resistant.

## SWEET PEPPER, Continued

**NEW!**-**'Sheepnose'** 75 days. Non-Bell. Heirloom. Classic squat pimento shape- 3" x 4" wide. Juicy flesh is thick and substantial, meaty-like. Excellent versatility-can be eaten fresh, canned, stuffed or frozen. Stores well.

**-Hot Varieties** The higher the Scoville rating the hotter the pepper! The Scoville Index rates the hotness of peppers by the amount of capsaicin they contain.

**-'Cayenne Long Thin'** 72 days Long, slender, red fruits reaching 6". Thin, wrinkly flesh used for pickling or processing into flakes. 3500-5000 Scov.

**-'Early Jalapeno'** 60 days green, 80 days red, ripe. 2½" sausage shaped fruits. 2500-8000 Scovilles.

**-'Krimzon Lee'** 62 days green, 82 days red. Beautiful, big 6-8" x 2" fruits. Paprika type pepper is both sweet and moderately hot, 100-1000 Scov. Thick flesh makes this pepper choice for roasting, grilling, and even salads.

## POTATO

### By the Pound

Ensure that your spuds are pesticide free by growing them yourself! Start with fertile, well-drained soil; composted manure is a good addition. 1 lb. of seed potatoes will plant a 5-8' row. A pre-conditioning treatment called green sprouting is highly recommended for our area, it cuts 10-14 days off the growing cycle, increases the yield, and helps prevent disease. For this, place potatoes in darkness for 7-10 days 70-75°F until sprouts are seen, then expose them to light and decrease temp. to 50°F. Prep for planting by leaving small spuds whole and by cutting large ones into 2 oz. pieces with at least two eyes (sprouts). Planting the same day as cutting will reduce the incidence of seed piece decay. When the soil reaches 55-60°F, plant in trenches 4-6" deep leaving 12" in between. When plants reach 6-8" H, gently hill the soil around the base, repeat again at 12-15" H; applying mulch afterwards. It is very important to keep soil moisture consistent until harvest, avoid overhead watering in the afternoon to keep blight at bay. To help guard against the Colorado Potato Beetle plant pieces in healthy soil, rotate crops every 3-5 years, and handpick the adults and larvae dropping them into soapy water and squishing any orange eggs found on the undersides of leaves; row covers also aid in this pursuit. If insecticides are needed use a Spinosad or Pyrethrum based option. Baby or "new" potatoes can be harvested around 30 days after flowering (for those who simply can't resist) otherwise when the plant has died leave tubers in the soil 2-3 more weeks to set the skins. Dry briefly on a cool day out of the sun, then brush off any excess soil.

## POTATO, Continued

- 'Kennebec'** Midseason. Heirloom. Classic Maine all-purpose potato, tough and adaptable growing in a wide range of conditions. Stores extremely well. Abundant yields of uniform, sweet, white fleshed tubers with buff colored skin.
- 'Red Pontiac'** Late. Heirloom. Large, rounded tubers with red skin and white flesh. This multipurpose potato stores well. Drought tolerant in the field but susceptible to most common potato diseases.
- 'Russet'** 110 days. Heirloom. Elongated oval tubers have smooth pale brown skin with white flesh that turns fluffy when baked making the perfect vehicle for any number of toppings.
- 'Yukon Gold'** Early Midseason. Heirloom. Tasty, yellow, thin-skinned tubers have a dry texture. Excellent buttery flavor and drought tolerance. Stores well but that may not matter!

## PUMPKIN

4 Packs (Minimum of 8 plants/pack)

A Halloween necessity. Give them plenty of space and keep well-watered. They prefer fertile soil - add composted cow manure. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly. If a pumpkin for pies is what you desire we recommend trying 'Winter Sweet' kabocha squash instead.

- 'Orange Smoothie'** 95 days. AAS winner. Bright orange, smooth, non-ribbed fruits are good for painting. Fruits average from 6-9 pounds. Plants have a medium vine length and should be spaced 2½-3' apart.
- 'Racer Plus'** 85 days. Ribbed, dark orange, mid-sized pumpkins with high quality dark green handles. Yields 2-3, 12-16 pound fruits per plant. Short vines may be spaced 2-2½' apart.
- 'Tom Fox'** 110 days. Well-ribbed, medium pumpkins are between 12-20 pounds. Deep orange color and fantastic handles make them great for Halloween. Long vines yield 2-3 fruits per plant and should be planting with 3-4' in between.

# SPINACH

6 Packs

One of the “super foods”, packed with antioxidants and minerals. Grows best in cool, mild climates. Plant in a moist, fertile soil with a pH of at least 6.0 (6.5-7.5 is best) as Spinach is sensitive to acidity levels. Full sun to pt. shade, water at soil level to avoid splashing on leaves. Harvest greens at full or baby size, rinse multiple times before eating.

