

HANGING BASKETS

This year, Surry Gardens is offering an exciting selection of hanging baskets. There is sure to be one that will meet your needs. We have plants for sun and shade and plants that will tolerate heat, cool temperatures, and wind.

Get your baskets early, they don't hang around for long.

To ensure that our hanging baskets beautify your surroundings all season, we recommend the following care. For general feeding, we suggest Osmocote brand time-release fertilizer pellets. (14-14-14) Apply at the time of purchase, and reapply every 4 to 6 weeks. The recommended amounts to add are as follows: 8" baskets - 3 tablespoons, 10" baskets - 5 tablespoons, 12" baskets - 7 tablespoons, 14" baskets - 9 tablespoons, and 16" baskets - 12 tablespoons. In addition to Osmocote, some varieties will need supplemental feeding of a water soluble fertilizer such as Peter's Blossom Booster or Miracle-Gro. These heavy feeders are noted in their descriptions. To keep your plants beautiful throughout the season, it is important to check water daily and remove all spent blossoms and seed pods. All our baskets are priced on labels or at the sales checkout.