-‘**Tyee**’ Semi-Savoy type. 40 days. Slowest to bolt, this is considered the standard of Savoyed Spinach. Dark green leaves are vigorous, with an upright habit. Does well as a spring, summer, or fall crop, and is an ideal type for hoop house growing thru December.

# SQUASH

4 Packs (Minimum of 8 plants/pack)

Christopher Columbus brought squash back to England from the New World. Modern day squash has been consumed for over 10,000 years. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly. Space generously- with 6’ in between rows.

-**Summer Squash** Eaten as soon as picked, either raw or cooked. If using plants for both fruits AND edible blossoms, harvest the male flowers (those with thin stems and lacking an immature fruit at base) leaving a few to pollinate the females; harvest mid-morning and when fully open.

-‘**Aristocrat**’ syn. Commander. 53 days. Zucchini-type. Smooth, dark green, 7-8” cylindrical fruit. Compact, bushy plants.

-‘**Slick Pik**’ 48 days. Extra early. Very attractive yellow fruits have a good taste, and are blemish-free thanks to the spineless leaf petioles; also making it easier to harvest.

-**Winter Squash** Thick skinned fruits of all shapes, sizes, and colors. Usually prepared by baking they are delicious either savory or sweet. Try with maple syrup & butter. Stores well.

-‘**Bonbon**’ 95 days. AAS winner. Classic buttercup fruits are dark green, with gray “button” on the underside. Weighing an average of 4-5 lbs. and producing an average of 4 fruits per plant. Space 12” apart.

## SQUASH, WINTER Continued

- '**Honey Bear**' 85 days. Acorn type. AAS winner. Deliciously sweet, mini 4" round fruits are just the right size for 2 servings. Compact, bush type plants can be spaced every 12" and are resistant to powdery mildew. Averages 3-4 fruits per plant.
- '**Metro PMR**' 105 days. Butternut type. Smaller variety weighing 2½-3½ lbs. Exceptional storage life. SUPERIOR flavor! Compact. 4-5 fruits/plant.
- '**Winter Sweet**' 95 days. Kabocha type. A Johnny's favorite! Best eating quality is between 2 and 5 months after harvest. Glorious sage-gray fruits weigh 4-5 lbs. each. Extra long storability. Averages 2 fruits per plant and each pot or cell will have multiple plants in it. **3" Pots Only**

## STRAWBERRY

3" Pots, Bare-root 10/bundle

See "Fruits & Nuts" section of the nursery catalog for further information.

## SWISS CHARD

6 Packs

Swiss Chard is an excellent source of Vitamins A, C, and K. Rich in Calcium and Iron also. Will tolerate partial shade. Harvest the young leaves when tender, cutting only the outer leaves at the base of the plant. Be careful not to disturb the root system. Space 6" apart.

- '**Bright Lights**' 28 days baby, 55 days mature. AAS winner. Multi-colored stems of gold, pink, orange, purple, red, and white. Eat raw or lightly cooked. Milder taste than many chards.
- '**Lucullus**' 35 days baby, 52 days mature. Wide, white stalks that are delicious when treated like asparagus. This plant has incredible versatility- leaves, stalks, and even the flowers can be tasty when added to your meals. Plants may re-emerge after a mild winter to produce an early spring harvest. 20"H
- '**Rhubarb**' 35 days baby, 60 days mature. Glossy, dark green leaves are heavily crinkled with bronze/red veins and crimson stalks. 12-16"H

# TOMATILLO/GROUND CHERRY

4 Packs

*Physalis sp.* Fruits are borne and develop inside a papery husk. These members of the tomato family need to go in the ground when all danger of frost has passed and the soil is thoroughly warm. Plants need good drainage, no clayey soils! Plant deeply, leaving at least 3 sets of leaves above the soil line; spaced 3' apart in rows with 3-4' in between. Mulch lightly, spray with fish emulsion when they set flowers & again 2 weeks later. Keep plants strong by avoiding drought stress-give 2" of water/week. More cold tolerant than tomatoes and will bear fruits until a heavy frost.

**-ixocarpa 'Tamayo'** Tomatillo. 85 days. Tamayo produces fruits 2-3 times the size of the standard varieties, that's 4½" in diameter! Dark green fruits have lime green husks with an above average shelf life. Try making fresh, green salsa at home. Plant at least 2 plants to ensure pollination. **3" Pots Also**

**-pruinosa 'Goldie'** Ground or Husk Cherry/Dwarf Cape Gooseberry. 75 days. Masses of ½-¾" sweet berries have a "wild" indescribable kind of flavor that can be used in just about any culinary fashion; do not eat them green. Sprawling plants will produce all season long bearing up to **300** fruits each. At harvest, fruits have the tendency of dropping off the plants before they are fully ripe so simply scoop them all up and keep them in their husks in a basket for about a week where they'll turn ripe and their color will deepen. Picked fruits will keep fresh for up to 3 mos. in a mesh bag at 50°F!

# TOMATO

4 Packs (Unless Noted)

*Lycopersicon esculentum*. A staple of vegetable gardens. Tomatoes are low in calories and good sources of Vitamin C and lycopene, a beneficial caratinoid. Give your plants sweet soil for sweeter fruits, tomatoes like alkaline (limey) soils.

**Determinate** - Plants stop growing at a certain height, usually 2'. The crop will ripen over a short period of time, good if you're processing for storage. Good for containers and small gardens.

**Indeterminate** - Plants continue to grow until frost or the vines are top-pruned. The crop will ripen over a long period. Stakes or supports are needed as most will get tall!

# TOMATO, Continued

## Disease Resistance Codes:

A - Alternaria Stem Canker

Bs - Bacterial Speck

Ff - Fusarium Races 1&2

N - Nematodes

SWv - Spotted Wilt Virus

V - Verticillium Wilt

B - Early Blight

F - Fusarium Wilt

L - Late Blight

T - Tobacco Mosaic Virus

St - Stemphylium Gray Leaf Spot

YLc - Yellow Leaf Curl Virus

**-Cherry And Grape Varieties** - Good for snacking or in salads.

-**'Braveheart'** 60 days. Indeterminate. FTSt Well-behaved, med. sized plants produce bright red, sweet and juicy 1 oz cherry fruits with a rich, bold flavor. Thin crack-resistant skins. Good option for containers. **4½" Pots Also**

***NEW!*** -**'Chestnut Chocolate'** 75 days. Indet. Rich, indigo colored fruits FULL of sweet flavor-similar to a beekfsteak but in a smaller more colorful wrapper; ranging in size from golf-tennis ball. Very hardy-going until hard frost with good disease resistance! High yields with a good shelf life. **3" Pots Also**

-**'Cupid Hybrid'** 65 days. Indeterminate. ABsFSt. Meaty 1", grape type fruits are very sweet and crack-resistant. Vigorous plants yield loads of long trusses right up til frost. High disease resistance & holding ability.

-**'Jasper'** 60 days. Indeterminate. BFfL. This AAS winner has small deep red, cherry fruits that resist cracking and have a pleasantly chewy texture with a sweet flavor. Extra vigorous and tall. **4½" Pots Also**

-**'Juliet'** 60 days. Indeterminate. This AAS winning grape tomato is sweet and has deep red, shiny fruits that are 1½ to 2 ounces in size. With 12-18 fruits per cluster! Crack resistant. Very productive.

-**'Sungold'** 57 days. Indeterminate. FfV. Deep sweetness with a hint of acid tartness. Small, cherry type fruits in prolific clusters ripen early to a rich apricot color and produce until frost. EXCELLENT! **4½" Pots Also**

-**'Supersweet 100'** 65 days. Indeterminate. FTV. Clusters of very sweet, early season, cherry type fruits. **4½" Pots Also**

## TOMATO, Continued

**-Paste Varieties** - Good for sauces, typically maturing in a short window to make processing more convenient.

*NEW!*-'**Giant Garden Paste**' 95 days. Indeter. Gorgeous, large 8-10 oz fruits with a slight ribbing. High yielding and crack resistant with a meaty interior and the perfect balance of sweetness and tang. Excellent for canning & sauces yet also a wonderful choice for fresh eating. **4½" Pots Also**

-'**Roma**' 75 days. Determinate. VF Bright red, 2 oz. Italian pear-shaped fruits with meaty interiors make great sauces and ketchup.

*NEW!*-'**SuperSauce**' 70 days. Indeterminate. Jumbo 5" by 5" SEEDLESS fruits weigh about 2 lbs. each-nearly enough for a jar of sauce per fruit! Exquisite flavor. Virtually disease-free plants!

**-Dwarf Varieties** - Best suited for container gardening.

-'**Red Robin**' 55 days. Determinate. Masses of mild, sweet, 1" fruits on 8-12"H plants. Tender skin and good taste even when grown indoors. **3" Also**

-'**Tidy Treats**' 50-55 days. VF The compact determinate habit with the continuous production of an indeterminate type, this semi-determinate cherry tomato gives you loads of ¾-1" sized delicious, fruits. **4½" Pots Also**

**-Large Varieties** - Good for slicing, salads, and canning

-'**Better Boy**' 75 days. Indet. VFNASt. AAS winner. Very popular! High yields of dp red 8-14 oz. fruit w/ meaty interior. Wonderful flavor. **4½" Also**

-'**Big Beef**' 70 days. Indeterminate. VFfNTASt. AAS classic. Beefsteak type. Huge, 14 oz. fruits on large plants. Excellent flavor! **4½" Pots Also**

*NEW!*-'**Bodacious**' 80-85 days. Indeterminate. Large, vibrant 10-12 oz fruits are prolific with an heirloom-like aroma and tangy sweetness. Compact vines are 5-6' tall yet will produce 40-50 fruits per plant, per season! Large clusters are easy to pick and resist cracking with an excellent resistance to blight.

-'**Caspian Pink**' 80 days. Indet. Fruits are large, less rounded than most, reddish-pnk in color w/ excellent texture, sweet taste & great flavor. First var. to beat Brandywine in the CA trials for flavor! Avg. 10 oz. **4½" Also**

-'**Goliath Bush**' 68 days. Deter. VFN. This is the tomato for those limited on space! Pretty, compact plants grow 3½' tall requiring little staking. Meaty, flavorful 3-4" fruits with a high sugar content. Fruits consistently until frost. **4½" Also**

## TOMATO, LARGE FRUITING Continued

- '**Goliath Italian**' 76 days. Indeterminate. VFfNTA. Firm, 8 oz. beefsteak-type fruits with excellent, robust flavor! Vigorous plants have strong disease resistance. **4½" Pots Also**
- '**New Girl**' 62 days. Indeterminate. VFf. Better tasting and more disease resistant than Early Girl. Fruits are 4-7 oz. and hold their ripeness and flavor on the vine well.
- '**Parks Whopper CR Imp**' 65 days. Indet. VFfNT. The standard for taste, size & yield. Improved disease & crack resis. over the orig. Lrg, 12 oz. fruits make perfect sandwich slices-nearly covering a whole slice of bread! **4½" Also**
- '**Ultra Boy II**' 68 days. Indet. VFN. Good yields of early, globe shaped 14 oz. fruits are very firm, dark red with excellent old-fashioned flavor. **3" Also**
- '**Ultra Sweet**' 62 days. Indet. VFT. Early, very firm, med. sized beefsteak hybrid. Bright red fruits weigh 10oz. with an outstanding balance of acidity and sweetness that give that highly sought after "tomato" taste. **3" Also**

## CRESS (WATERCRESS)

6 Packs

*Nasturtium officinale*. This perennial green is a must for the garden, rich in vitamins with a delicious taste; hardy to zone 4. Its distinctive peppery kick blends well with astringent fruits like oranges and grapefruit. **Eat your greens**- researchers have found a compound in this plant that inhibits certain cancers! Grows best in full sun and very moist soil with a pH of 7.0. Especially easy when containerized. After the first month when the plant has good growth the whole pot may be submerged in water up to the lip, then change the water periodically. 50 days.

# HERBS

## Codes:

1=Culinary, 2=Medicinal, 3=Ornamental, 4=Dye, 5=Dried Flowers, 6=Aromatic  
A=Annual, B=Biennial, P=Perennial, TP=Tender Perennials, HP=Houseplant

## BASIL

3" Pots

*Ocimum basilicum*. 1,3.   A. This king of the herb world offers an array of flavors and scents. Ideal for salads, pesto, Italian dishes, and other ethnic cuisines. Pinch off blooms to prolong the harvest. Full sun, moderately rich, evenly-moist soil. In the past decade the disease downy mildew has become more prevalent for growers, that being said, it is imperative when growing basil at home that there be excellent air circulation. This disease is air-borne, loves basil and will render plants un-usable incredibly fast if conditions are favorable. This year we have selected all new strains with the strongest defenses (excepting the few specialized that cannot be substituted).

-**'Amethyst Imp'** Very dark, almost black, thick, down-turned leaves. 16-20"H  
**NEW!**-**'Eleonora'** Open habit and leaf shape contribute to an intermediate resistance to downy mildew. Genovese type with a somewhat spicier flavor than traditional types. Slow to bolt. Grow in-ground or pots. 18-24"H

-**'Mrs. Burns' Lemon'** Bright green, 2½" long leaves with an intense, sweet & tangy, lemon flavor. 20-24"H

**NEW!**-**'Prospera'** Classic genovese type with 3" long, glossy dark green leaves. Mild aroma with good flavor. Strong downy mildew resistance as well as fusarium resistance. Grows well in-ground or in containers. 20-24"H

**NEW!**-**'Rutgers DMR' Series** Finally, a sweet basil series developed for their strong ability to resist Downy Mildew. Vigorous, robust growth that can be harvested multiple times during the season.

Varieties include:

Obsession (For field and container growing, vigorous, high resistance to fusarium. Slightly spicy. Compact 16-18"H)

Devotion (For containers, genovese type, slightly sweet and spicy. Upright growth 18-20"H)

-**'Sweet Thai'** Spicy, anise-clove flavor that is most commonly used as a condiment in Asian cuisine. The stems and blooms are an attractive purple color. 12-18"H

## BAY

5½" Pots

*Laurus nobilis*. 1,2,3. HP. An evergreen tree hardy to zone 8, the Bay plant has always been associated with glory, honor, and greatness. Dried leaves can be used in soups, stews, marinades, sauces, or added to the water when cooking grains. Full sun to part shade when outside, Bright light when inside. Can grow to 6' tall indoors.

## BORAGE

3" Pots

*Borago*. 1,3. 🌱A. (Self Sows) Borage was said to give Roman warriors the courage to fight, or was that the wine they mixed it in? The chopped fresh leaves, with their cucumber-like flavor, and the flowers are delicious in salads and summer drinks. Add a few leaves when making a vegetable stock, or simply saute like spinach. Float the star-like blossoms in punches or freeze them in ice cubes. Flowers attract bees.

-*officinalis* Traditional, blue flowers. 36"H

-*officinalis* 'Alba' Pure white flowers. 20"H

## CATNIP

3" Pots

*Nepeta cataria*. 2. 🌱🐾P. Drives the felines into a frantic frenzy. Fragrant, bushy plants bear white flowers from May to September. This tough plant tolerates drought, dry, rocky soil, air pollution, and deer. Will also deter common vegetable garden pests such as the cucumber beetle, potato beetle, and squash bug. When rubbed on the skin researchers have found it to be a more successful mosquito repellent than DEET! As if that wasn't enough-it's sweet, minty flavored tea is a soothing nightcap and a folk remedy for colds. 18-24"H. Hardy to zone 3.

## CHAMOMILE

3" Pots

*Chamaemelum, Matricaria.* 1,2,3,5,6. ☞ Tea made from the centers of the flowers is very popular as an aid to digestions, to reduce fever or stomach cramps, and to calm inflammations. Makes a soothing and cleansing skin wash. In Europe it is not unusual to find entire lawns made of roman chamomile which when stepped on fills the air with a sweet apple aroma. Chamomile was also known as the "Plant's Physician" and it's said would aid in the recovery of ailing plants if planted near them; makes an especially good companion to cucumbers and onions. Prefers loamy soil with high sand content. Moist, but not waterlogged. Harvest the flowers in midsummer before they reach full bloom, dry in a well-ventilated place at 95°F, and store in cellophane bags or glass jars in the dark.

-**'German'** Sweet smelling, single white and yellow daisy-type blooms. Great in teas. Blooms the first year. Annual. 18-24"H

-**'Roman'** Lawn Chamomile. Strong fragrance, can have a bitter taste so it's the runner-up for using in edible applications but still contains the same effective properties as the german type. Blooms second year. 9"H Perennial to Zone 4.

## CHERVIL

3" Pots

*Anthriscus cerefolium.* 1. A. Traditionally used in all spring salads. Improves any dish where parsley is usually used and should be added to recipes at the end since heating may turn it bitter. Pairs well with thyme, spinach, sorrel, marjoram, and tarragon. Its subtle, warm flavor is something you might notice in the background but not be able to pinpoint. A carrot relative. Does not dry well, try making a compound butter with it or adding some to your béarnaise!

## CHIVES

3" Pots

*Allium.* 1,3,5. ☞☞P. A diminutive member of the onion family. Essential for every kitchen. Dainty, round clusters of edible, typically lavender colored flowers. Repels insects. Best when grown in well-drained soil, divide and replant the younger outer sections of plant every few years. 18"H

## CHIVES, Continued

- ‘**Geisha**’ Garlic Chives. AAS winning variety with that “just right” garlic flavor. Leaves are slightly wider, flatter, and more refined than others. An interesting ornamental or vigorous edible; your choice. 10-24”H
- ‘**Gigantic**’ Elegant, arching form with attractive star-shaped white flowers is appealing not just for culinary purposes. Has the pleasant flavor of chives as well as a faint garlic taste. Almost twice the size of standard chives. 24”H **6” Pots**
- ‘**Staro**’ Heavier leaves hold up better for processing, freezing, drying, or using fresh. 18”H

## CILANTRO (Coriander)

3” Pots

*Coriandrum sativum*. 1. A. Widely used culinary herb. Popular in Indian, Greek, Mexican, Latin American, and Asian cooking. The leaves have a very different taste from the seeds. The pale mauve flowers attract bees. Likes cool weather and moist, well-drained soil. 2½”H

- ‘**Cilantro/Coriander**’ Bred for maximum leaf production without bolting in the heat. 28”H
- ‘**Calypso**’ 50-55 days for leaves, 120-150 days for seed. Full, bulky plants provide a large, uniform harvest of scented leaves. Weeks slower to bolt than the competition. 12-18”H

## DILL

3” Pots

*Anethum*. 1. A. Best known as the flavor in pickles. Seeds add interest to dishes ranging from potato salad, to sauerkraut, to apple dishes. Try the chopped leaves with sour cream, vinegar, and sliced cucumbers or as a garnish.

- ‘**Bouquet**’ Compact plants with finely cut foliage are used primarily for their seeds in pickling. 18-20”H
- ‘**Fernleaf**’ Unique, dwarf plants with dark green leaves. Its used primarily for its fresh foliage in recipes. Slow to bolt. 18”H

# EUCALYPTUS

3" Pots

*Eucalyptus*. 2,3,6. TP. Broad shiny silver leaves on smooth grayish white stems are highly decorative and useful! Long utilized for aiding in respiratory ailments such as asthma, cough drops and antiseptic rinses which are made with oil from the leaves. Can be used indoors to neutralize and deodorize the air. Koala bear may love this but the insects and deer do NOT! Tolerant to a wide range of pH's. Light loamy soil is preferred with full sun and dry conditions being the norm. for them. They are heavy feeders and if given more water will grow faster but may develop blisters if it's too much, so ere on the dry side.

-*cinerea* '**Silver Dollar**' Ornamental variety used by florists for its lg. round leaves. Reddish-brown stems and slightly pink new growth are quite pretty and blend very nicely with container plantings. 2'H

-*pulverulenta* '**Baby Florist Blue**' Intense silvery-blue almost white leaves are covered in a waxy layer making them very long-lasting in arrangements. Perfectly round leaves grasp the stems attaching almost horizontally lending a much neater more formal appearance. Hardy to 20°F

# FENNEL

3" Pots

*Foeniculum*. 1,3. ♂TP. Feathery foliage holds rain drops as sparkling pearls. Stunning yellow flower umbels add interest to plantings, attracting butterflies all season and making an unexpected accent in containers. When adding to a prepared recipe that is hot it is best to wait until the very last moment because heat will destroy the delicate flavor. Average, well-drained soil is best.

**See Vegetable Section Also**

-'**Smokey-Bronze**' 50-60 days. Non-bulbing type. Bronze hued, lacy foliage that can be used in salads, dressings, or as a garnish. If left to set seeds their sweet, anise flavor can be used in baked goods or to make a tea for upset stomachs. A precious host plant for the Anise Swallowtail & Eastern Black Swallowtail. 30"H

# LAVENDER

3" Pots (Unless Noted)

*Lavandula*. 1,3,5,6. 🦋🐝P. Fragrant, typically blue-violet flowers for potpourris, sachets, soaps, and perfumes. Its scent is commonly used in aromatherapy applications for the soothing effect it has. Attracts butterflies. Fine border and accent plants yet not the easiest to establish in our area; be sure to give them a place with excellent drainage and slightly alkaline soil. Winter protection is necessary.

-*angustifolia* English lavender

-'**Big Time Blue**'. Earliest blooming with large, deep purple-blue flower spikes atop a cushion of gray-green foliage June to August. 24"H

-'**Hidcote Superior**' Fragrant lavender blue flowers. 12"H

-'**Munstead**' Lavender blue, fragrant flowers. 18"H

-*intermedia* Dutch Lavender, aka Lavandin. A cross of *angustifolia* and *latifolia*.

-'**Phenomenal**'. Heat, humidity, and drought tolerant with elegant lavender flowers. 22-24"H. **4½" Pots Also**

-*stoechas* '**Madrid Lavish**' Spanish Lavender. The FIRST series to have flowers with multiple bracts! Massive, long-lasting blooms (sometimes for months) are early and IMPRESSIVE. 10-15"H, 36"W

Colors include:                      Pink N/A  
   Purple

# LEMON BALM

3" Pots

*Melissa*. 1,2,6. P. A member of the mint family. Its latin name comes from the greek word for "bees" as it is a strong attractant for them. Fresh leaves make a calming, delicious tea or an interesting addition chopped and added into salads. Harvest whole stems before plant flowers and dry quickly to avoid leaves turning black. Useful in perfumes and soaps as well. Average, well-drained soil, grows well in sun or shade. 2½'H

## LEMON GRASS, WEST INDIAN

4½" Pots

*Cymbopogon citratus*. 1,2,6. TP. Aromatic grass from India. Used for flavorings, perfumes, and to treat digestive problems and fevers. This plant forms handsome, 2-3'H upright clumps of slightly arching light green foliage. Plant in full sun with well-drained soil and keep evenly moist. Can be overwintered in a sunny window. As the preferred species for culinary use, the stems can be crushed or chopped and used in soups and marinades.

## LEMON VERBENA

3" & 5½" Pots

*Aloysia triphylla*. 1,3,6. TP. A strong lemon flavor compliments other teas. Try adding finely crumbled dried leaves to your carrot, banana, or zucchini bread. Used in sachets. Excellent houseplant or for a cool sun porch. Can grow to 5'H.

## LOVAGE

3" Pots

*Levisticum officinale*. 1. ♂ P. Excellent flavoring for soups, stews, and casseroles. Celery-like flavor. Hollow leaf stems make good straws for Bloody Mary's, or so we hear! Tall growing, handsome, tropical looking herb. 5'H.

## MARJORAM

3" Pots

*Origanum majorana*. 1. A. A special, strong, spicy flavor. Rub on meat before cooking. Combines well with sage when used in poultry dishes. Oil from the top portion of the plant may be used in soaps.

- 'Sweet' Flowers early, compact, 20"H.

# MINT

3" Pots

*Mentha*. 1,3. 🌿P. Grown for the familiar leaves, which have long been cultivated for their oils. See almost any cookbook for uses. Partial shade and moist soil. Can be invasive, so sink the plant in the ground-container and all or plant it where you won't mind it spreading.

-'**Apple**' Sweet, fruity fragrance which is excellent used in teas or fruit salads.

Creamy white edged leaves are a pretty feature. 18-24"H

-'**Chocolate**' Bronzy peppermint-like foliage with a unique flavor. 24"H

-'**Kentucky Colonel**' Excellent spearmint flavor and scent, great for jellies.

Large leaves and a robust plant habit. 24"H Cut often for good regrowth.

-'**Mojito Cocktail**' The famous drink now has an official variety of Mint to go with it! Additionally this variety of spearmint complements anything that one would normally use mint for. 18-24"H & W

-'**Peppermint**' Deliciously spicy! Great for tummy-soothing tea. 24"H

-'**Strawberry**' Sweet, strawberry-like fragrance and petite green leaves. Lovely in fruit salads and in teas. 18-24"H

# OREGANO

3" Pots

*Origanum*. 1,2,3. 🌿 Necessary for Italian, Spanish, and Mexican cooking. Flavor compliments tomatoes nicely. An herb pantry staple, very versatile, the leaves can be used dried or fresh. Plant in full sun and lean, fast drying soils. Roots easily- take cuttings to grow indoors for your winter cooking. Its oils are said to have antiseptic properties.

-*majoricum* **Italian** This variety is actually a cross between sweet and wild marjorams lending a milder flavor than greek oregano. Clumping, mounding habit with some trailing branches. Tender perennial hardy to zone 6. 1-2'H

-*vulgare ssp. hirtum* **Greek** Strong growing, intensely flavorful leaves- 2nd best choice for cooking with. Hardy to zone 5, winter protection necessary. Spreading habit, 12-28"H **5½" Pots Also**

# PARSLEY

3" Pots

*Petroselinum*. 1. B. Balances flavors of food. Fresh green foliage makes an excellent garnish. High vitamin and iron content. Neutralizes garlic or onion aftertaste, also frequently used in dog treats for canine breath-freshening.

-**'Italian Dark Green'** Large, dark green, flat leaves with a strong flavor.

-**'Triple Curled'** Curly, almost sharp-edged leaves are milder in flavor than the flat.

# PATCHOULI

3" Pots

*Pogostemon*. 2,6. TP. Well known for its fragrance, it is often used in perfumes. It is also used to treat intestinal issues, colds, vomiting, and nausea. Skin conditions such as burns, chapped skin, fungal problems, and acne have also been treated with its oil. Bushy plants with large leaves reach 3-4'H. Prefers rich soil and part shade.

# ROSEMARY

3" Pots

*Rosmarinus officianalis*. 1,2,3,4,6.  TP. One of the most fragrant herbs. One hundred and one uses for decoration, hair and skin rinses, and cooking. Use the stems as skewers for barbecued kabobs. Butterflies and bees love rosemary and the honey produced is delicious. Attractive evergreen foliage and pale blue flowers. Fine houseplant for cool, sunny windows!

-**'Blue Spires'** Well-branched habit with sweeping upright shape and clear blue flowers. 4'H

-**'Gorizia'** Larger overall with bigger light blue flowers & larger needle-like leaves. Robust very vertical habit of up to 5'H. Excellent candidate for topiaries.

-**'Prostratus'** Creeping, low-spreading groundcover. Violet blue flowers. Trails up to 3'. 6-12"H.

-**'Tuscan Blue'** Upright habit & broader leaves than other varieties. Clear blue flowers. **6" Pots Also**

## RUE

3" Pots

*Ruta*. 3,5,6. ☞☞P. A hardy subshrub with gray, aromatic foliage. Repels fleas. The oils in this plant can cause skin rashes on some people. Rue is best used in ornamental gardening and its value as a medicinal plant is outweighed by its toxicity. Belonging to the Rutaceae family, this plant is one of the few that serves as a host for the Giant Swallowtail Butterfly larvae; witnessed here in 2012!

*-graveolens* Dainty clusters of yellow flowers are followed by attractive green seed capsules. 3'H

## SAGE

3" Pots

*Salvia*. 1,3. ☞TP. Originally found in the Mediterranean. Used in flavoring meats and cheeses. Tolerant of hot, dry conditions. Some are not meant to be edible but are more intended to be decorative additions in planters and beds.

*-elegans 'Pineapple'* Delicious pineapple scent and flavor. Brilliant red flowers appear late in the season. 2-3'H

*-officinalis varieties*

*-aurea 'Golden Variegated'* syn. Good Friends Golden. Chartreuse-yellow leaves with dark green markings. 12"H

*-'Berggarten'* Large, gray blue leaves. Robust and low growing. 24"H

*-'Common'* Gray-green leaves and pale blue flowers, best variety for culinary purposes. 32"H

*-'Purpurea'* Aromatic purple foliage. 12-24"H

*-'Tricolor'* Ornamental, aromatic, white, green, and pink foliage. 12-18"H

## SAVORY

3" Pots

*Satureia*. 1. Adds special flavor to dishes with peas, beans, or lentils. Excellent in vegetable juices, meatloaf, and with rice.

-'Summer' A. Has a delicate flavor. Interesting addition to green beans. Harvest often during the season then enjoy the beautiful fall show with the contrast of lavender flowers and purplish foliage. 1½'H

-'Winter' P. Strong, more pungent flavor works well in hearty stews. Shinier, thicker leaves than the annual type. Attractive low bush for borders, light lilac flowers. Thrives in dry, poor soil and is hardy to zone 3. 6-12"H 5½" **Pots Also**

## SORREL

3" Pots

*Rumex acetosa*. 1,2,4. P. Grown for greens in the old-fashioned garden, popular in french cuisine. Adds lemony zest to bland foods. Great additions to salads. Leaves are high in Vitamin C.

Remove flowers as they form to keep leaves tender. Harvest often. 12"H

## STEVIA

3" Pots

*Stevia rebaudiana*. 1. A. The glucoside compounds found in this plant make it 200-300 times sweeter than cane sugar without the resulting calories and tooth decaying plaque. Their dried, powdered leaves can be substituted for sugar in recipes. Leaves consumed fresh tend to be less sweet. This native of Paraguay and Brazil prefers rich, consistently moist, well-drained soil and thrives in sandy loam. Will tolerate partial shade. Bushy plants are high-yielding and produce the best quality of leaves for harvesting prior to flowering. 1-2'H & W

## SWEET ANNIE

3" Pots

*Artemisia annua*. 5,6. A. Large, pyramid-shaped plants have fern-like, dark green foliage. Sweetly scented foliage can be dried and used for wreaths and decorations. Bears panicles of tiny yellow flowers. Full sun, average to fertile well-drained soil. 4-7'H

## TARRAGON

3" Pots

*Artemisia dracunculus var. sativa*. 1,6. P. Ours is the true French strain. Use fresh leaves, in small amounts, in sauces, salads, meat, vegetable, and egg dishes. Preserve dried, frozen, or in white vinegar. Plants are heavy feeders and need plenty of water. 24"H

## THYME

3" Pots

*Thymus*. 1,3,5,6. ☞☞P. A fundamental herb in French cooking. Pretty pink or purple flowers attract bees and butterflies. Excellent for rockeries, borders, and in cracks along pathways. Creeping and bush types. All do best in poor, well drained soil. Full sun. **Also see our complete listing in the nursery catalog.**

**-*citriodorus* varieties Lemon Thyme**

**-'Doone Valley'** Pungent, tiny green leaves are splashed with yellow.

Compact, low-growing 5". Tender perennial.

**-'Golden Lemon'** Pungent lemon scent and golden variegated foliage which is more pronounced in bright light. 6-10"H. Tender perennial.

**-'Lemon'** Light green leaves with pale lavender-white flowers produced in summer. 6"H

**-*vulgaris* English Thyme** Rounded leaves and a semi-creeping habit. Classic culinary Thyme. 6-8"H

**-*vulgaris* French or Summer Thyme** Narrow, distinctly gray leaves have a sweet almost medicinal fragrance. The variety most preferred by the french.
